DEPARTMENT OF AGRICULTURE, BENGAL.

Special Forecast of the Wheat Crop of Bengal, 1916-17.

(Note.—On an average of the five years ending 1914-15 the area under Wheat in Bengal has represented some 0·5 per cent. of the total area under wheat in India. The ratio of irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has in the five years ending 1914-15 averaged (a) 38·1 per cent. and (b) 16·8 per cent. respectively.)

Explanatory.—This forecast shows the final acreage and yield of the wheat crop of Bengal and is published as a special case under orders of the Government of India in the Department of Revenue and Agriculture. The usual final forecast will be published in May as in previous years.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 9th April 1917.

Summary.—Light scattered showers fell in parts of the Province. More rain is needed. Preparation of lands for jute and other autumn crops continues but is retarded owing to want of rain. The sowing of jute and autumn paddy is proceeding in the Eastern Bengal districts. Harvesting of spring crops is still going on in Western Bengal. Prospects of tobacco, summer rice, sugarcane and other standing crops are reported to be fairly satisfactory. Cattle-disease is reported from eight districts. The average price of common rice has fallen slightly as compared with that of the previous week.

NOTIFICATION.

Simla, the 6th April 1917.

No. 421-I.B.—In exercise of the powers conferred by section 5 of the Registration Ordinance, 1917, as applied to the Railway Lands and Administered Areas in Rajputana, the Governor-General in Council is pleased to make the following rules :—

Short title

1. These rules may be called the Rajputana Special Areas Registration Rules, 1917.

Definitions

2. In these rules, unless there is anything repugnant in the subject or context, "the Ordinance" means the Registration Ordinance, 1917, as applied to the said lands and areas ;

"the competent military authority" means the General Officer Commanding the Division or Independent Brigade within the territorial limits of which the registered person ordinarily resides.

Period within which a person must register

3. For the purpose of section 3 of the Ordinance, the prescribed period shall be—

(*a*) in the case of persons resident in the said lands or areas on the date on which the said Ordinance was applied thereto—two months from the commencement of the Ordinance ; and

(*b*) in the case of persons becoming subject to the provisions of the Ordinance after the said date—one month from the date on which they become so subject.

Registration authority to provide forms

4. (*1*) The registration authority shall, as far as possible, cause to be delivered to every person to whom the provisions of sub-section (*1*) of section 3 of the Ordinance apply a copy of Form A specified in Schedule I of the Ordinance :

Provided that nothing in this sub-rule shall be construed as relieving any person of the obligation to register imposed on him by the Ordinance.

(*2*) The registration authority shall cause public notice to be given in such manner as it may think fit as to the places where copies of the form can be obtained.

Disposal of claims to non liability

5. (*1*) For the purposes of section 4 of the Ordinance, the prescribed authority shall be such person as may be appointed by the competent military authority by order in writing in this behalf.

(*2*) Where a claim is lodged with the registration authority, in accordance with the provisions of sub-section (*1*) of section 3 of the Ordinance, the registration authority shall forward the claim to the competent military authority.

(*3*) On receiving a claim under sub-rule (*2*), the competent military authority shall, unless he allows the same, direct the authority prescribed by sub-rule (*1*), to apply for the decision of the claim to the District Magistrate or other officer specially empowered in accordance with the provisions of section 4 of the Ordinance.

(*4*) If the competent military authority or an officer deciding a question under section 4 of the Ordinance allows a claim, he shall forward a copy of his order to the registration authority.

Notification of change of address

6. (*1*) If any person registered under the Ordinance changes his place of residence, such person shall, unless the change is merely temporary, within seven days thereafter notify the registration authority of such change.

(*2*) If any person refuses or, without lawful excuse (the burden of proving which shall lie upon him), neglects to make the notification required by sub-rule (*1*), he shall be punishable with fine which may extend to two hundred rupees.

Maintenance of register

2. The draft amendment will be taken into consideration on or after the 28th May 1917, and any objection or suggestion which may be received by the undersigned through the District Magistrate before that date will be duly considered.

Draft amendment.

For sub-rule (*2*) of rule 5 *substitute* the following :—

(*2*) When by-laws do not follow model by-laws approved by the Local Government, but the alterations are of a minor character, and, in the opinion of the Commissioner, do not involve any question of law, the Commissioners may confirm them without reference to Government.

(*3*) When any question of law or material addition to the model by-laws is involved, the Commissioners shall submit them to the Local Government for approval before confirmation.

No. 1094L.S.-G.—The 16th April 1917.—The following draft of the rules which the Governor in Council proposes to make under clauses (*q1*) and (*t*) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), for regulating the powers and duties of Union Committees in regard to sanitation, conservancy and drainage works under sections 115 and 116 of that Act, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 18th May 1917 and any objection or suggestion received by the undersigned through district officers before that date will be duly considered.

DRAFT RULES REGULATING THE POWERS AND DUTIES OF UNION COMMITTEES IN REGARD TO SANITATION, CONSERVANCY AND DRAINAGE WORKS UNDER SECTIONS 115 AND 116 OF THE LOCAL SELF-GOVERNMENT ACT, 1885.

1. A Union Committee shall not execute, under section 115 or section 116 of the Bengal Local Self-Government Act of 1885, any work which is estimated to cost over Rs. 1,000 except with the previous sanction of the District Board, but it may arrange for the execution of a work of which the estimated cost does not exceed Rs. 1,000.

2. Works estimated to cost over Rs. 1,000 may be executed under the supervision either of the Union Committee or of the District Board staff, as the District Board may direct.

3. When a work is executed under the supervision of the Union Committee, it shall be competent to the Chairman of the District Board at any time to direct that it shall be supervised by an officer deputed by him.

4. The Chairman of the District Board may authorize an officer to inspect any work executed by a Union Committee.

5. No member of a Union Committee may, without the sanction of the District Board, contract for or engage in any work executed at the expense of the Union Committee of which he is a member.

***N. B.*—[The scale of fees as given in this Prospectus is payable by students admitted to the College from the beginning of the Session 1916-17 and will not apply to old students who will continue to pay the existing rate of fees.]**

MEDICAL COLLEGE OF BENGAL.

RULES FOR THE GUIDANCE OF STUDENTS SEEKING ADMISSION.

1. Three classes of students are admitted for study in the College—

(*a*) "Regular," or those who enter for the full University course.
(*b*) "Casual," or those who enter for selected or isolated subjects.
(*c*) "Military Class" (only students of European or Eurasian parentage are admitted to this class). (See separate Prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the—

(*a*) "Regular Class" is the I. Sc. pass certificate of the Calcutta University.

NOTE.—In 1917 and 1918 only, in addition to the I. Sc. pass certificate, the I A pass certificate of the Calcutta University and, in the case of the six scholarship-holders nominated by the Government of Bihar and Orissa, the Matriculation Pass Certificate will be accepted as a minimum qualification for admission.

(*b*) "*Casual*"—The Matriculation or Entrance Pass Certificate of the Calcutta or other Indian Universities, or the pass certificate of an examination equivalent to the Matriculation or Entrance Examination.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in his office before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspector-General of Civil Hospitals of their respective Provinces for admission within such date as the latter may prescribe.

Selected candidates must pay the following fees on or before the 10th June, failing which their names will be struck off the selected list:—

	Rs.	A.
Admission fee	20	0
Fees for Summer term	62	8
Athletic Club fee	1	0
Total ...	83	8

5. The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

Of the total number to be admitted, twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa and six candidates by the Inspector-General of Civil Hospitals of Assam. These candidates must possess the qualifications mentioned in rule 2 (a). In addition, the Bihar and Orissa Government will nominate six scholars, who after 1918, must possess the I. Sc. pass certificate. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year failing which the Principal will fill up vacancies with local candidates.

6. Failed students must apply for admission and pay fees before the 15th May, otherwise their prior claim lapses.

7. All Regular students must pay an annual fee of Rs. 125 in two instalments, viz., Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. Fees once paid cannot be refunded.

8. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June, and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

9. All Regular students must pay an annual fee of Re. 1 to the Medical College Athletic Club along with the fees for the Summer term.

10. Muhammadan students are required to pay the entrance fee of Rs. 20 and half the annual College fee in two instalments, the remaining half fees being charged to the Mohsin Fund.

11. Students relegated to a further course of study after their failure at the Preliminary Scientific M. B. and at the First M. B. Examinations shall pay Rs. 80 for the whole session in one instalment by the 1st June.

12. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.

13. The fees for Casual students or for Certificates issued to Regular students leaving the College before completing their study or for those issued to Military students shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital Practice.

14 Students who fail at the Final M. B Examination shall pay fees for the whole session at the following rates in one instalment by the 1st June :—

	Rs.
For one subject	25
„ two subjects	50
„ three or more subjects	75

15. In calculating the sum to be paid under Rule 12 by a Regular student, the amount of College fees paid by him or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him, had he been a paying student, shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 12 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. No fees are payable by female students.

19. Holders of a stipendiary scholarship of a value less than Rs. 20 per mensem are not required to pay the annual fee of Rs. 125 for the year in which they hold a scholarship. All other scholarship-holders shall pay the same fees as Regular students.

20. The following are the curricula of the College :—

REGULAR STUDENTS.

21. Female students must be over 17 years of age, and are to reside in the Surnomoyee Hostel attached to the Medical College.

22. The following are the scholarships and rewards obtainable by students:—

(*a*) Ten Junior College scholarships of Rs. 8 each, tenable for one year, together with free tuition and refund of first year's fees, are awarded to ten students on the result of the Scholarship Examination at the end of the first-year class, provided such students also pass the Preliminary Scientific M. B. Examination of the Calcutta University at the first attempt.

(*b*) Ten Junior College scholarships of Rs. 8 each, tenable for one year, together with free tuition, are awarded to ten students on the results of the Second year's Test and Scholarship Examination.

(*c*) Ten Senior scholarships of Rs. 12 each, tenable for three years, together with free tuition, are awarded to ten students on the results of the Honour Examination of the third-year class, provided such students also pass the First M B. Examination of the Calcutta University at the first attempt.

(*d*) A Government scholarship of Rs. 20 per month is awarded to all female students of the Regular class who do not get the Dufferin Fund or other scholarships

(*e*) Special scholarships for Bihari and Uriya students—

Six scholarships of Rs. 12 each to six students from Bihar and Orissa, tenable for six years from the date on which the students enter the College, are awarded by the Inspector-General of Civil Hospitals of Bihar and Orissa.

23. A student holding a Senior scholarship, who fails to pass the Test Examination of the fourth year to the satisfaction of the Principal, will forfeit his scholarship which may be awarded for two years to the student of the fifth-year class who stands highest in the results of the Fourth year's Examination and is not the holder of a scholarship.

24. Senior and Junior scholarships will not be awarded to any student who has gained the Durga Charan Laha Scholarship of Rs. 30 per month or any other scholarship.

25. Regular students, who at any time preferred for a second year of study in all the subjects of one curriculum, are thereby rendered ineligible for any of the stipendiary scholarships; Junior and Senior. They are, however, eligible for the special scholarships and class prizes and medals and Certificates of Honour of the College.

26. Certificates of Honour, to the number of three in each subject, may be awarded by the Professors, subject to the sanction of the Principal, to such students who have not obtained the medal, but are deemed worthy of it.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 16th April 1917

Summary.—During the week heavy rain fell in the Chittagong Division, but the fall was light in the Burdwan, Presidency and Dacca Divisions. There was practically no rain in the Rajshahi Division. Preparatory operations for jute and autumn paddy are in progress; sowings continue but progress is being retarded especially in the northern districts for want of rain. Young jute and autumn paddy have suffered through want of rain in Rangpur and in parts of Dacca district. Harvesting of spring crops is nearly completed; the outturn is fairly satisfactory. Sugarcane and other standing crops are generally reported to be doing well. Cattle-disease is reported from eleven districts. The average price of common rice for the Province has remained almost stationary with a slight tendency to rise as compared with that of the previous week.

N. B.—**[The scale of fees as given in this Prospectus is payable by students admitted to the College from the beginning of the Session 1916-17 and will not apply to old students who will continue to pay the existing rate of fees.]**

MEDICAL COLLEGE OF BENGAL.

RULES FOR THE GUIDANCE OF STUDENTS SEEKING ADMISSION.

1. Three classes of students are admitted for study in the College—

(*a*) "Regular," or those who enter for the full University course.
(*b*) "Casual," or those who enter for selected or isolated subjects.
(*c*) "Military Class" (only students of European or Eurasian parentage are admitted to this class). (See separate Prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the—

(*a*) "Regular Class" is the I. Sc. pass certificate of the Calcutta University.

NOTE.—In 1917 and 1918 only, in addition to the I. Sc pass certificate, the I. A pass certificate of the Calcutta University and, in the case of the six scholarship-holders nominated by the Government of Bihar and Orissa, the Matriculation Pass Certificate will be accepted as a minimum qualification for admission.

(*b*) "*Casual*"—The Matriculation or Entrance Pass Certificate of the Calcutta or other Indian Universities, or the pass certificate of an examination equivalent to the Matriculation or Entrance Examination.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in his office before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspector-General of Civil Hospitals of their respective Provinces for admission within such date as the latter may prescribe.

Selected candidates must pay the following fees on or before the 10th June, failing which their names will be struck off the selected list :—

	Rs.	A.
Admission fee	20	0
Fees for Summer term	62	8
Athletic Club fee	1	0
Total ...	83	8

5. The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

Of the total number to be admitted, twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa and six candidates by the Inspector-General of Civil Hospitals of Assam. These candidates must possess the qualifications mentioned in rule 2 (a). In addition, the Bihar and Orissa Government will nominate six scholars, who after 1918, must possess the I. Sc. pass certificate. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year failing which the Principal will fill up vacancies with local candidates.

6. Failed students must apply for admission and pay fees before the 15th May, otherwise their prior claim lapses.

7. All Regular students must pay an annual fee of Rs. 125 in two instalments, viz., Rs 62-8 for the Summer term and Rs. 62-8 for the Winter term. Fees once paid cannot be refunded.

8. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June, and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

9. All Regular students must pay an annual fee of Re. 1 to the Medical College Athletic Club along with the fees for the Summer term.

10. Muhammadan students are required to pay the entrance fee of Rs. 20 and half the annual College fee in two instalments, the remaining half fees being charged to the Mohsin Fund.

11. Students relegated to a further course of study after their failure at the Preliminary Scientific M. B. and at the First M. B. Examinations shall pay Rs. 80 for the whole session in one instalment by the 1st June.

12. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.

13. The fees for Casual students or for Certificates issued to Regular students leaving the College before completing their study or for those issued to Military students shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital Practice.

14 Students who fail at the Final M. B. Examination shall pay fees for the whole session at the following rates in one instalment by the 1st June :—

	Rs.
For one subject	25
„ two subjects	50
„ three or more subjects	75

15. In calculating the sum to be paid under Rule 12 by a Regular student, the amount of College fees paid by him or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him, had he been a paying student, shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 12 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. No fees are payable by female students.

19. Holders of a stipendiary scholarship of a value less than Rs. 20 per mensem are not required to pay the annual fee of Rs. 125 for the year in which they hold a scholarship. All other scholarship-holders shall pay the same fees as Regular students.

20. The following are the curricula of the College :—

The Hon'ble Mr. J. G. Cumming and the Hon'ble Mr. E. B. H. Panton made an oath of their allegiance to the Crown.

LIST OF BUSINESS—ITEM No. 2.

(STARRED QUESTIONS.)

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Lowest grade of Munsifs.

*1. (*a*) Is it a fact that the Secretary of State has sanctioned the abolition of the existing 5th grade of Munsifs; if so, when was the sanction received and from what time was it intended to take effect?

(*b*) Will the Government be pleased to lay on the table all material papers and correspondence relating to this sanction, or at any rate the final communications regarding the said sanction?

(*c*) Will the Government be pleased to state whether the said sanction was intended by the higher authorities to be given effect to, irrespective of the recommendations of the Public Services Commission?

(*d*) Was it at any time in the contemplation of the Local Government to give effect to the sanctioned abolition, since the receipt of the sanction; if so, when?

(*e*) Is it a fact that, in their report, the Public Services Commission have proceeded on the assumption that the existing lowest grade of Munsifs in Bengal is the 4th grade on Rs. 250?

Answer by the Hon'ble MR. KERR :—

" (*a*) to (*d*) So far as the Government of Bengal are aware, the question of the abolition of the 5th grade of Munsifs has never been submitted to the Secretary of State The Government of India intimated in 1914 that consideration of the matter must be deferred pending the receipt of the report of the Royal Commission on the Public Services.

(*e*) The Commission do not appear to have referred in their report to the pay of the existing lowest grade of Munsifs, but, in the table on page 225 of the report under the heading " Present Scale," the Munsifs on Rs. 200 are termed officiating Munsifs. It is clear, however, from the evidence given before the Commission that they must have been aware that the present pay of the lowest grade of Munsifs in Bengal is Rs. 200."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Bengali emigrants.

* 2 Will the Government be pleased to lay on the table a statement for the last five years, showing, year by year, the number of Bengali emigrants, if any, under the system of indenture, with particular reference to—

(*i*) their destination;

(*ii*) their religion and caste and home district;

(*iii*) the proportion of males to females, and

(*iv*) the number of children of either sex accompanying them?

Questions and Answers.

Answer by the Hon'ble MR. DONALD :—

" A statement giving the information asked for by the Hon'ble Member is laid on the table. Exact information as to the home district of the emigrant is not available and the district of residence has therefore been adopted in the statement."

Employment of Bengalis in the Fiji Islands.

Appointment of non-official Chairman to District Boards.

* 4. (*a*) Will the Government be pleased to state whether it is their intention to appoint a non-official as Chairman of any other District Boards besides that of Murshidabad?

(*b*) What considerations, if any, govern the choice of the particular District Boards in connection with which the experiment is to be made?

Answer by the Hon'ble MR. DONALD :—

" (*a*) The Government have not under consideration at present a proposal to appoint a non-official as Chairman of any other District Board, and they are not in a position to make any statement regarding future intentions.

(*b*) The presence in the district of Murshidabad of a gentleman under whom it was thought the experiment would have a fair chance of success, and who was willing to undertake the duties of Chairman, was one of the factors which led to the choice of this particular District Board "

By the Hon'ble MAULVI ABUL KASEM :—

Floods of the Damodar.

I. (*a*) Will the Government be pleased to state what measures they are taking to mitigate the effects of the floods of the Damodar and to protect the villages and areas of land lying on the right bank of the Damodar?

(*b*) Are the Government aware of the fact that breaches on the right bank of the Damodar, such as those at Kumirkhola, Nakra, Nooto, Birupur, Jamdaha and Srikrishtopur, have placed the country entirely at the mercy of the river and that a slight rise in the river during ordinary rains, floods the country and causes great damage to crops and cultivation?

Answer by the Hon'ble MR. COWLEY :—

" (*a*) The Hon'ble Member is referred to the answer given to the Hon'ble Maulvi Mazharul Anwar Chaudhury at the meeting of 12th January, 1916. Government propose to take up the following works for mitigating the effects of the Damodar floods :—

(*i*) the retirement of the Baxi khal embankment at the Rupnarain end and the widening of the khal. The estimate for these works amounts to Rs. 2,45,717; and

(*ii*) the construction of a short channel from Kharia on the Gaighatta khal to join with the Ghesapatty khal. The estimate for this work amounts to Rs. 1,50,645. Government have not under consideration any project for protecting the villages and areas of land lying on the right bank of the Damodar by protective or other embankments.

(*b*) Government are aware that breaches have taken place in the right bank of the Damodar at Kumirkhola, Nakra, Nooto, Birupur and Srikrishtopur. It is not correct to state that the country is thereby entirely placed at the mercy of the river in low floods; it is, however, in a measure the case at Kumirkhola, where a definite escape from the river has been formed by nature which it is not proposed to close. Government have no information on the subject of a breach at Jamdaha on the Damodar. Perhaps the Hon'ble Member is referring to the breach at Jamdaha in the Ajai embankment."

SUPPLEMENTARY QUESTION.

(Question No. I.)

The Hon'ble MAULVI ABUL KASEM asked :—

" Is it a fact that great damage was caused to crops and huts in villages on the right bank of the Damodar by the recent breaches in question ?"

The Hon'ble MR. BEATSON BELL replied :—

" The damages done to the right bank of the Damodar have not been serious in recent years."

Questions and Answers.

By the Hon'ble MAULVI ABUL KASEM :—

Floods of the Ajai.

II. (*a*) Will the Government be pleased to state what measures they are taking to mitigate the effects of the floods of the Ajai and to protect the villages and areas of land lying between the rivers Ajai and Kunoor in thana Mangalkote of the Burdwan district and the land lying on the right bank of the Ajai in thana Ketugram and in the district of Birbhum?

(*b*) Are the Government aware of the fact that the breach on the bank of the Ajai at Chandkhali in thana Ketugram, district Burdwan, subjects a large number of villages to floods almost every year and that great damage is done to crops and villages?

Answer by the Hon'ble MR. COWLEY :—

" (*a*) Investigations involving difficult problems of engineering are still going on. Government are not yet in a position to state what measures they intend to take to mitigate the effects of floods of the Ajai in the thanas of Mangalkote and Ketugram in the districts of Burdwan and Birbhum

(*b*) Government are aware that a certain area in thana Ketugram was flooded in 1916 by the Ajai river, but it is an exaggeration to say that a large number of villages suffer great damage almost every year."

By the Hon'ble MAULVI ABUL KASEM :—

Damage caused by the floods of the Ajai and Kunoor.

III. Will the Government be pleased to lay on the table the report of the inquiry made by the Superintending Engineer as to the extent of the damage caused by the floods of the Ajai and Kunoor rivers?

Answer by the Hon'ble MR. COWLEY :—

" A printed copy of the report will shortly be supplied to the Hon'ble Member and another copy will be laid on the table of the Library."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Record-of-rights in the district of Mymensingh.

IV. (*a*) Will the Government be pleased to state whether the record-of-rights has been finally published in all the subdivisions of the district of Mymensingh?

(*b*) Is it a fact that in some places in Mymensingh—particularly Netrakona—the settlement map has not been published simultaneously with the rest of the records?

(*c*) If the answer to clause (*b*) be in the affirmative, will the Government be pleased to state whether the record-of-rights is taken to have been finally published in these places, and will the period of limitation specified in section 105 (*1*) of the Bengal Tenancy Act begin to run before the publication of the map?

(*d*) Are the Government considering the desirability of postponing all further proceedings in these areas, including recovery of the settlement costs, pending the publication of the map?

Questions and Answers.

Answer by the Hon'ble MR. KERR :—

" (*a*) No.

(*b*) Publication of the settlement map is not a process prescribed by law. Printed copies of the settlement maps are ordinarily distributed at the time of final publication. This has not been found possible in some parts of Mymensingh district because the maps were not ready in time.

(*c*) The final publication of the record-of-rights under section 103 A of the Bengal Tenancy Act is independent of the distribution of printed maps and the period of limitation specified in section 105 (*1*) is not affected by the date of distribution of maps.

(*d*) No."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Construction of the Bheel Route canal.

V. (*a*) Will the Government be pleased to lay on the table a statement showing how some of the villages in the subdivision of Gopalganj in the district of Faridpur, bounded on the north by the river Kumar, on the south and east by the Bheel Route canal and on the west by the river Madhumati, have been affected by the construction of the Bheel Route canal, indicating specially—

(*i*) the present condition of the Balugram-Tetulia khal and its tributaries and their draining capacities;

(*ii*) the condition of the lands lying to the north and west of the canal during the rainy season, and how they are drained;

(*iii*) whether some of the lands bordering on the western bank of the canal have been raised by the earth thrown up by the dredgers; and, if so, how the outlets for water from that side have been affected thereby;

(*iv*) how many sluice-gates have been constructed along the eastern bank of the canal, and who are in charge thereof;

(*v*) whether it is a fact that the said gates are not generally opened at high-tide; and that as a consequence the entire tidal water often flows over the lands lying to the west of the canal and submerges them?

(*b*) Are the Government considering the advisability of re-excavating the Balugram-Tetulia khal, from Tacker Hât up to the canal, and of providing drainage facilities for the lands on either side thereof?

(*c*) Are the Government aware of the opinion that has been expressed that if the said khal be made navigable, it will provide a short route from the Gopalganj subdivision to the District headquarters?

(*d*) What steps, if any, are the Government taking to improve the condition of the lands lying to the west of the canal as indicated in the foregoing questions?

Answer by the Hon'ble MR. COWLEY :—

" (*a*) The villages in the area referred to by the Hon'ble Member have not been adversely affected as a result of the construction of the Bheel Route canal and connected works.

(*i*) Government have no particular information regarding the Balugram-Tetulia khal. Generally the khals to the north and west of the Bheel Route have not been affected in any way.

Questions and Answers.

Answer by the Hon'ble MR. COWLEY—*contd.*

(*ii*) The condition of the lands lying to the north and west of the Bheel Route have not been affected by the construction of the Bheel Route and connected works, as is proved by the following levels of water in the bheel. In 1906, *i.e.*, before the high embankment on the south side of the Bheel Route was constructed, the water levels recorded were as follows :—

Date—31st August 1906.

W.L. at Tacker Hât	...	...	96·75 R.L.
W.L. at Haridaspur	...	...	93·60 R.L.

In 1915, when only one khal, viz., the Pachar khal, had been closed by the embankment, the water levels recorded were—

Date—14th September 1915.

W.L. at Tacker Hât	...	...	95·85
W.L. at Haridaspur	...	...	93·75

In 1916, after construction of the sluices in the high embankment on the south of the Bheel Route and closing of the khals, except two, viz., Baniachur and Golabari khals, the water levels recorded were—

Date—22nd September 1916.

W.L. at Tacker Hât	...	...	95·00 R.L.
W.L. at Haridaspur	...	...	92·82 R.L.

It may also be said that these levels in 1916 were temporarily high owing to the cyclonic storm which passed over this area at the time. The area referred to by the Hon'ble Member is ordinarily drained by the following outlets :—

The Lower Kumar river.

Khalia khal.

Seindia khal.

Baniachur khal (now open; will probably be sluiced).

Masonry escape—

16th mile, Bheel Route.

14th mile, Bheel Route.

10th mile, Bheel Route.

9th mile, Bheel Route, at Salpai.

8th mile, Bheel Route, at Dollali.

7th mile, Bheel Route.

5th mile, Bheel Route, at Kangsur.

Questions and Answers.

Answer by the Hon'ble MR. COWLEY—*concld.*

4th mile, Bheel Route, at Olpur.

Under construction near Gopalganj (the khal was closed last year).

Golabari khal at Gopalganj.

Manikdah channel to river Madhumati.

(*iii*) A small area opposite Haridaspur was raised with sludge discharge from the dredger. The drainage of this area has to some extent been blocked temporarily. The khal leading into the Baderkhagail khal will shortly be re-excavated.

(*iv*) The following sluices or escapes have been constructed in the embankment on the south of the Bheel Route :—

(*a*) Four masonry escapes in miles 7, 10, 14 and 16.

(*b*) Four sluices in miles 4, 5, 8 and 9.

(*c*) One sluice under construction at Mussulmanpara, near Gopalganj.

(*d*) Two more sluices are proposed in the 14th mile at Bherandabari and in the 17th mile at Baniachur.

These are all in charge of officers of the Public Works Department.

(*v*) The tidal influence is not operative except in the dry season, when the sluices are kept open. As high tide levels do not rise above the general ground level, the area to the west of the Bheel Route is not affected by the tides.

(*b*) No.

(*c*) No.

(*d*) No steps are under consideration. The condition of the lands in the north-west bheel has not been adversely affected by the construction of the Bheel Route and its connected works."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Embankments in Bengal.

VI. (*a*) Will the Government be pleased to make a statement showing, district by district,—

(*i*) the total length of embankments, and how much of it is private-owned;

(*ii*) what proportion of the public and private embankments, respectively, in each district is kept in repairs regularly?

Answer by the Hon'ble MR. COWLEY :—

" A statement showing, district by district, the embankments maintained by the officers of Government is attached.

These embankments are public embankments. Government have no statistics of the length of private embankments maintained by private owners."

VII. Were any proceedings initiated under the Embankments Act for better control of private embankments in any locality during the last five years? If so, where, when, and with what results? Better control of private embankments.

Answer by the Hon'ble MR. COWLEY :—

" Proceedings in two cases of this nature have been instituted within the last five years.

(*1*) By Notification No. 7398 L.R., dated the 3rd August, 1914, it was ordered that the private embankment called the Rajyadharpur embankment in the Kandi subdivision of the district of Murshidabad would be taken charge of and maintained by the officers of Government. This notification was subsequently cancelled in May, 1915.

Questions and Answers.

Answer by the Hon'ble MR. COWLEY—*concld.*

(*g*) By Notification No. 2351 L.R., dated the 4th March, 1916, it was ordered that the private embankment called the Masagram and Dehati embankment in pargana Khandar, thana Sabong, in the district of Midnapur, be taken charge of and maintained by the officers of Government under the provisions of Bengal Act II of 1882. This embankment is now being maintained by the officers of Government under the provisions of the said Act."

Maintenance of private embankments.

VIII. (*a*) Is it usual for District Boards or Government, in any circumstances, to contribute towards the maintenance of private embankments to which the provisions of the Embankments Act have not been applied?

(*b*) If so, on what terms is such contribution made and how are the terms enforced?

(*c*) If the answer to clause (*a*) be in the affirmative, will the Government be pleased to state the total amount of such contributions during the last five years?

Answer by the Hon'ble MR. COWLEY :—

" It is not usual for District Boards or Government to contribute towards the maintenance of private embankments."

Partition of the district of Mymensingh.

IX. (*a*) With reference to the scheme for the partition of the district of Mymensingh, are the Government in a position to state the areas and boundaries of the proposed districts and subdivisions thereunder?

(*b*) Is any rearrangement of the Divisional jurisdiction contemplated in consequence of the said partition? If so, when is such rearrangement likely to be carried out?

Answer by the Hon'ble MR. KERR :—

" (*a*) A copy of Resolution No. 6287 P. of the 27th May, 1915, in which the areas and boundaries of the proposed districts and subdivisions are stated, is laid on the table. Since publishing the Resolution Government have, on the advice of members of the public and local officers, accepted the following minor modifications :—

(*i*) the inclusion in the Western District, instead of in the Central District, of the northern portion of police-station Nalitabari;

(*ii*) the inclusion in the Western District, instead of in the Central District, of 61 *mauzas* in the Madhupur jungle; and

(*iii*) the inclusion in the Sadar subdivision, instead of in the Bhairab subdivision, of the South-Eastern District of so much of police-station Badla as will fall within the new police-stations Tarail and Karimganj.

Government are unable at present to give exact figures for the areas affected by these modifications.

(*b*) Government have under consideration the establishment of a new division with headquarters at Barisal, in order to relieve the Commissioner of Dacca of part of his present charge. They are not in a position to state when the rearrangement is likely to be carried out."

RESOLUTION—No. 6287 P.

Resolution by the Government of Bengal, Political Department, No. 4346 P., dated the 8th July 1912.

The Report of the Bengal District Administration Committee, 1913-14.

THE question of the administration of the district of Mymensingh has been before Government since the year 1876 and the problem of dividing it into manageable charges has become continually more urgent. The state of the case as it stood in 1912 was set out in the Resolution quoted above. It was proposed to establish a new district, consisting of the existing subdivisions of Jamalpur and Tangail, with headquarters probably at Jamalpur. It was suggested that the remainder of the district might remain as one district, the creation of a third district being left to the future. Opinions were invited on this proposal. The matter was subsequently considered at a conference held at Mymensingh on the 24th July 1912. All parties at the conference agreed that some method of strengthening the administration of the district was absolutely necessary. A section of the educated Hindu community was, however, still opposed to any partition of the district, and was prepared to acquiesce in a scheme for the duplication of officers and the creation of more subdivisions. There was a consensus of opinion in favour of the extension of railway communications throughout the district; and many thought that the partition of the district might be deferred until the new railways had been opened and their effect had been observed. At a Durbar held at Dacca on the 28th July, 1913, His Excellency the Governor made the announcement that his Government had come to the conclusion that in the public interests the partition of the district was necessary. He promised, however, that the public would again be consulted before a definite scheme was ultimately adopted.

2. The question has been further considered by the Bengal District Administration Committee, who are of opinion that the best possible scheme would be the division of the existing district into three, *viz.*, (1) a south-eastern or Kishorganj district, (2) a western or Gopalpur district and (3) a central and north-eastern district, with its headquarters at Mymensingh. The Committee propose that the Kishorganj district should be a compact area bounded by the Brahmaputra and the Meghna rivers on the east, south and west, with an area of 1,630 square miles and a population of 1,366,407

Answer by the Hon'ble MR. KERR—*contd.*

its headquarters being at Kishorganj. This proposed district would consist of three subdivisions, which are detailed below :—

Proposed Kishorganj district.

SUBDIVISION.	Police-station.	Population.	Area in square miles.
Sadar ...	Kishorganj ...	190,604	224
	Kathiari	178,430	173
	Total ...	369,034	397
Bhairab ...	Bhairab	53,513	70
	Bajitpur	155,645	220
	Astogram	97,897	130
	Badla	146,630	168
	Khaliajuri	39,763	61
	Total ...	493,448	649
Iswarganj ...	Iswarganj	195,786	204
	Kendua	175,868	267
	Nandail	132,271	113
	Total ...	503,925	584
	District Total (10) ...	1,366,407	1,630

After a careful examination of the relative merits of different sites for the headquarters of the three subdivisions in the district, the Committee recommend Kishorganj as the headquarters of the Sadar subdivision, and Bhairab and Iswarganj as the headquarters of the subdivisions of those names. The town of Bhairab, though not centrally situated, is considered by them to be more suitable than either Bajitpur or Nikhli, because the natural lines of communication converge on it. It is a steamer station and may soon become a railway terminus also. It is considered to be healthy and is the most important trade centre in the area.

3. The proposed new Mymensingh district, with an area of 2,610 square miles and a population of 1,421,490, would still be large. It would include three

subdivisions, *viz.*, (1) North Mymensingh or Phulpur, (2) South Mymensingh or Sadar and (3) Netrakona, as detailed below :—

The Committee think that the headquarters of the first two subdivisions may for the present both remain at Mymensingh, while Netrakona might be the headquarters of the new subdivision of that name.

4. The remaining portion of the existing district, consisting of its entire western side, would form the third proposed district. It would comprise the whole of the present Tangail and Jamalpur subdivisions, excluding the Nalitabari police-station. In selecting a site for the headquarters of this district, the Committee have carefully considered the relative claims of the towns of Tangail and Jamalpur. While the Tangail subdivision is the heavier and more important of the two, the town of Tangail is very unhealthy.

Questions and Answers.

Answer by the Hon'ble MR. KERR—*contd.*

If either Tangail or Jamalpur is chosen, the headquarters would be at one end of the district, and new subdivisional headquarters would be required in addition to the district headquarters. The Committee are therefore inclined to the suggestion that the headquarters should be located in the centre of the district within the jurisdiction of the Gopalpur police-station at a healthy place near the junction of the proposed railways from Jamalpur to Tangail and from Subarnakhali to Mymensingh. The exact situation of this place might be determined when the final alignment of these railway lines is settled. If, however, the choice is confined to the towns of Jamalpur and Tangail, the Committee unhesitatingly prefer the former. Meanwhile this proposed new district may be styled by the name of Gopalpur.

5. The third district would consist of three subdivisions. The northern part would form the Jamalpur subdivision with headquarters at Jamalpur, the central portion would be included in the Sadar subdivision, while the southern portion would constitute the new Tangail subdivision, as detailed below :—

Questions and Answers.

Answer by the Hon'ble MR. KERR —*concld.*

6. The Governor in Council has reconsidered the whole question with great care. He has been much impressed by the arguments of the Committee regarding the urgent necessity of reorganizing the village systems throughout the province with the object of bringing the officers of Government into closer touch with the people. His Excellency in Council is persuaded that in no place is this reform more essential than in the existing district of Mymensingh, and he concurs in the fullest degree in the opinion expressed by the Committee that the reform of the village system has no real chance of success, unless not only the districts but also the subdivisions are of a manageable size. In other words, he has come to the conclusion that the proposal of 1912, as also the earlier proposal for the creation of two districts with joint headquarters at Mymensingh, would be an inadequate solution of the main problem, and would hamper the establishment of closer and more friendly relations between the rulers and the people. The Committee propose that the district of Mymensingh should be divided into three, and that at the same time the number of subdivisions should be raised from five to nine, three within each of the new districts The general lines of division as indicated by the Committee commend themselves to His Excellency in Council, who desires, however, to give the public an opportunity of expressing their views on the scheme before it is further proceeded with.

7. In this connection mention may be made of the several schemes of railway extension which have been approved or are under contemplation, and which will increase the facilities of communication within the proposed districts. The construction, by private enterprise, of a line from Bhairab Bazar in the south of the proposed Kishorganj district, through Kishorganj and Iswarganj to Mymensingh, with a branch from Gauripur to Bagmara in the north of Netrakona subdivision, and another from Shamganj to Netrakona, has been approved. This line will traverse the new district of Kishorganj from north to south, and the headquarters of the proposed district, as well as of the two proposed subdivisions, *viz.*, Iswarganj and Bhairab, will be directly on the line. The branch lines will link up Netrakona and the north of that subdivision with Mymensingh. On the western side of the existing district, the Railway Board have sanctioned a detailed survey, by the agency of the Eastern Bengal Railway Administration, for a metre gauge line of railway from Mymensingh to Tangail, with an extension to Porabari or Elashin; orders have also been issued for a reconnaissance survey of the area between the Jagannathganj-Mymensingh-Dacca Railway and the Brahmaputra river with a view to framing proposals for railway construction. This area includes a large part of the proposed Gopalpur district

8. This review of the case is published with the object of enabling public associations and private persons interested in the scheme to formulate such criticisms as will lead to the best possible solution of the problem, and His Excellency in Council will be glad to consider any expressions of opinion which may be communicated to him. All suggestions should be submitted within three months of the publication of this Resolution.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette* and that it be forwarded to the Commissioner of the Dacca Division, with the request that copies, both in English and in the vernacular, may be widely circulated within the Mymensingh district.

By order of the Governor in Council,

Deposit of rents under the Bengal Tenancy Act.

X. With reference to my starred question No. 3 of 13th March, 1917, regarding the deposit of rents by tenants under section 61 of the Bengal Tenancy Act, are the Government considering the desirability of prescribing such returns as may be necessary for showing—

(*i*) the amounts deposited and withdrawn, respectively, by tenants; and

(*ii*) the amounts credited to the Government?

Answer by the Hon'ble MR. KERR :—

" The answer is in the negative."

Landlords' fees under the Bengal Tenancy Act.

XI. With reference to the tabular statement laid on the table in answer to my starred question No. 1 of 13th March, 1917, will the Government be pleased to explain how the difference between the amounts deposited as landlords' fees and the amounts accepted by the landlords stand at present so far as the Dacca, Rajshahi and Chittagong Divisions are concerned?

Answer by the Hon'ble MR. KERR :—

" The residue of the sum deposited as landlords' fees in the Dacca, Rajshahi and Chittagong Divisions, after deduction of the amounts accepted by landlords, stands in the accounts as follows :—Deposits not exceeding one rupee have been credited to Government as lapsed deposits after remaining unclaimed for one whole account year; deposits exceeding one rupee have been credited to Government as lapsed deposits after remaining unclaimed for three whole account years; the remaining deposits are still in Revenue deposit as landlords' fees."

Enhancement of cesses.

XIV. (*a*) Will the Government be pleased to lay on the table a statement showing, district by district, the total amount of cesses realised and the amount of enhancement made during the last five years?

(*b*) To what circumstances, generally, are such enhancements due?

(*c*) On what principle has the revaluation of cesses been made in those parts of the Presidency in which settlement operations have been completed?

Answer by the Hon'ble MR. DONALD :—

" (*a*) A statement is laid on the table.

(*b*) Enhancements are due to new valuations, revaluations and the annual assessment of mines.

(*c*) Revaluations have been made in accordance with the Cess Act."

Discussion of the Budget.

Nawab Bahadur of Murshidabad.

LIST OF BUSINESS—ITEM No. 3.

DISCUSSION OF THE BUDGET OF THE GOVERNMENT OF BENGAL FOR 1917-18.

The President said :—

"We will now proceed with the Budget discussion. I would remind Hon'ble Members that the time fixed under rule 34(3) of the Financial Statement rules for speeches is 15 minutes for each Hon'ble Member."

The Hon'ble NAWAB BAHADUR OF MURSHIDABAD said :—

"MY LORD,—I do not propose to take up the time of the Hon'ble Members of this Council with any lengthy observations such as has been the practice at the end of the session. In fact, I do not think I need make more than the briefest reference to the general features of the Budget before us which present practically no grounds for controversy.

The present estimates indicate more plainly than ever the pressure of the disturbing war conditions prevailing all the world over and from which Bengal has not escaped. However, the most anxious part of the task of the Empire, involved in a desperate struggle, is now drawing to a close ; and the supreme moment has now indeed come when it will try to the utmost not only the best of our collective efforts but also individual sacrifices of personal conveniences and resources. The war loan has been ushered in not a moment too soon and I confidently hope that it will meet with the heartiest of support and with unprecedented success.

It is desirable that we should bear in mind the great financial difficulties to which we are now exposed. The Finance Member sets himself no easy task when so many matters of urgent necessity, of a domestic nature. persistently press upon his attention, but all such considerations have to be subordinated to a sterner necessity. So if we find that none but the routine and current works has been provided for with scrupulous care we ought perhaps not to expect much more.

It is gratifying to note that the opening balance of the year 1916-17 was better than the sanctioned estimate by over 20 lakhs and so also the revenue receipts by the not contemptible sum of forty-four and a half lakhs. In spite of the decrease under Transfers between the Imperial and the Provincial Revenues, the closing balance of the current year bids fair to be improved upon by about 66 lakhs.

With the exception of 'Excise' and 'Ports and Pilotage,' which together account for the decrease in revenue to the extent of 8 lakhs and 8 thousand, there have been commendable increases under all other revenue heads, the most remarkable being under the Income-tax owing to the unusually large profits earned by jute mills companies, and firms which came under the assessment in 1916-17. Pilotage suffered from the decrease in the number of vessels visiting the Calcutta port and excise from the general depressed economic condition consequent upon the war. We have yet to know whether we may regard the declining figures for excise as a test for the growing temperance of the people. It is so far clear that in this respect at least there has been no relaxation in the restriction imposed upon indiscriminate consumption.

The increase in the estimate of the closing balance of 1916-17 was partly due to the saving in the total charges. No one will resent the decrease on

The Hon'ble NAWAB BAHADUR OF MURSHIDABAD—*concld.*

the expenditure side, but further curtailment of expenditure in regard to education is greatly to be deplored. The saving under the head Law and Justice will be viewed with general satisfaction, though people may look askance at the increase of the Police charges by a lakh and a half over the estimated limit.

In the Budget Estimates of 1917-18 the total estimated charges exceed the income by nine lakhs and 21 thousand—a circumstance permitted by the Government of India on the express understanding that a beginning be made in reducing the size of some of the districts and that urgent measures be taken up in connection with police reform.

We have good reason to believe that the creation of new districts will prove the candour and foresight of Government as being always prepared to act on approved principles. Many allusions have been made to the old cry of the present inefficiency of the police. This depressed view of the Bengal Police in general seems to me unfounded; though, I fear, the standing reproach, which has not unoften been levelled against it, that dacoity is bad enough, but the subsequent police inquiry very much worse, will yet take some time to die out. One cannot say that the police have been treated with too indulgent a sympathy when the outlay therefor, though considerable, could not be regarded as sufficient for the department's requirements, for not only strengthening its force but for making it more attractive. There are now good grounds for entertaining hopes that the civil population will be granted more licenses for use of arms and that the villagers will be trained in habits of self-defence and thus lighten the burden of the police to some extent.

'It has again been found impossible,' we read, 'to provide for the regrant of unspent balances of Imperial grants for Education, Sanitation and Discretionary grants, etc.' It may be many more years before Government find it convenient to sanction the full amount of these grants. I trust and hope, however, that, whenever an opportunity offers itself, Government will, in a true spirit of equity, devote much more of their attention to those long deferred schemes of education and sanitation which surely are public measures surpassed by no other in importance. The inadequacy of support given to these much-needed reforms makes it perfectly understandable why the people are not progressing onward but appear rather to be falling back all along the line.

The paramount need of developing our agricultural resources and industrial activities continue to be forced upon our thoughts. These projects of vital interest to the country are languishing for want of funds. Unless true lines are laid down from now for facing these problems the position will be more embarrassing in the future in the general competition that must come with the conclusion of peace.

I venture to suggest for Your Excellency's consideration whether, on the termination of this great war, when we hope the peace of the world shall never be disturbed again, it would not be an act, as well of policy as of justice, to recognise in a more generous way and where circumstances render it appropriate, in a more substantial manner than has yet been done, such measures of public utility as have been kept in abeyance but upon which largely depends the prospect of a prosperous and peaceful future."

The Hon'ble the MAHARAJADHIRAJA BAHADUR OF BURDWAN said :—

"My Lord—before making any reference to the Budget, I must crave Your Excellency's indulgence as on this full-dress Budget debate day we are

The Hon'ble the MAHARAJADHIRAJA BAHADUR OF BURDWAN—*contd.*

allowed to discuss on many things, including probably the Man in the Moon of my Hon'ble friend Maulvi Fazl-ul-Haq. Before coming to the Budget proper, I want to bring to the notice of this Council something in connection with the Finance Committee. When the other day the discussion took place here on the different resolutions relating to the Budget, there were certain members of the Finance Committee who complained of not having been able to put forward their claims in the Committee when the Budget was being discussed there. I fully sympathise with these members because I have myself served on the Finance Committee for several years and I gave it up as a more or less hopeless job. The point that I want to press on this subject to-day is that the Financial Department generally brings forward certain crystallized schemes before the members of the Finance Committee and tells them to pass them. I think that in all fairness to the non-official members of this Council who happen to be appointed on the Finance Committee, it is desirous that these gentlemen should be given an opportunity to bring forward certain schemes of their own in the Finance Committee. If this were done, a good deal of such unnecessary and heated discussion that took place the other day in the Council over the Budget resolutions could, I am sure, be avoided in the future.

Turning now to the resolutions—shoals of them—that were brought in the Council the other day and took two whole days in debating—I think that Your Excellency ought to be pleased to look into the present rules regarding these discussions. We had the other day the question of the expenditure on the Police brought up more than once ; and it was so, not that the members themselves wanted to do it, but because the rules are such that any member who desires to allocate a certain sum must point out a certain specific figure to enable him to bring in a discussion. This question of the Police was brought up more than once, even though the Government declared on the very first resolution that the money could not be spent. After that declaration any business man would have said that the resolutions ought to be dropped. But it was not possible to do so because the resolutions were all different and all raised specific academic discussions. We want academic discussions, but for the sake of the dignity of the Council we should avoid acrimonious discussions when the Government once say that money cannot be spared.

Turning to the Budget itself, it is a well-known fact that no real congratulation can be offered to a Provincial Government on a provincial Budget so long as the leading strings are in the hands of the Government of India and the province has to depend on the bounty of the Government of India on certain matters. Nevertheless I congratulate my Hon'ble friend Mr. Beatson Bell on the War Budget and I hope that he and his successors in turn will be able to find money without casting a greedy eye on the millions of pounds which, according to him, the zamindars are supposed to deprive the Government of India of owing to the permanent settlement.

Turning now, Sir, to the items in the Budget, I have to thank the Government for the provision made to carry on certain projects for mitigating the effects of the floods of the Damodar, Ajai and certain other rivers, and I certainly hope that a start in the direction of preventing these floods will be made and that the Government about this time next year won't come forward with the plea that no specific scheme was put forward before them and hence the money could not be utilized. Those who know the sufferings from the floods of the Damodar and Ajai will, I am sure, bear testimony to the great havoc caused by these floods.

Turning now to page 24 of the Budget, I find that the expenses incurred by the Government to pay fees and passage money to Professor Geddes

Maharajadhiraja Bahadur of Burdwan.

The Hon'ble the MAHARAJADHIRAJA BAHADUR OF BURDWAN—*contd.*

have been provided for in this Budget. I was present at the series of lectures given by Professor, Geddes, but I do not profess to have followed him in all the technical things that he demonstrated before us. I think it was quite excellent that such lectures and demonstrations were given, but I hope that in future, if we have got to invite town-planners out in this country, the big Municipalities and my Hon'ble friend Mr. Goode with his two representatives of the Corporation will bear their expenses and that we should not be expected to meet such expenditure from our provincial Budget.

Turning now to the provision made for an additional grant to Miss Cleghorn for silk experiment and researches, I would like the Government to bring more prominently to the notice of the public the results of those experiments. As everyone knows, sericulture was more or less in a flourishing condition in past days in Bengal and silk industries, not only in Bankura and Birbhum, but everywhere, were to be found, and I think it is essential that we should know the results of these experiments being carried on at Alipore and what they propose to lead to. I am sure the public will be able to take a keener interest in this question if more information on this subject is available.

On the same page of the Budget, I find that a provision was originally made of a sum of Rs. 966 for some experiments in the Banka Valley in the district of Burdwan, but I do not know why that has been omitted in the revised Budget, in which I find, however, that a certain sum has been provided for for drainage in the Burdwan Municipality.

Turning to the general question of civil expenditure, I would like to point out to Your Excellency that in January last it was my intention to have brought a resolution in this Council regarding limiting of meetings of this Council to Calcutta. But for certain reasons I was unable to do so, and I put a number of questions in Council regarding the expenditure of the exodus from Calcutta. But before I come to that question, I would offer a word of explanation to my friends from Dacca and other places who thought that in bringing this question regarding the holding of meetings of the Legislative Council in Calcutta alone I was really driving my nail through the question of the Dacca residence of the Government. Nothing was further from my thought than this, for after all it is for the head of the executive of the province and his ministers to consider whether they should put in a considerable amount of time in any particular part of the province. But what my intention was and still is is that now that a new Presidency has been created, not only must we forget once for all the question of Eastern and Western Bengal and look upon Bengal as a whole, but also must most certainly decide to have the working machinery of the Government in Calcutta the whole year through. Whether His Excellency the Governor or his ministers should spend a considerable amount of time in any particular part of the Presidency does not concern us. What I think, Sir, is that if we are to get ahead of Bombay and Madras in the way of Presidency Government, we must begin by concentrating all our energies, so far as the central administration is concerned, in Calcutta itself. And this, in my opinion, is the best time to start, for Your Excellency knows better than anybody else that on account of this great war we have got to economise on all sides, and I think that the heads of departments and other officers who may be conveniently left in Calcutta all the year round should be made to remain here, and I am sure the Members and Secretaries of Government, 90 per cent. of whom have been in the districts and who know from experience that their brother officers have to grill in the heat in the summer months, will not mind themselves remaining in Calcutta. If for convenience and comfort the Easter holiday session and the Puja holiday session need to be lengthened, I would make the Easter session 15 days and

The Hon'ble the MAHARAJADHIRAJA BAHADUR OF BURDWAN—*concld.*

the Puja session one month, and this, I believe, will not only be welcomed by the mufassal officers, but by Deputy Magistrates and other smaller officers as well. If by doing that we could facilitate the question of having offices in Calcutta all the year round and making Calcutta, for all practical purposes, the headquarters of the Government, I think a good deal would be gained.

I have no other observations to make, my Lord, but as probably our Vice-President the Hon'ble Mr. Lyon, will be here for the last time this session, I beg to offer him our warmest thanks for his unfailing courtesy to us in Council."

The Hon'ble RAJA HRISHIKESH LAHA said :—

"YOUR EXCELLENCY,

The Budget for 1917-18, which has been presented to the Council bears the impress of the time through which we are passing. The baneful influence of the war is being felt in every direction, and improvements have to be postponed by curtailing our expenditure as much as possible with a view to meet any urgent necessity that might arise. Under the instructions of the Government of India, the Budget has been prepared on the lines followed last year and provides for normal expenditure and new schemes which are of immediate and imperative necessity. The large unspent balance of the Imperial grants for education and sanitation has barely been touched, and I regret that only two and a half lakhs have been provided for sanitary improvements against the recurring allotments of nine and a half lakhs for last year. Perhaps some further provision could have been made for them out of the free balance of over sixty-nine lakhs which are available for new expenditure. It is needless to say that malaria is one of the greatest scourges of Bengal, and some scheme like the Moghrahat Drainage Scheme should have been devised for the reclamation of marshy and water-logged localities. We only hope that Dr. Bentley's experimental anti-malarial schemes, the costs of which are included in the above two and a half lakhs, will prove a success and be the means of mitigating the sufferings of the people.

In his speech in introducing the Budget, the Hon'ble the Finance Member has stated : 'It would be hard for the people of Jessore and Bankura that the boon of a record of rights should be again delayed to them. Fortunately, the general financial situation of the survey and settlement operations is such that we have felt justified in resuming the work in Jessore and Bankura.' To speak the truth, these settlement operations are considered very mixed blessings both by the zemindars and the tenants, as they involve them in very heavy expenditure which they can ill-afford to bear in these hard times, and they would have been glad if these operations had been resumed after the war. Now that the Government order has been passed, I hope the recovery of costs will not be enforced very strictly, and some leniency should be shown to those who are not able to pay up the whole demand all at once. I trust this matter will receive due consideration from Government.

It appears to me that the item of eighty lakhs under the heading of Sale of General Stamps is too optimistic. No doubt there was a boom in jute and coal shares, but jute has dropped considerably, and what with restrictions on transport facilities and what with super tax on income, the prospect is not at all re-assuring. The current year no doubt shows a great increase in

death duties, but what certainty is there that a greater number of rich people will die in the next financial year, so that a large amount may be forthcoming under this head to the coffers of the State? I hope on the contrary rich people will live to make contributions to the war loan and reflect credit on the fair name of Bengal, and pay super tax which is a quarter death.

"The amounts set apart for the re-organization of the Eastern Bengal Police and for construction of thana launches and floating thanas for the River Police are steps in the right direction. I should have been glad if a larger amount had been provided for these items, as they are absolutely necessary for the repression of dacoities which are of frequent occurrence in the Eastern districts, and vigorous measures ought to be taken to repress these crimes.

"The allotment of two lakhs and fifty thousand for projects for mitigating the effects of the floods of the Damodar, Ajai and other rivers will meet with the approbation of every one, as it will prevent the recurrence of the disaster experienced by thousands of people in the recent floods in the Burdwan Division."

The Hon'ble BABU SURENDRA NATH RAY said :—

"My Lord,—I am sorry I cannot give my full support to the Budget as laid before Your Excellency. The estimated expenditure for the year 1917-18 is Rs. 6,77,20,000 an excess of Rs. 59,23,000 over the Budget estimate and of Rs. 70,63,000 over the revised estimate of last year which includes very heavy items of new expenditure on Police, measures for suppression of political crimes, allowances to families of persons interned and on famine. With an increase in expenditure equal to 11 per cent. of the annual income in one year, people might well be excused if they think that the Finance Member has not exercised that amount of control over the spending departments which he should have done. After the outbreak of war, all proposals for the spread of primary and improvement of secondary education as well as for the improvement of sanitation and the supply of pure drinking water to the people in the Mofussil towns have been practically put a stop to. The non-official members of this Council who have always advocated their cause, have been exhorted not to embarrass the Government during the war by proposals which it is not possible to take up on account of lack of funds and when it is alleged Government were trying their utmost to economise in all directions possible. Funds expressly set apart for education and sanitary purposes were withheld. I am doubtful, however, if Government can show that there has been any economy in any direction, except in the case of the Sanitation Budget. In marked contrast with this is the Police Department in which, during the war, expenditure has increased by 33 per cent. and during the last five years by 60 per cent. In fact the Budget has been characterised as the Police Budget. In the present year alone new schemes have been sanctioned, the ultimate cost of which amounts to Rs. 16,30,000 recurring and about 12 lakhs non-recurring. Of this amount 10 lakhs recurring and 8 lakhs non-recurring are to be expended in this year alone. This does not include the ordinary development of expenditure in the Police Department of which a separate list is given on pages 7, 8 and 9 of the Budget amounting to 1 lakh non-recurring and Rs. 77,000 recurring. The manner in which expenditure in the Police Department is increasing by leaps and bounds is a matter for serious consideration. Already it amounts to about 21 per cent. of the annual income. In 1912-13, it was less than 15 per cent. and unless the question of Police expenditure is seriously tackled now,

Babu Surendra Nath Ray.

The Hon'ble BABU SURENDRA NATH RAY—*contd.*

all hope of any improvement in Sanitation or Education must be given up for ever. The Hon'ble Member, in charge of the Police Department in introducing the Police Budget said that the increase in Police expenditure was approved unanimously by the Members of the Finance Committee who are supposed to carefully scrutinize every new item of expenditure It may be pointed out, however, that some of the schemes had already been given effect to before Government thought it proper to lay them before the Finance Committee, while in many other cases the sanction of the Secretary of State had already been obtained and either partial effect had been given to them or final decision had been arrived at as to the date from which effect would be given. In other cases the proposals were thrust upon the Committee with the opinion that they involved the safety of the State or were absolutely necessary to prevent disorders or breaches of the peace, opinions which the non-official members were not in a position to controvert and were bound to accept if any reliance was to be placed on the executive Government. When proposals have already been carried into effect wholly or partially or have been sanctioned by the Secretary of State to be brought into effect from a certain date it is useless and unfair to bring them again formally before the Finance Committee as new schemes. As at present constituted the Finance Committee is not in a position to scrutinize new schemes. We recognise that the needs of the Administration cannot be strictly limited to the Budget and that whether there is any provision or not for unforeseen contingencies the Executive Government will have to incur new expenditure. But this power of the Executive Government which no one wishes to take away should not be exercised for pushing on with and giving effect to schemes which on their very nature cannot certainly have been unforeseen or unexpected. I must at the same time also say that that there is a feeling that there are many schemes which are not at all brought before the Finance Committee at any stage. I should, therefore, like to have an assurance from the Hon'ble Member in charge of the Finance Department whether any such, if so, how many schemes have during the last three years been withheld from that Committee or have not been laid before it.

"My Lord, I must admit that whatever may be said against increasing the expenditure under the head "Police," if the Government think that such expenditure is necessary for the good administration of the country, we are bound to support the Government in such expenditure for the people of this country will be the first to blame the Government if there is anything like disorder in the land. The public of Calcutta and the suburbs were in the greatest consternation when about a year ago there were a number of dacoities and anarchical outrages in the country. There were also a number of dacoities almost in every district of Bengal. It was the duty of Government to put down disorder and to take such steps as were necessary to restore confidence in the minds of the people. What I want to impress upon Government is that if it is necessary to spend more money on Police, do it, but Government ought also to take into consideration that to make the people educated and healthy, that is, to spend adequate sums on education and sanitation in which the people are vitally interested is also the primary duty of Government and tends to stop crime and disorder. While glancing over the pages of the Budget I find an increased grant of Rs. 25,000 as rewards to "informers." We are not told how much they are paid now. We find only the additional amount which is budgetted for payment. We may look with equanimity upon items of expenditure about the Criminal Intelligence Department, familarly known as C. I. D. or the strengthening of the staff for the detection of crimes. It is evident that the services of informers are appreciated by the executive. But speaking as I do on behalf of the people I feel bound to say that we do not share in the Governmental

Babu Surendra Nath Ray.

The Hon'ble BABU SURENDRA NATH RAY—*contd.*

appreciation. From the days of Judas to that of Rakhal Chander Laha they have been a most unholy lot and we cannot approve of this expenditure. The increase in expenditure is not only under the head "Police," but also under such heads as "Land Revenue," "General Administration," "Law and Justice," "Buildings, etc." This shows that at this time there is a plethora of money in Government hands. We forget at least for the moment that war conditions have at all affected our financial resources. I am therefore unable to make out why my friend the Director of Public Instruction could not induce Government to set apart a larger amount for education. I am not sure whether it is due to his want of the power of persuasiveness as compared with that of the Inspector-General of Police or the want of matured schemes or is it due to the policy of Government favouring expenditure on Police at the expense of education and sanitation, In April 1915, the Director of Public Instruction said that as long ago as 1908 it had been estimated that it would cost from 15 to 16 lakhs of rupees to put secondary schools on anything approaching a satisfactory basis and that the number of schools had since then increased. Some scheme must have been then prepared for improving their condition, but no one outside the office of the Director of Public Instruction probably knows anything about this. In connection with the Budget of 1916-17 the Director of Public Instruction admitted that the condition of the schools had not improved as funds were not available and now in one single year the Police Department has got the sanction of Government to new schemes, costing Rs. 16 lakhs more a year recurring. The bread problem of the middle classes is becoming more acute day by day and the whole question of the secondary education is intimately bound up with it. It appears from the report of the Director of Public Instruction in Bengal for the year 1915-16 that the total expenditure on secondary schools for Indian boys for the year was Rs. 67,15,120, of which Rs. 6,61,160 came from Provincial Revenues and Rs. 8,30,328 from private sources. namely, endowments and contributions from private persons. It will be seen that while Government contributes about 9·5 per cent. of the total expenditure, about 12·5 per cent. is met from private contributions. If the cost of the purely Government schools be excluded, the percentage of cost borne by Government for secondary schools not under Government management becomes still less. I have not got with me the latest figures, but it appears that during the official year 1913-14 there were only 55 secondary schools under Government management, while 92 such schools were under local bodies, 1,443 schools under private management receiving aids from Government, and 880 schools under private management without receiving any aid from Government. It will thus be seen that the part hitherto taken by Government in the cause of secondary schools for boys has been a minor one. As regards primary education I shall only quote the following passage from the Director of Public Instruction's latest report on the subject: "What is imperatively needed especially in the Presidency and Burdwan Divisions is more schools of some stability. This can only be effected by much larger contributions from public funds. The pupils already contribute 56·3 per cent. of the funds. They cannot in fairness be asked to contribute more." I need not say anything more at this stage as to how urgent is the need for more funds for the improvement of education and how much it is necessary that all expenditure should be scrutinised carefully at the present time.

"My Lord, in my opinion considerable curtailment of expenditure is possible under the head of costs of General Administration if the exodus to Darjeeling twice during the year be discontinued. The saving would be about a lakh of rupees per annum. It is a matter on which it is natural that

The Hon'ble BABU SURENDRA NATH RAY—*contd.*

we should find the official members of this Council rather touchy, but it is well known that while formerly even the Hon'ble Members of the Board of Revenue were allowed to go up to Darjeeling only for a limited time and that as a special case, now every head of a Department manages to remain at Darjeeling during the whole time that Government remains there. While in the years 1889 and 1890 during the administration of Sir Stuart Bayley the cost amounted to Rs. 29,786 and Rs. 29,780 respectively, it was Rs. 96 558 in 1913 and Rs. 91,843 in 1915. But strange it was Rs. 68,749 in 1914 or nearly rupees thirty thousand less. The public would like to know the reasons for these variations. And if the biennial visits to Darjeeling be absolutely necessary for keeping the brains of Departments cool why cannot the lowest sum of Rs. 29,768 be maintained Again by the annual meeting known as the Conference of the Commissioners of Divisions and Heads of Departments, the Secretariat has managed to give a short holiday to other classes of officers who formerly had not the privilege to go up to the hills at the public expense. Now may I ask, is it necessary in the interests of administration that the Darjeeling trip should continue any longer. The three tours of the Government of Bengal, *viz.*, twice to Darjeeling and once to Dacca cannot but disorganise the administrative machinery and cause delay in the disposal of business. It had never been urged that Darjeeling is the workshop of the Government of Bengal as Simla is that of India. Lord Carmichael in his reply to the address of the Darjeeling Municipality on the 1st November last said : "I am afraid I cannot agree with those who profess to think that far more work is done in the hills than in the plains. In Bengal, at any rate, that is certainly not the case. When dealing with these files from which there is never escape I have often wished that Darjeeling were nearer Calcutta so that I might have got the information I needed quickly, but I was pleased to move for my own enjoyment and for the sake of my health. Though I know that if I had been in the plains I could have done more work. I know, too, that many of my friends especially of those who seem to me to work hardest think the same thing and I cannot see why we should not say so." The leading Anglo-Indian newspaper of Calcutta, the *Englishman*, said at the time "the annual migration was a waste of money." After the expression of opinion of Lord Carmichael it is too late to suggest the absolute necessity of going to Darjeeling with all the departmental heads while the fact remains that the Hon'ble the Finance Member does not find it necessary to go up to the hills. I discussed the subject with some members of the European Mercantile community and all I can say is that there is only one opinion on the subject, *viz.*, that the exodus should be put a stop to at once. In January last I wanted to move a resolution in this Council on the subject not for putting a stop to it altogether, but I wanted that a Committee should be appointed to examine the whole question and how far the costs of migrations could be curtailed, but Government probably aware of the feeling in the matter disallowed any discussion on the subject. Another point which renders it highly desirable that the trip should be discontinued at the present time is the wastage of railway materials. On account of war conditions, the railways have been forced not only to curtail all passenger trains, but had also to put a stop to the free booking of all commodities with the result that the price of all kinds of necessaries are springing up by leaps and bounds. It is true that every cubic feet of space possible should be saved from being used unnecessarily. The annual trips to and fro take up a great portion of the carrying capacity of the railways not only on account of the officers of the Government who have to go to Darjeeling, but also for the large number of persons who have to deal with Government and Government officials. I would therefore appeal to Your Lordship to consider the matter seriously. When during the administration of Lord Northbrook there was famine in the

country, Lord Northbrook stopped going to Simla. He remained in Calcutta with the then Lieutenant-Governor of Bengal, Sir George Campbell, because he thought that he would be able to do better work in the plains than in the hills. When Your Lordship has cut down the expenditure in all luxuries I appeal to you to consider if it is not necessary to cut down all luxurious expenditure in the administration of the Presidency.

It is not too much to urge again the claim of sanitation and the supply of pure drinking water to larger allotments from the public funds. The principle that they have the first claim was accepted by the Government of Lord Carmichael, but it is the only head of the Budget which the Finance Member had clipped short. The following extract from the Administration Report for the year 1915-16 shows how the matter is being dealt with. "The usual provision of Rs. 9,50,000 was made during the year 1915-16 for sanitation, but in consequence of financial stringency a sum of Rs. 6,50.000 had to be surrendered to the third quarter of the financial year. Of the balance of Rs. 3,00;000 over one lakh was spent on sanitary works connected with the relief of distress in Bankura and Tippera." This shows how money expressly set apart for sanitation is being used for other purposes. There are some matured schemes for the supply of drinking water and for drainage, but on account of alleged want of funds they have not been taken in hand. I would mention only a few, the Chandpur water-supply, Krishnagore water-supply, Dacca water-supply improvement, Suri drainage, Kurseong drainage.

I am sorry that the resolution of my Hon'ble friend Maulvi Fazl-ul-Haq with regard to the increase of pay of the last grade of Munsiffs from Rs. 200 to Rs. 250 was not accepted by Government. Since I have entered this Council I have spoken on their behalf because I have some experience of their work. They are actually minting money for Government in the remotest parts of the country for I have reason to believe that the non-official members who voted against the resolution have no idea how much money Government gets every day from every Munsiff's Court and how much work is being done by them. What is the argument advanced by the member in charge of the Judicial portfolio—my friend the Hon'ble Nawab. That the Public Services Commission have recommended that the initial pay of the Munsiffs should be Rs. 300, that the Government of India has called for a report from Your Lordship's Government and if the pay of the Munsiffs be now increased to Rs. 250, the Government of India will say that they are satisfied with this pay, what is the use of paying them Rs. 300. I am sorry to see my friend the Nawab Sahib reduced to such straits as to advance an argument such as this. I think the law of Estoppel will not be applicable to this case."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord,—We have reached the final stage of the Budget and in discussing it on this occasion under our rules, we are permitted to traverse much wider grounds than what we could do before. We are allowed to refer to important administrative issues arising out of the Budget, and I desire to take advantage of this opportunity to make some observations which have occurred to me in connection with the points mentioned in the Budget.

My Lord, the people in the Burdwan Division are deeply grateful to Your Excellency's Government for providing two lakhs and fifty thousand rupees for projects for mitigating the effects of the floods of the Damodar, the Ajai and other rivers. This was done, my Lord, in pursuance of a

Discussion of the Budget.

Maulvi Abul Kasem.

The Hon'ble MAULVI ABUL KASEM—*contd.*

resolution moved by me at the first meeting of this session and accepted by the Government. I hope, my Lord, the money will not be spent on experiments and speculations and that the projects adopted will really protect the people and the villages mentioned in my resolution or at least mitigate the effects of the flood in those areas. I venture not to suggest any scheme as it may not be acceptable to the professional advisers of the Government and we are not at all concerned about the measures adopted, but what I would ask Your Excellency's Government is to see that the people are saved from the miseries caused by the floods almost every year and from starvation due to the destruction of crops. I desire to press on Your Excellency's Government that my object in moving the resolution and seeking for protection had no reference to abnormal floods, but the relief sought was from the damage caused by the normal floods to which the villages are subjected every year on account of the present condition of the rivers and the river banks. The projects to be adopted should be such as to protect the villages and the country from the recurring annual floods and whatever has to be done must be done at once.

The Budget usually speaking is not an object of interesting study to the general public, but the Budget often embodies policies and principles which stand out in striking pre-eminence from amidst the dry and dusty mass of figures and statistics. The most prominent feature of this year's Budget is the abnormal increase of expenditure on the Police. In 1912 the expenditure on the Police was 88 lakhs and five years after we find the recurring expenditure alone to be more than one crore and 12 lakhs. The new recurring expenses running up to more than ten lakhs of rupees. While I do not wish to overlook the admirable work that is often done by the Police, I cannot help remarking that the patronage extended to the department may often be a source of keen disappointment to the public in finding that the other branches of the Public Service are unnecessarily starved in order to meet the demands, reasonable or unreasonable, of the Police Department. Useful as the department is, officials are apt to be led away by their enthusiasm for this department to under-rate the importance of the other branches of the Public Service. One has only to run his eye over the Budget in order to find out how such important departments, like those of Education, Sanitation and Agriculture have been allowed to shrink into insignificance by the side of the gigantic allotments made for the Police Department. It is only a truism that the efficiency of the Police force can never increase by the mere fact of increased expenditure on the Department, and people have a right to ask if the policy which inspires all this apparently extraordinary expenditure can at all be justified by the results achieved in improving the *morale* of the force or even the efficiency of the Department as an important branch of the Public Service.

"There is an impression, my Lord, that the Provincial Judicial Service does not receive that consideration at the hands of the Government which it certainly deserves. The Munsiffs and Subordinate Judges have to do much more important and responsible work than Deputy Magistrates and they have to do much more brain work of a superior character, but in the matter of pay and prospects they are not so well treated as the members of the Executive branch of the service I submit, my Lord, that not only should the initial pay of the Munsiffs be raised, but the general prospects of the service should be such as to attract the most promising young members of the Bar. The Judicial Service should not be filled up by disappointed candidates for Depury Magistrateships or those driven to seek service by want and necessity. The Judicial branch of the Provincial Service should be more attractive than the Executive branch. This principle i

Discussion of the Budget.

Maulvi Abul Kasem.

The Hon'ble MAULVI ABUL KASEM—*contd.*

observed in the Indian Civil Service, where a District Judge gets higher pay than the Magistrate-Collector. Judicial officers in the Provincial Service should bear the same relation to Executive officers in regard to pay and prospects as that existing between the two branches of the Indian Civil Service.

I beg to draw Your Excellency's attention to another neglected branch of the Public Service, I mean the Subordinate Civil Service. Recruited from the same class of men as the Deputy Magistrates and with the same education, it is not fair that the Sub-Deputy Collectors should be so miserably paid or that they should have not much prospect in life to look forward to. I take the liberty to suggest, my Lord, that the initial pay of the Sub-Deputy Collectors should be raised to Rs. 150 and that the maximum should be raised to Rs. 400. The great difference now existing between the emoluments of the two branches of the Executive Service is to speak the least most unreasonable. I also submit, my Lord, that in the matter of promotion to the higher service they should be treated more liberally. The most acute grievance of the Sub-Deputy Collectors seems to be in the matter of travelling and halting allowances. This should be raised to enable them to live respectably. Sub-Deputy Collectors have to live and do live in the distant muffasil in practically the same style as Deputy Collectors and must do so, not only for their own sake, but also in order to maintain the prestige of the service to which they belong. The public, especially the rural public, do not make any distinction between a Sub-Deputy Collector and a Deputy Collector, and in the interest of administration and for its dignity there should not be any apparent distinction between the these two branches of the Executive Service. It is sometimes argued that even the present pay and prospects in this branch of the service are sufficient to draw a large number of suitable candidates, but this is solely due to the general poverty of the people and the struggle for existence from which the middle classes in this country are seldom free. The poor Sub-Deputy Collector patiently bears his lot, but he would be more than human if he did not feel the inferior pay which he gets as compared with equally qualified men, doing almost the same work, who may be fortunate enough to get into the Provincial Service. This feeling of latent discontent is sure to hamper these officials in the discharge of their duties and it will not be strange if they succumb to temptation or corruption. At any rate this feeling of discontent must impair their efficiency. Nor can the present state of things be justified on the ground of economy. We find that extravagance rather than economy is the rule in the higher branches of the Public Service and I fail to see why the existing state of things can be allowed to continue in the face of almost universal condemnation.

We are thankful to the Government of India for the recurring grant of nine lakhs for improving the pay of teachers. This will go some way to improve the lot of poor schoolmasters, but much more is needed to make the profession of teaching attractive and for the advancement and spread of education on a sound basis. My Lord, there is a general complaint that the inspecting staff of the Education Department has been strengthened beyond all proportions. I do not wish it to be understood that I in any way underrate the value of supervision or inspection, but what I mean to say is that the number of inspecting officers have been unnecessarily increased and that the work can be as efficiently done with a much smaller staff if properly organised and controlled. The savings may be better spent in other directions for the improvement of education.

My Lord, I find that the University of Calcutta has been given more than 13 lakhs for hostels in Calcutta and out of that only two lakhs of rupees are to be spent on a Muhammadan Hostel. This is, I submit, neither adequate nor fair

Discussion of the Budget.

Maulvi Abul Kasem.

The Hon'ble MAULVI ABUL KASEM—*contd.*

The want of hostels for Muhammadan boys has been pressed before this Council on several occasions, and I do not wish to traverse the same grounds over again. I need only say that it is extremely unfortunate that, just when the Mussalmans have begun to apply themselves zealously to higher education on Western lines difficulties should be thrown in their way so as to retard their progress. The difficulties with which the students of the present day are confronted happen to be appalling enough, but in the case of Mussalman students these difficulties are magnified by various causes which do not exist in the case of the students of the other communities. The poverty of the Mussalman students has always been a stumbling block in their way and the increase in the cost of education which has been brought about with the recent rules and regulations of the University and the Education Department has proved an additional impediment in the furtherance of the cause of Mussalman education. Now more than ever the Mussalman students want and deserve special attention and assistance.

I beg to draw the attention of Your Excellency's Government to the want of hostels for Mussalmans at the centres of education outside Calcutta and Dacca, specially in the Burdwan and Presidency Divisions where the want is very keenly felt.

The Muhammadan community has for a long time felt and felt keenly the want of more Mussalman graduates in Engineering and Medicine and it is a pity that they have no means to provide proper opportunities and facilities for Mussalman boys in Medical and Engineering Colleges without Government aid and I appeal to Your Excellency's Government to come to our help and assistance. I take the liberty to suggest that some scholarships should be created for Mussalman boys in Engineering and Medical Colleges. This may be done out of the Mohsin fund and also from Provincial revenues. It will greatly help and encourage Mussalman boys and induce them to take to these professional studies.

I hope, my Lord, that advantage will be taken of the new imperial grant of nine lakhs to provide for adequate arrangements for teaching of Arabic and Persian in Secondary Schools and that in order to encourage the advancement of Muhammadan education, in fixing the amount of the grants-in-aid to be given to schools, some special considerations will be made for those institutions which provide facilities for Mussalman boys. This I say with special reference to schools in the Burdwan Division where the Muhammadan population is very small and the community comparatively poor, though very anxious to educate their children.

My Lord, I might say that the money spent for the advancement of education among the Mussalmans will not be a bad investment either for the Government or the country. As soon as the Mussalmans receive high education in larger numbers and are given their legitimate share in the various branches of the public service and are able to take their proper place in the public life of the Province, our demands for special facilities will cease and the Mussalmans will no longer be a handicap to the cause of Indian progress and advancement. They will be a tower of strength to the Government and the country alike.

The Department of Fishery which has now existed for some years and has been maintained at a considerable cost has not been of much benefit to the public at large The experiment and researches made by the department have not produced any appreciable effect on fish culture in this Province. The department is neither useful nor ornamental. It has been given a fair trial and it has failed to justify its existence. The people

Rai Radha Charan Pal Bahadur.

The Hon'ble MAULVI ABUL KASEM—*concld.*

may now rightly demand that it be abolished without any more money being spent specially during these hard times on futile experiments.

In conclusion. I beg to congratulate the Hon'ble Member in charge of our finances in having been successful in meeting the urgent demands of the Province with limited resources and in being able to curtail some of the unnecessary expenses. I wish he could lay his hands on some of the extravagant expenditure incurred in the higher branches of the Public Service, and in the matter of pay and allowances given to some of the special officers. Rightly and wrongly there is an impression amongst the public that these special appointments are created not because they are wanted for efficiency in the administration, but to find places with suitable emoluments for certain officials who cannot for the present be otherwise provided. In view of the war which, in the words of Your Excellency, is shaking the very foundations of civilisation, we are bound to observe the strictest economy in all matters. People will, out of loyalty and patriotism, gladly submit to all inconveniences which may be caused by observing economy. They, however, expect that the higher officials will set an example to them. I submit, my Lord, that a large saving can be effected if the higher officials temporarily give up the luxury of an excursion to the hills and the money better utilised to provide the sinews of war. The Government and the officials in England, I understand, are submitting themselves to all sorts of inconveniences and Your Excellency has set a noble example by declaring that you propose to curtail Government house expenses and I think it is not too much to ask the higher officials in this country to forego some comfort and luxury."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"MY LORD, at this Budget Debate one is naturally seized with an irresistible desire to acquaint the head of the administration with the wants, wishes and needs of the people, but it will serve no useful purpose at the present moment as Your Excellency cannot be expected to express any decided opinion till you have familiarised yourself with the details of the administration and the various problems connected with it. I must content myself with dwelling on some of the main points connected with the Budget for the present financial year.

"At the outset I submit for Your Excellency's consideration whether it would not be possible to grant us the privilege of having a standing Finance Committee re-elected every year before whom all schemes of recurring and non-recurring expenditure could be laid and discussed before being entered in the Budget. The Finance Committee, as at present constituted, is appointed in the middle of the year and meets once or twice towards the latter part of the year. All that it then does is to examine a schedule of new schemes estimated to cost more than Rs. 5,000 (rupees five thousand) and in one or two sittings the business is disposed of. No scope is afforded for fuller examination or even acquaintance of the Budget as a whole. What I suggest is that the standing Finance Committee should be the standing Advisory Committee at least for the present. They should meet every month or as often as required to consider all matters relating to the various items in the Budget, to watch the progress of expenditure of every scheme, to make recommendations for the transfer or appropriation from one head to the other according to the unspent amount left under the various heads of the Budget. In short the Council should be in close touch through its Finance Committee with the finances of the Province and the proceedings of the Finance Committee should be laid before the Council from time to time for information. If some such arrangement is not made to bring the Council in close touch with the

administration, the result is that the Budget debate and the resolutions generally lead to an infructuous and uninformed discussion in which the non-official members are necessarily in a sad plight.

In the revised estimate of 1916-17 I find that Rs. 50,000 and Rs. 30,600 were received as contributions from the Indian Research Fund Association for financing. Dr. Bentley's schemes of anti-malarial measures and for testing vital statistics respectively. In the first place may I inquire what is the constitution of the Indian Research Fund and how are its funds maintained ?

May I inquire what progress has been made of Dr. Bentley's scheme ? What further step is proposed to be taken in connection with that scheme this year and what money is likely to be spent and in what area ? There is a saving of about Rs. 1,30,000 due to the postponement of the appointment of the Director of Industries and the withholding of grants for the development of industries, pending the report of the Industrial Commission. The Industrial Commission is not likely to finish their labours soon. It has suspended its deliberations for some time. Is it likely that the same result of inaction leaving an unexpended sum under the same head will ensue at the end of the current financial year ? Cannot the Government start the Department of Industries at once by appointing a well qualified Director who will work out the preliminaries which may be followed and developed on the lines of the Commission ? Whatever may be the recommendations of the Commission I am sure it will be recognized that a capable Director of Industries is a *sine quâ non.*

A standing Finance Committee could no doubt go into many matters much more fully during the year than we could at a single sitting of Council and find out the cause of stagnation and of its remedy. Provision has been made for one Additional Secretary, two Additional Under-Secretaries and an Assistant Collector of Income-tax. May I inquire whether Indians have any chance of appointment to these posts ?

The Police expenditure has risen from Rs. 1,12,27,000 to Rs. 1,34,38,000. The increase is a very large one and I am sure the Government have fully considered the necessity for the expenditure before increasing the charges to such a large amount. The Budget includes the pay of the newly-created posts of Assistant Deputy Commissioners. Four of whom are Indians and they get a salary ranging from four to five hundred. I acknowledge with gratitude the appreciation of the services of my countrymen as police officers. But I regret to say although they are honoured with the titles of Rai Sahebs and Rai Bahadurs, and promoted to some newly-created high sounding posts, few of them are rewarded with a salary exceeding Rs. 500 a month. The Indians form the bulk of the police force in Bengal, and while from the Secretary of State downwards every member of Government is overflowing with praise of their devotion, zeal and unflinching loyalty at the risk of their own lives and of those of others whom they hold most dear, they are never destined to occupy any of the high and well-paid posts in the police service. At most a few of them can only aspire to be "Assistants" or "Deputies". As regards the reform of the Calcutta Police that popular official and our friend, Mr. Gourlay, was deputed to make inquiries and submit his report. I do not know what the report contains, but I feel bound to say that although there are some very excellent men in the Calcutta Police, both in its higher and subordinate ranks, yet corruption, oppression and *zulum* have not disappeared from some of the thanas which perhaps do not come to the

notice of the Commissioner of Police. I am not at all speaking of political cases. As far as I have heard the officers who deal with these cases, are most of them courteous, kind, considerate and free from temptations. Perhaps they are the pick of the service, but a considerable mixture of dross and alloy still exists in the local thanas and these are the men who deal with the middle class *bhadralokes* and whom the *bhadralokes* wish to shun.

Mr. Clarke, the Commissioner of Police, is a highly intelligent and capable officer and I believe he understands everything. I do not know whether he has got sufficient time to pay surprise visits to the thanas to pick up cases at random. I desire on behalf of my countrymen, resident in Calcutta and its vicinity, to heartily thank the Government for the vigorous action that was taken to cope with the new form of crime known as *Motor Dacoities* in Calcutta. There is no use disguising the fact that the situation as regards dacoities became so menacing that the ordinary *bhadraloke* who had something to care for at home became alarmed. Murder and dacoity followed in such quick succession that the confidence of the people in the police wavered, but thanks to Government law and order has been restored and the people can now live in peace and security. I devoutly hope the evils so fortunately checked will not return. In this connection I wish to say a few words about the internments. When public safety is in danger the segregation and restrainment of dangerous character is justifiable. I do not like the present method of disposal of the cases which I believe is capable of improvement by the appointment of an Advisory Board consisting of European and Indian Judges who may be permitted to examine the papers, give the accused an opportunity to explain and then advise the Government in each case. Public opinion will be largely reconciled if this step is taken. Let us co-operate with Government in this matter, but we must be all animated with a single-minded desire to help Government in stamping out the great evil which threatens the Indian more than the European. If Government take the people into confidence I am sure there will be no lack of co-operation.

A sum of Rs. 40,000 has been provided for the menials' quarters of Bethune College. A large area of land has been acquired on the south-west of Bethune College. It is necessary to improve the present site by isolating it from the surrounding houses. In connection with this college may I inquire whether it is under consideration to connect Bethune Row with Manicktola Street by giving up a strip of land to the Corporation from the old Simla Bazar premises for the purpose of a roadway and thereby to improve the sanitation and position of the entire premises.

I find that the provision for Primary Education for boys and girls yet remains very insignificant. The Hon'ble Mr. Hornell had in past years with his usual vigour and eloquence emphasised that he was fully alive to the necessity of providing popular education for boys and girls, but his assurances have not yet materialised. I believe I am correct in saying that of the total expenditure on Primary Education 43·7 per cent. is drawn from public funds, while 56·3 per cent. is derived from private sources. The school buildings or *pathsalas* are most wretched and ill-equipped and the teachers are ill-paid and ill-trained and I believe the Hon'ble Mr. Hornell will admit that the state of primary education in Bengal is such that it reflects no credit to Government. The great majority of girls' schools are equally wretched. What is urgently required is the provision for better buildings, well-paid mistresses and suitable quarters for them. These are the

The Hon'ble RAI RADHA CHARAN PAL BAHADUR—*concld.*

first needs, but God alone knows when these needs will be met. A special officer was appointed to report on the condition of Primary Education in Calcutta. He submitted his report some time back. The Corporation has also submitted its report, yet nothing tangible seems to be in sight. It was said three years ago and repeated this year that a survey is being made, but I am afraid the Government coach moves very slow. Another want of our community is zenana education. In East Bengal there is some provision for zenana education, but in West Bengal there is none. Female education may well be combined with industrial education and lace-making, needle-work and embroidery might very fitly be taught by peripatetic teachers in the homes of the *bhadroloke* class. Thus not only education but some sort of home-industry may be developed in every home which may enable the wives of middle class people to supplement the resources of their husbands and also, perhaps, widows to earn their livelihood within their *purdah*.

I should like to know why no provision has been made for the tropical school of medicine and hospital attached to it. Tuberculosis is rampant in our midst and I believe there was an idea of opening a separate hospital for the investigation of this disease. Can we have some information on the subject? My Lord, malaria is the great scourge of Bengal. Ever since 1870 the people of Bengal have been agitating for the removal of this scourge. The Government have from time to time instituted inquiries into the cause of malaria and its remedies. But nothing could be done to arrest this disease. This year's budget only provides Rs. 30,000 for Dr. Bentley's investigation.

As this is the last occasion on which we have the pleasure of meeting here the Hon'ble Mr. Lyon, the Vice-President of this Council, before he leaves the shores of India, I wish, with Your Excellency's permission, to say a few words of farewell. Mr. Lyon came out to India, I believe, in 1883, in the stormy days of the memorable Ilbert Bill controversy. Gifted with high intellectual powers, versatile ability, strong personality, combined with an unfailing courtesy, he made his mark in every sphere of his activities during the last 34 years of his service. He has mixed freely and unreservedly with the people among whom his lot was cast, and tried his best to promote their wellbeing. To the student community of Calcutta, he was a true friend and benefactor; he loved them and they loved him, and I can speak, without exaggeration, that there is a genuine feeling of sorrow among them to have to part with him. The Calcutta University Institute, the play-ground of the Oriental Seminary and many other educational institutions will serve to remind us of his large-hearted sympathy and his services to the cause of education. As Vice-President of the Council, he has guided its deliberations with great dignity, courtesy and consideration and we are profoundly grateful to him.

The time for his retirement has come and we all feel a genuine pang of separation. We bid him farewell—a word which cannot be uttered without emotion and, in doing so, we tender him our best wishes for his health and happiness in his well-earned retirement.

Another member of the Executive Council who had his hand in shaping the Budget will be retiring before long. I believe this is the last occasion when we shall have the pleasure of meeting the Hon'ble Nawab Sir Syed Shams-ul-Huda in this Council. I desire, my Lord, on behalf of my countrymen and specially of the community to which I belong, to publicly acknowledge the

services he has rendered to the province as a member of the Government. Succeeding a Hindu in the cabinet of our Government, he very soon established his claims upon the gratitude of my country by the impartiality and vigour, frankness and independence with which he dealt with all subjects affecting the welfare of the country. He enjoyed the complete confidence of all sections of the community. The Government could not have an abler exponent of Indian opinion and we yet hope that though transferred to another sphere not less exalted and onerous, his advice and assistance will be equally available to the Government and to his countrymen."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My Lord, at this customary academic discussion of the Budget, I wholeheartedly associate with the observations which have fallen from my esteemed friend, the Hon'ble Maharajadhiraja Bahadur of Burdwan, and my friend, the Hon'ble Babu Surendra Nath Ray, as regards the constitution and working of the Finance Committee. Half a dozen non-official members are admitted into this Finance Committee, and if they are really members of that Committee, an opportunity should be given to them to deal with the Budget finances, irrespective of any motion brought before them, cut and dried, by the official members of the Committee. They should not be there as mere ornamental figure heads to be tackled with the question of estoppel when they happen to differ from the decisions of the Finance Member. With these preliminary observations, I would like to bring to Your Excellency's notice, some of the features of the Budget.

My Lord, although we meet under the shadow of a great calamity, the Budget which has now reached its final stage, cannot be called a War Budget. The Budget, which is about to be passed, is essentially a measure for securing administrative convenience. Nearly 4½ lakhs have been provided for the partition of two districts and, as a consequence, a further sum of one lakh of rupees has been budgetted for meeting recurring charges for the maintenance of these additional districts. Over 18 lakhs have been provided for the reorganisation and accommodation of the Police. These two are the most predominant features of the Budget. On the other hand, the grant for primary education shows no perceptible increase, the ordinary grant for sanitation has been ruthlessly cut down, and the question of the establishment of a new university in this province, which has been hanging fire for the last six years, has practically been suspended. My Lord, I would not have complained of these reductions, if Government had observed equal economy in the direction of administration. In this matter I feel constrained to say that this was not the time for partitioning districts or for providing new buildings for the comfort and accommodation of the Police. Much less was this the time to incur this lavish expenditure at the sacrifice of sanitation and education. Partition of districts into smaller administrative units may, no doubt, lead to administrative convenience. But, my Lord, administrative convenience is not the panacea for all the evils from which the people suffer. Administrative efficiency, however desirable in itself, being divorced from progressive administration and carried to excess, has a distinct tendency to reduce even the most organised administration to a lifeless machinery incapable of adapting itself to the altered conditions of its environments.

My Lord, the whole country is ringing with the cry of Self-Government within the Empire and a benevolent Government was expected to do something towards the development of Local Self-Government in the domestic affairs of the people. But Government could not accept a simple resolution recently brought forward in this Council for the

Discussion of the Budget.

extension of the Municipal system, but resolution or no resolution, Government are always in a position to mark its sympathy for the aspirations of the people, if it is disposed to treat with sympathy the question of Local Self-Government. Local Self-Government has been truly said to be the foundation of National Self-Government, and it would be an act of wise statesmanship to inspire the minds of the people with trust and confidence in the benevolent intentions of Government."

The Hon'ble MR. BEATSON-BELL said :—

"My Lord, I rise to a point of order. This matter does not arise out of the Budget."

THE PRESIDENT said :—

"Strictly speaking, I do not observe any very close connection between the speech of the Hon'ble Member and the Budget. But it has been customary, I understand, to allow a very general discussion on the occasion of the annual final stage of the Budget. I would ask the Hon'ble Member not to travel further away from the Budget than he can help, and I hope he will refrain from doing so."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—

"My Lord, I do not quite understand that I went beyond the Budget.

It is very discouraging to contemplate that no less than 34 resolutions were moved by the non-official members and with the solitary exception of one small resolution for which the Hon'ble the Director of Public Instruction ought to be thanked, all of them were stubbornly resisted and rejected by Government. In two cases they were rejected by the bare majority of the casting vote of the Vice-President in the chair. Surely this is not very encouraging to non-official members.

My Lord, I do not know whether I would be going against the rules of the Council if I were to say something on the question of internments to which one Hon'ble Member has made a reference. The humble suggestion, which I have made more than once outside this Council Chamber, I would submit once again for the responsible authorities to consider. I refer to the case of the large number of young men who have been interned. I am not going into the vexed question whether they were actual conspirators, anarchists, or whether they were merely taken into custody under suspicion. What my view is this : that these young men. who have been interned and whose number—as far as I understand—comes close upon a thousand, cannot be detained for ever, and when they are let loose, what will be the state of the society and what will be the condition of these boys? They cannot possibly reconcile themselves to the hardships to which they have been subjected. Whether they deserve the punishment they are undergoing or they do not—they will always carry within themselves the idea that they have been victims of a conspiracy and it is my sincere conviction that these boys after their release will be driven into the arms of anarchists or conspirators and they will cease to be useful citizens of the country and the Empire. Under these circumstances it is my earnest request to Your Excellency's Government that the matter be taken into serious consideration and to see whether it may not be possible even now to give these boys an opportunity of joining the Defence of India Force if

they choose to do so. It would surely have a corrective effect upon them, if they are guilty, and at the same time many of them might be reclaimed and they might become useful citizens.

As regards the pay of teachers to which reference has been made by some speakers, I confess that I was instrumental in pilloring the Hon'ble Mr. Hornell upon issuing a circular which, I understand, was not his production, but which came as a legacy to him from his predecessor. However it is gratifying to learn that the Hon'ble Mr. Hornell will now be able to deal with the question more satisfactorily with the handsome grant which the Government of India has made for the improvement of the pay and prospects of the teachers.

My Lord, before I sit down I will say only this. Your Excellency will remember that India of to-day is not India of 1906 and Bengal has moved apace with the current of progressive thoughts and ideas which have asserted themselves in the public mind of Bengal during the last 10 years. Your Excellency comes to us fresh from the bracing atmosphere of the great mother of Parliaments, and it is our earnest hope and desire that Your Excellency will not loose a single opportunity to impress the Government of Bengal with those ideas of justice, fairness, and progress which are the noble heritage of the great representative assembly to which Your Excellency had until recently the privilege to belong."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said :—

"MY LORD,—It is hardly necessary for me to discuss at length thei varous items in the Budget presented to us on the 27th March last. On account of the war, there are financial difficulties on the part of Government, but there is a strong popular feeling which we are bound to represent to Government for increase of expenditure under the heads of Education, Sanitation and the project for mitigating the effects of the Damodar floods in the Burdwan Division. We hold briefs from the people and it is our sacred duty to lay their grievances for the consideration of Your Excellency's Council. On the 13th ultimo we discussed the manner in which our respective claims for the appropriation of the money demanded by us may be met from the several heads of the Budget already settled. All the resolutions had to be withdrawn by us under circumstances recorded in the proceedings of the Council held on the 13th and 14th March, 1917. It now remains for me to submit my views generally on a few items and I will be very brief in my observations regarding them.

The grant for Sanitary purposes is Rs. 2,62,000 for this year. In 1913-14 the actuals were Rs. 5,58,825 ; in 1914-15 Rs. 3,94,688 ; in 1915-16 Rs. 2,13,735. We expected a larger grant.

I may mention that proper application of the Public Works Cess by the District Boards is very desirable and I put a few questions to the Council to get an idea on the subject. But there has been a most lamentable failure on the part of a few District Boards to spend larger sums of money on the excavation and re-excavation of tanks as will appear from the tabular statement of expenditure during the year 1915-16 furnished to me at the Council

Discussion of the Budget.

Babu Kishori Mohan Chaudhuri.

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR—*concld.*

Meeting held on the 27th March, 1917. This result must be regarded as very disappointing.

My Lord, I beg to invite the attention of Your Excellency's Government to the appropriation of the Public Works Cess for the supply of pure drinking water in villages. It is a matter of satisfaction to the villagers that the rigour of the rule of contribution of a third share of cesses by them has been relaxed by our benign Government. Malaria and cholera in villages will be greatly checked if a sufficient number of tanks are excavated and re-excavated and pure drinking water is supplied to the people. It is no exaggeration to say that scarcity of good drinking water in a large number of villages is loudly complained of.

I thank the Government of Bengal for granting Rs. 10,000 for improving the sanitary condition of the Berhampur Sluice on the Bhagirathi Embankment in the district of Murshidabad, for which I moved a resolution on the 14th March, 1917.

I thank the Government of Bengal for providing Rs. 2,50,000 in this year's Budget for mitigating the effects of floods in the Burdwan Division.

The education of girls on oriental ideas is highly desirable and I have invited the attention of Government to this most important subject. The observations of the Hon'ble Mr. Hornell on my resolution, dated the 14th March, 1917, regarding the Mahakali Pathsala show that he has sympathy for such a system of education. I hope Your Excellency will be pleased to consider the matter.

For the education of girls of Upper Primary Schools, the provision in this year's Budget is Rs. 4,000 and for that of the Lower Primary Schools is Rs. 17,000. These amounts are not adequate. The sum of Rs. 13,000 has been kept for Zenana classes in East Bengal, but there is no such provision for West Bengal. The omission should have been remedied.

I thank the Government of Bengal for promising to make the best possible temporary arrangement for the accommodation of the Indian students of the Medical College, Calcutta."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I congratulate the Hon'ble Member in charge of Finance on the budget he has presented this year which can be taken as a prosperity budget. In the revised estimate for 1915-16 the receipts of the year were calculated at Rs. 6,26,31,000, but the year ended with a clear receipt of Rs. 6,34,60,000 in round numbers with better receipts by about Rs. 8,00,000 mainly on Land Revenue, Stamps, Excise, Income-tax and Quinine sale. The revised estimate for 1916-17 shows a probable gain over the actuals for 1915-16 by nearly Rs. 20,00,000, though the provincial share of the increased revenue from new taxation under Excise and Income-tax had to be transferred to Imperial Revenue. The real improvements in 1916-17 also are likely to be effected by better receipts on Land Revenue, Stamps, Forest Jails and Quinine sale. Excluding the special Imperial grant of 9 lakhs for improvement of pay and training of teachers the year 1917-18 has been

Discussion of the Budget.

Babu Kishori Mohan Chaudhuri.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI—*continued.*

estimated to make further progress by better receipts amounting to Rs. 2,82,000, mainly on Land Revenue, Stamps, Excise, Forest and Registration. There was not only improvement on receipts but expenditure was also less in 1915-16 and there will probably be a large saving in 1916-17 as shown in the revised estimate. Thus the revised estimate for 1916-17 shows a closing balance of Rs. 3,26,79,000 in place of Rs. 2,60,97,000 in the sanctioned estimate for that year and the year 1917-18 is estimated to begin with a clear gain of Rs. 65,82,000.

In the budget estimate for 1917-18 a sum of Rs. 11.21,000 is estimated to be spent over and above the estimated income of the year. It has also been noted that a sum of Rs. 69,80,000 out of the closing balance remains available for new expenditure in the future. I have not been able to make out how. when and under what circumstances this expenditure is likely to be incurred. In the absence of a copy of the order of the Government of India according provisional sanction to the draft Financial Statement it is not clear whether the said sum of Rs. 69,80,000 will really be available for expenditure in the near future. The explanatory notes are not clear and seem to me to be rather misleading.

In going through these figures and the explanatory notes on the closing balances for 1915-16 and 1916-17 it struck me that a very large sum forming part of the closing balance for the year 1917-18 has probably unnecessarily been kept as a free balance. In the budget for 1915-16 a sum of Rs. 20,47,000 was kept free and available for new expenditure in the near future and similarly in the budget for 1916-17 a sum of Rs. 19,27,000 was kept a free balance available which could be spent in future years. If in those two successive years a sum of about Rs. 20,00,000 was thought sufficient as a free balance where was the necessity of keeping nearly Rs. 70,00,000 for the year 1917-18? If any sanction of the India Government for utilising this heavy balance for some useful public purposes was necessary, why was not such sanction sought for and obtained? I hope a satisfactory explanation will still be forthcoming. As I have shown before, the year 1917-18 is the most prosperous of all the years since 1912-13. If we are really prosperous it is but reasonable and fair that all our dependants should be allowed equally to participate in our prosperity. On expenditure side the year 191.-18 is the most liberal of all the years since 1912-13. The budget provides an expenditure of Rs. 6,77,20,000 that is nearly 70 lakhs more than the amount estimated to be spent in 1916-17. This is also a sure index to our prosperity. The budget for 1916-17 being admittedly a war budget that year's expenditure may be taken as the barely necessary, ordinary, annual expenses of administration. Let us see then how the excess amount of 70 lakhs has been distributed in the Budget. As far as I have been able to follow the distribution appears to have been made mainly as follows :—

	Rs.
(1) 18—General Administration—	
Staff and household of the Governor	89,000

A glance at the distribution at once shows that this year's budget may be practically called the Police Budget as against the War Budget of its predecessor. Taking the Imperial grant of 9 lakhs for teachers out of consideration there remain 61 lakhs and out of that sum 34 lakhs have gone to the Police and Rs. 10,57,000 covered by items (1) (2) (7) (8*a*) (9) (11(*b*)) for administration and in this distribution education fares the worst.

I now wish to make a few observations on some of these distributions.

22—Education.—As regards the Imperial grant for teachers no detailed scheme has been shown and I am not aware if it has yet been formulated. My information is that a scheme for the improvement of the Subordinate Educational Service has long been sanctioned by the Secretary of State for India with scales of salaries ranging from Rs. 40 to Rs. 400 a month. If my information is correct I bring it to the notice of the authorities to consider if it cannot be given effect to now in connection with this grant and a substantial portion of it cannot be utilised for improving the pay and training of the primary school teachers. As the grant is recurring since 1917-18 I hope full effect will be given to this grant without delay and an opportunity may be given for a public discussion of the detailed scheme.

Lump provisions without details have been made of the several Imperial educational grants. At page 23 I notice that in 1916-17 out of the total grant of Rs. 21,91,000 a sum of Rs. 17,98,000 is likely to be spent. We are also told that nothing out of this lump grant is available in 1917-18. Unfortunately, however, no such detailed information for 1917-18 has been given in the budget. Such an explanatory note is absolutely necessary for getting an idea of the real situation. As regards the savings of these grants in 1916-17 amounting to Rs. 3,93,000 which probably were utilised for other

Babu Kishori Mohan Chaudhuri.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI :—*continued.*

educational expenditures it is but reasonable and fair that this encroachment of 1916-17 should be considered as a moral debt and an early opportunity ought to be taken to repay it so that the sum may be spent for the very purposes for which it has been given. The Hon'ble Mr. Hornell complains in introducing the educational portion of the budget that for want of funds he has not been able to make any provision for new buildings of the Bhola, Jhalakhati, Pirojpur and Jamalpur High Schools recently provincialised. In distributing the aforesaid sum of Rs. 61,00,000 this question should have been considered. Building accommodation for these schools for children under a tropical sun ought to have been given preference.

A motion was made for a grant of Rs. 50,000 for hostel accommodation in Rajshahi in consideration of the fact that a large sum is going to be locally contributed for building accommodation urgently required. The Rajshahi College is the least expensive Government College and it is a pity that in a large distribution the claim of this College could not be considered. Adequate hostel accommodation and placing the students under proper supervision and control is a crying necessity and in no way subordinate to the housing accomodation of police officers.

An attempt was also made for diverting a substantial portion of the amount allotted for police buildings for the improvement of primary education. It is equally unfortunate that it could not be given effect to.

24*b*.—*Sanitation.*—I am glad that a grant of Rs. 2,50,000 has been made for works of sanitary improvements. No detailed scheme has, however, been shown and the grant is also not surely adequate having regard to the importance of the subject. I hope early steps will be taken to make some satisfactory progress in this direction. In this connection it may be noted that a suggestion was made by the Hon'ble Babu Surendra Nath Banerji last year for surrendering the remaining portion of the Ferry receipts to local bodies. I am not aware what effect has been given to this excellent suggestion. I may be permitted to take this opportunity of repeating this request and I hope this concession will be made with strict direction that the whole amount should be spent for sanitary improvement.

26*b*.—*Scientific Department.*—Two lump grants have been made for the Director of Industries and Development of Industries. A larger provision was made for these two purposes in the sanctioned estimate for 1916-17 but nothing could be utilised. The Director could not be appointed as it was not sanctioned and the expenditure under the other head could not be sanctioned pending the report of the Industrial Commission. The grant is not adequate and the savings of the year 1916-17 ought to have been added to the proper grant for 1917-18. I hope steps will be taken to give a start as early as possible as the time is very opportune. The recent practical steps taken to give an impetus to home industries is a move in the right direction and any further progress that can be made will be a great help to this crying need.

45. *Civil Works by Public Works Department.*—(*a*) Police Buildings—A list showing what accommodations, where, for whom, and at what cost, are urgently necessary, and it should have been appended to the Budget Estimate. The non-official members representing various interests in this Council have a duty to perform. It is not that they have no confidence in the official version but they should get an opportunity of submitting their views on the subject based on local information. It is very unfortunate no doubt that the public cannot, in many cases, see eye to eye with the authorities. The general working of the Police Department, at least of the subordinate police, is not very satisfactory to the public. It may be pointed out that the complaint is not a new one nor a one-sided one. The public are vitally interested in the working

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—*continued.*

of the police as they are entrusted with a very sacred and onerous duty—I mean the preservation of the peace. Complaint is often made by the public against the police and the police often complain that they do not get the co-operation of the public. While fully appreciating the remarks of the Hon'ble the Vice-President in introducing the police and jail portions of the amended draft financial statement upon the police and their general work for the maintenance of law and order in this Presidency it is our bounden duty to submit for the consideration of the authorities that there must be some reasonable cause for the long standing mutual distrust and difference referred to above. The police have often been severely criticised and found fault with by the highest judiciary in the land. The fact cannot be denied that honesty and sympathetic treatment are the real key notes of administrative success. Honesty, however, is dependent upon sound education and adequate remuneration which are still absent to a larger degree from the police service than in other similarly important services in India. The system of recruitment of the subordinate police is far from satisfactory. The market value of an ordinary M.A. in the Education Department is Rs. 50 only according to a departmental circular, but the Police Sub-Inspectors drawing an initial pay of Rs. 50 a month is recruited from matriculated students if backed by weighty recommendations. When a large amount (about 22 lakhs) is going to be spent for the improvement of the Police Department the question of house accommodation at a cost of 12 lakhs more could be deferred for a few years at least or a substantial portion of the closing balance shown available for expenditure ought to have been utilised for meeting the more urgent demands of education, sanitation, medical aid, communication and the all-important industrial development of the Province. The improvement of the Police Department is a necessity no doubt and we are glad to learn that the full scheme is ready and it has got the unanimous approval of the Finance Committee. I am not aware, however, whether the same procedure was adopted as regards the appropriation of 12 lakhs for the Police buildings.

(*b*) Grant for land acquisition and for buildings for partitioning Midnapore and Mymensingh.

It is not clear from the statement in the Budget whether the people of Midnapore and Mymensingh are anxious for immediate partition of the districts. So far as we have understood from the speech of the Hon'ble Mr. Dutt, the people of Midnapore at least are opposed to the partition. Several resolutions were moved on the 13th March last urging for the postponement of this scheme for the present. The District Administration Committee recommended immediate partition of Midnapore, Mymensingh, Dacca and Backerganj. If the scheme could be kept pending for the latter two districts I, for my part, fail to understand why the matter cannot be kept pending for sometime more for the former two districts. At least the explanation given is not convincing. If the administrative works for the District Magistrate and the Superintendent of Police for Midnapore and Mymensingh are really very heavy and can not be managed single-handed additional officers can be given for their immediate relief. The work of administration is going on in other respects rather smoothly. The administrative heads can be duplicated without incurring heavy expenditure which the partition will entail. The provision of Rs. 4,36,000 will not cover the whole expenses of partition—more money will have to be provided very soon and this is hardly the time when such big schemes should be taken in hand.

Before I conclude I may be permitted to suggest that more time than what has been allowed at least this year should be given to the members outside the Finance Committee for thoroughly studying the Budget provisions and the explanatory notes should be more exhaustive My Hon'ble colleague

Discussion of the Budget.

Mr. Altaf Ali.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI :—*concluded.*

Babu Mahendra Nath Ray and others made this suggestion last year and the reply given was reassuring. As a matter of fact we got very little time this year to go through the Financial Statement. It was supplied to us, as far as I remember, on the 4th March last only and we were asked to submit our resolutions by 11 A.M. on the 8th. Constituted as we are our voice is no doubt very feeble and does not count much in shaping and regulating the proceedings of this Council. Still we, the representative spokesmen of the people, have a duty here to perform and if we are to discharge that duty conscientiously and to be of any real help to the official members sufficient time and opportunity should be given us so that we may be enabled to offer useful criticism and practical suggestions."

The Hon'ble MR. ALTAF ALI said :—

My Lord, as it is customary with the members of your Council to discuss the annual Budget. I beg leave of Your Excellency to make a few general observations on the present occasion.

The outstanding feature of the Financial Statement, my Lord, is the great increase in the police charges. While other heads of expenditure have been considerably curtailed, the claims of the Police Department have been met fully both under recurring and non-recurring head of expenditure. Police buildings alone will cost 12 lakhs this year. For aught I know, this has been the subject of severe public criticism.

My Lord, I venture to think that the diminution of expenditure under such urgent and important heads as Medical and Sanitation is to be greatly regretted. Our people in the remote villages and towns are dying by their thousands every year and it is our paramount duty to adopt measures to check the ravages of malaria and epidemic diseases, supply pure drinking water in rural areas and improve sanitation generally.

My Lord, it is a well known fact that wherever in the mufassal an epidemic of any description has broken out, its cause has been attributed either to defective sanitation or poor supply of pure drinking water. Is it not surprising, my Lord, that for such an important work a sum of Rs. 6 lakhs only has been found? The allotment of Rs. 30,000 for Dr. Bentley's scheme of subsoil drainage also is not quite adequate. While I welcome the lump grant of 3½ lakhs to the Belgachia Medical Institution and another sum to the Dacca Lunatic Asylum, I am constrained to say that "the criterion of immediate and imperative necessity" has been too rigorously applied in the case of sanitation. So far as education is concerned, no special provision has been made for any scheme relating to Muhammadan education. The people of Eastern Bengal will be greatly disheartened to find that the recurring grant for the Dacca University scheme has been omitted. I, however, as a member of the governing body of the H. H. School, welcome the provision for Rs. 29,000 odd for masters, etc., for that institution and I take this opportunity of thanking Your Excellency's Government for allowing us to continue this experiment.

As a representative of the District Boards it is my special privilege to thank Government for appointing, though as an experimental measure, a non-official gentleman as Chairman of the Murshidabad District Board. Everybody is confident that Rai Baikuntha Nath Sen Bahadur will more than justify his appointment and it is to be hoped that the experiment will prove a success and that it will be introduced in at least one district in each of the five divisions of Bengal.

The gradual diminution of the Augmentation grant, however, needs an explanation.

Discussion of the Budget.

Dr. Deba Prasad Sarbadhikari.

The Hon'ble MR. ALTAF ALI :—*concluded.*

This is an Imperial grant for the benefit of the District Boards. Nowhere does it appear, my Lord, that the Imperial Government wants to treat Bengal in a different way from the other provinces which enjoy the grant. In my opinion Provincial Governments should not curtail this Imperial grant without the authority of the Government of India. The District Boards should have been provided this year with a special grant with which they could excavate silted up tanks and khals and construct masonry wells for the supply of pure drinking water within their respective jurisdictions. I may be allowed to point out, my Lord, that the big rivers and important waterways of Bengal deserve to be looked after by the Government. My Lord, a rumour has gained ground that it is in the contemplation of the Government to constitute Circle Boards in substitution of the existing Local Boards and to place them under official presidents equal in rank to Sub-Deputy Collectors. I am afraid, my Lord, the latter part of the proposed scheme will not be acceptable to the people who are as anxious as ever that Local Self-Government should be absolutely free from all sorts of official interference.

In conclusion, my Lord, it is my agreeable duty to thank Government for empowering most of our Municipalities during the year which has just been closed to elect their own Chairman. This has everywhere been hailed with delight."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, all interested in education, in this country rejoice at Your Excellency's deep-rooted and long-standing interest in the question. Your Excellency is reported to have recently observed that the question of advance of education is largely a question of money and that Your Excellency intended to do your utmost to extend and improve education. As Your Excellency rightly observed the task is gigantic and patience is essential. If it is a question of money, it is no less a question of the soundness of the point of view and correctness of the angle of vision. We rejoice that Your Excellency thinks that arrangements should exist in India to enable Indians to acquire efficient training in the highest branches of medicine, engineering and all sorts of arts and crafts and I have no doubt in this programme of advance Commerce, Agriculture and Technology will find fitting places. With determined efforts and in spite of drawbacks that will long continue, it would be possible to have removed a few more bars in the way of progress. Some slight relief in the situation may be afforded by the Imperial grant of nine lakhs for the betterment of the position and for the training of teachers in our secondary schools. The grant when spread over, all the schools waiting for assistance, may not make a serious impression on the situation in the first instance, but will be an exceedingly good beginning, if properly handled. Careful consultation of all the interests concerned will be needed before embarking on piecemeal individual schemes that will find advocates and the waste that has attended some previous grants ought to be effectively stopped. In the Budget Statement or the debate that followed it, no definite information was forthcoming as to the line that the distribution of the grant was to take and some pronouncement in this behalf would be helpful. And such pronouncement ought to be followed by detailed deliberation by representatives of the different interests concerned. How much of this is to be for training purposes and how much for individual improvement ought to be known early and schools under private management that otherwise receive no assistance, ought to come in for a large share of the benefaction. Whether a very few rupees individually added all over the field would be the better use of the grant or whether selected institutions or classes of institution in some selected area

Dr Deba Prasad Sarbadhikari.

The Hon'ble DR. SARBADHIKARI :—*continued.*

should have thorough toning up as a beginning, others being taken up in their turn when more grants are forthcoming, would also be an interesting moot question.

Intimately connected with the question of improving the prospects of our teachers and properly training them would be the question of housing schools properly, for which no adequate provision by the Government is now possible or is likely to be possible in the immediate future. Such resources as are at the disposal of the Government must be nearly exhausted in the partial improvement of bad Government schools, for unfortunately there are many such, and the schools under private management can hardly expect appreciable relief for a long while out of the existing resources. Yet without some relief it would be a mistake to expect any tangible improvement. The demand for secondary education is growing every day, and it being the rock-bed of satisfactory higher education, the demand cannot be ignored with impunity. I shall not take up the Council's time in detailing the necessities of the situation brought out in a recent debate on the question, but would be content merely to emphasise the supreme need of early action, so that some beginning in selected areas and with regard to selected institutions may be possible. Though no separate and earmarked provision has been possible, the general educational budget may possibly give us a few thousand rupees during the course of the next twelve months, for starting such an experiment as was advocated by the Hon'ble Dr. Nilratan Sarkar at a recent meeting of this Council. The need does not and cannot be denied and the longer the first steps of reform are delayed the worse will the situation suffer as a whole. If the grant-in-aid rules, that are now in the course of revision, are suitably modelled many, who refrained from seeking and taking aid, may come forward.

Still more intimately connected with the question of the improvement of our teachers' position would be the scheme of Provident Fund and Insurance, that I have been urging for some time. Now is no time to go into details of such a scheme that must be submitted to careful acturial calculation and checking. But here also a prompt beginning is essential. If you cannot substantially add to your teacher's pay, to give him some sense of security regarding the future would be the next best step to take. A rupee or two added to the present pay would not be half as beneficial as if such increase was diverted to the purpose of a good Provident Fund and Insurance under a mature and comprehensive scheme. This would not only help in raising the status of our teachers but would also under given conditions be a help towards securing continuity of their services.

I must emphasise on the necessity of continuing the grant to our private colleges, for they depend upon such grant for the necessary improvement insisted on by the University Regulations. This grant was ordered by the Government of India, when it realized that the private colleges could not, out of their own resources, in all cases comply with the requisitions of the new Regulations, and every year it has been made over to the Provincial Govertment for allotment on the advice of the University among the different deserving colleges. Though the grant has been included in the Budget of the past two years as before, the financial difficulties created by the war prevented its distribution as in the previous years. Important work that had been taken up or contemplated was necessarily postponed and the progress of these colleges has been considerably thrown back. It is sincerely to be hoped that no contingencies will arise that will make further postponment of the distribution of the grant necessary. One of the first charges so to speak on the grant is the deficit of the Calcutta Mess Scheme that at the instance of the Government of Bengal the University has taken up.

Discussion of the Budget.

Dr. Deba Prasad Sarbadhikari

The Hon'ble DR. SARBADHIKARI : —*continued.*

Such deficit has increased owing to the increase of the demand on the scheme and the increase in deficit cannot be long allowed to remain standing without serious prejudice to the whole scheme. In fact, the scheme has to be considerably strengthened and added to if our Residence Regulation Regulations are to be insisted on strictly. The new hostels under erection will accommodate but a small number of the under-graduates that we have to accommodate and attached and unattached messes under tolerably strict supervision and on comparatively easy terms, must continue if the residence rules are to be complied with. This is one of the acutest of the problems of our private colleges and if the Government has no independent funds to give, over and above the nine thousand a year that is now being given, the deficit must come out of the grant earmarked for private colleges, as had been agreed to before. On a previous occasion the Hon'ble Mr. Hornell and myself fully explained to the Council that in matter of the distribution of the Hostel grant of the Government of India, which, strictly speaking is not a matter for this Council to consider, cannot be said to be unfair as complained by some of the Muhammadan members of this Council, I should like to have much more of course, both for Hindu and Muhammadan students if I possibly could.

The next question of importance connected with the matter is that of providing adequate and seemly furniture for the new hostels which are fast approaching completion. The Government of India grant may ultimately prove inadequate for the completion of the scheme owing to the steadily increasing war charges and the savings that at one time we fondly thought could be diverted for the purpose of two small hostels for the depressed classes and the Buddhist community, may after all turn out to be very illusory indeed when the accounts are finally adjusted. In the meantime, the hostels should be ready for occupation at the beginning of the next term and must be suitably furnished. If left to themselves, the boys may bring in non-descript furniture of all sorts and conditions and in all possible stages of dilapidation as is the case in some of our messes. This state of things is not for a moment to be thought of in connexion with the fine buildings that the generous grant of the Government of India will soon enable us to present to the colleges. Nor have the colleges funds of their own out of which the large expenditure for furnishing can be met. This expenditure has, therefore, also to come out of the accumulated grant or at least the year's grant for the private colleges, than which, for the present, there can hardly be a more deserving object. Representation on this behalf is already before Your Excellency's Government and I trust will receive sympathetic response.

I have referred to the necessity of providing for under-graduate residence so far as the Government colleges are concerned. I desire to take this opportunity of drawing the attention of Your Excellency's Government to the heed of strengthening under-graduate teaching in the Government colleges.

Under a Post-Graduate Studies scheme now engaging our attention and into the details of which this is no time or place to enter, the obligation of the Government in Calcutta are likely to be less than before, and it is worthy of consideration whether in other centres, such as Rajshahi, Dacca, Hooghly, Krishnagar and Chittagong, steps might not be taken for starting or strengthening post-graduate studies by way of relieving pressure on Calcutta, which is already very great. This aspect of things has often been attempted to be impressed upon the Government, but not with much success. Advance University work ought to be a matter of grave concern to the Government from the point of view of securing suitable teachers in large numbers in the various subjects taught in our colleges and from the industrial and economic points of view, if from no other. An illustration of the importance of the latter point of view may be found in the recent, up-to-now-unsuccessful

negotiation, with the Government for obtaining duty-free alcohol for research work in the Science classes of the University. As Your Excellency may be aware the splendid benefaction of the late Sir Taraknath Palit and Sir Rasbihari Ghosh have enabled us to secure the services of distinguished Professors like Dr. P. C. Ray, who have a host of willing, enthusiastic and energetic co-laborators, capable of taking up research work in connexion with drugs and dyes that are at the present moment of very great importance. Leaving their routine academic work alone this aspect of their work entitles them to such assistance as may be for the Government to give. In their progressive work alcohol plays an important part. If the usual high duty has to be paid for alcohol necessary for this supreme work, the work is bound to be starved and neglected. Government can manufacture alcohol *ad libitum* at almost a nominal cost, more than which, and even small margin of profit, we are prepared to give. But to demand the high duty of Rs. 18 a gallon though denatured spirit for lesser industrial work pays much less, is no assistance to Science, Industry or Economics. If it was the fact that withholding this concession would make it obligatory on the University to buy at any cost all the alcohol that could be possibly consumed under more favourable circumstances, the question of possible loss of revenue might arise. But the fact is that if free alcohol cannot be secured, as the Presidency College and the Indian Museum can secure, the contemplated work will simply be put on one side, though there is a capable agency at our disposal. It is a mistake to suppose that extravagance must follow a cheap supply. In our laboratories we scrupulously use even distilled water manufactured at a cost of 2 annas per gallon. It would be a greater mistake to suppose that because the Government of India is still the Government for the purposes of the Universities Act, the Government of Bengal may not well extend a helpful hand in concerns like these, and I am not aware that in the Excise Budget expectation is shown that the Science College revenue will come in in a very marked degree because of the withholding of which I complain. My Lord, the question has an important educational aspect and it is not merely an excise question. It will I hope be reconsidered favourably, so that we may be able to get the best out of our Professors and scholars. It may be considered curious for the President of the Temperance Federation plead for such a liberal supply of free alcohol. If he is liberal in the interest of research and industries he is equally niggardly with regard to other aspects of the question.

On the subject of Excise, Your Excellency will find a keen and growing interest in Calcutta and throughout Bengal. Temperance reform in the West has aimed at restricting the consumption of intoxicants as beverages among all sections of the community, and on behalf of the Temperance forces of this City and Province I desire to express to Your Excellency the sincere gratitude and extreme pleasure with which the announcement was received that the luxury of champagne and other wines was to be banished from Government House. Bengal will appreciate this sacrifice and honor Your Excellency for the example you have set. May I express the hope that the leaders of both Indian and European Society in this city who were foolish enough not to follow the King's lead will now be wise enough to follow the Governor's example.

The steady decline in the consumption of intoxicating drugs and drinks in Bengal has meant a loss of revenue but a loss that those who are the best friends of the country do not regret. Indeed Your Excellency will learn that Temperance workers throughout India are urging the Government of India to change its avowed policy of perpetuating the evils of the drink and drug habit by steadily guarding the interests of the moderate drinker, instead of adopting the idea of total abstinence as the ultimate object of Provincial Excise administration and gradually working to the steady

Discussion of the Budget.

Dr. Deba Prasad Sarbadhikari.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI—*continued.*

attainment of that end. India will not be satisfied until its outcast communities which are the hardest and heaviest drinkers are weaned from a habit that helps to keep them debased and degraded. For economic reasons—for all agree that money spent on liquor and drugs is money wasted—the habit of total abstinence should be encouraged, partly at present from patriotic motives, but quite as much from the highest moral considerations. Your Excellency will we trust promote the interests of Bengal by administrative regulations as well as personal example, and for myself I would gladly see other luxuries taxed rather than that revenue should continue to come from what John Morley once described as India's dire, additional plague.

I will only ask Your Excellency to approve and foster the lead Your Excellency's predecessors have given in Excise administration by extending the good work done by the Calcutta Licensing Boards to three or four more of the largest centres of population in Bengal; or if that is not thought practicable, by extending the powers of the Calcutta Board to a much larger area round Calcutta; also to extend the system of Advisory Committees, their constitution, powers and procedure, so that local opinion may be more uniformly and effectively consulted, and finally that all reasonable suggestions for the reduction in the number and sites of liquor and drug shops shall be approved, and the hours of sale more strictly limited. Those who have come recently from England tell us that India is altogether too slack in facing the issues of the war and its call upon every subject of the Empire to make some real sacrifice. Your Excellency will find that Indian public opinion will heartily support a sterner policy of repression of the evils of intemperance, and a much more drastic limitation of the ordinary sale of intoxicating liquors and drugs than the Government of Bengal, despite its past sympathy and aid, has shown itself prepared to give.

A question that some of us very often pressed before this Council is that of improvement of one of the most deserving departments of Your Excellency's Government, viz., the Provincial Judicial Service. After long and continued struggle we succeeded in getting the Government see the necessity of raising the initial pay of our Munsiffs and the necessary budget provision was secured. But the ultimate adoption of this scheme was delayed as the recommendation of the Public Services Commission was not yet known. Those recommendations are now before the Government, and we are thankful that they are much more liberal than even we ventured to ask for. With such high authority in our favour, we claim that the question ought not to be further deferred and that a beginning should at once be made for giving effect to improvement that has long been considered necessary.

We have often discussed in this Council the disastrous results of the Damodar floods, which formed even to-day the subject-matter of some questions. The matter has engaged the attention of the Government and the public long and now and again we had sympathetic assurances of which nothing practical has yet come. One of the villages on the Damodar a—village destined to live in the history of modern Indian civilisation—has terribly suffered for many years. It is suffering more and more every year and may soon be washed away altogether and be a thing of the past. Radhanagore in the district of Hooghly, where the pioneer reformer Raja Ram Mohan Roy was born, is a doomed village and hundreds if not thousands of villages round about are in the same predicament and the plea on their behalf from year to year has been unavailing so far. Radhanagore is soon likely to have a permanent and suitable Ram Mohan Roy memorial and if the authorities of the Bengal-Nagpur Railway make some concessions that have been asked for, Radhanagore will soon grow in importance and its protection and the protection of the many villages round about will be a matter of the utmost

importance. I should like therefore to associate myself strongly with the views of the Hon'ble the Maharajadhiraja of Burdwan that some early attempt for mitigating the evil is imperatively necessary. I also desire to associate myself with the Maharajadhiraja Bahadur in his appreciative remarks about our retiring Vice-President and Hon'ble Nawab Sir Syed Shams-ul-Huda our relation with whom in this Council were always pleasant and profitable.

The Hon'ble BABU BHABENDRA CHANDRA RAY said :—

"My Lord, it is very trying to have to deal with a Budget which claims to be an adversity Budget, and moreover seeks to stifle criticism by bravely displaying the label—'approved by the Finance Committee.' But my Lord, if we are to be true to ourselves and to our constituencies, we must speak out —some times even at the risk of disturbing the serene equanimity of official minds. Our lack of information is not unoften responsible for inquiries and observations which provoke curt and indifferent replies from the official benches. But I can assure your Lordship that non-official members do sometimes attempt to study things, according to their own lights, before raising any discussion thereon. The Budget itself, for instance, needs some gloss on some points to enable uninitiated but inquiring minds to correctly appreciate it. And when in such circumstances we ask for more light than the official papers suffer to afford us, we certainly do not expect to be referred back to those very pages which prompted us to make the inquiry. It may be a dexterous method of answering interpellations, with which the Secretariat appears to be in love. But we expect your Lordship to wean it of its affection for fencing methods in the matter of replying to non-official queries.

My Lord, I had the misfortune on the last Council day to ask for detailed information in regard to the head of Income-tax in the present Budget; and it pleased the Secretariat to refer me to the Budget itself in reply. I do not know why the Secretariat could not be charitable enough to presume that I had some acquaintance already with what appeared in the Budget on the point. At least we non-official members expect to be given the benefit of doubt in these matters. As the reply has not improved my knowledge in any manner, I take the liberty of raising the question here again, in the hope that the Hon'ble Member in charge will not disdain to explain things which, though quite obvious to the omniscient Secretariat, cannot be easily comprehended by ignorant non-official members.

My Lord, we are all aware that the income-tax was somewhat enhanced last year by the Imperial Government, and although the income-tax is a divided head of revenue—shared equally by the Imperial and Provincial Governments—the Government of India was desirous of appropriating for Imperial purposes the entire excess yield which would result from the enhancement. It was calculated that this excess, so far as Bengal was concerned, would be Rs. 40 lakhs 80 thousand, of which only half would ordinarily be credited to the Imperial funds. The other half, representing the Provincial share and amounting to Rs. 20 lakhs 40 thousand, was therefore made into a fixed assignment by the Provincial Government in favour of the Imperial. Accordingly, this assignment was provided for in the Budget of the last year on the understanding that the amount would be liable to revision only when normal financial conditions were restored. But as a matter of fact, the excess came up to 65 lakhs in 1916-17, and is expected to be 78 lakhs in 1917-18. And instead of sticking to the assignment of 20 lakhs 40 thousand, the Local Government have made over 32½ lakhs as the Provincial share, or 12 lakhs 10 thousand in excess of the assignment, to the Imperial funds in 1916-17. They have, moreover, budgetted for 39 lakhs, or 18 lakhs

Babu Bhabendra Chandra Ray.

The Hon'ble BABU BHABENDRA CHANDRA RAY :—*continued*

30 thousand in excess of the assignment, to be made over to the Imperial Government in 1917-18. The brief explanation which the Budget furnishes for this departure from the terms of the assignment is that the "Local Government did not feel justified in adhering to the assignment." I am perfectly aware, my Lord, that the financial relations of this Government with the Imperial are governed by strict principles into the merits of which it is not permissible for us to enter. But when they are thus regulated by a stern system of settlements, assignments and transfers between the two Governments, any lapse into fits of generosity or other softer sentiments, on the part of either, is not only unexpected, but sometimes calls for more than a passing explanation if particularly such weakness tends to a loss of revenue to us. I hope the Hon'ble Member in charge will be pleased to explain the terms on which the assignment was fixed, indicating whether it is strictly obligatory on the part of this Government to assign any amount over Rs. 20 lakhs 40 thousand from the Provincial share of the excess amount of income-tax to the Imperial Exchequer.

My Lord, coming now to the expenditure side, I am impelled to take off my hat to the Police head, for to that belongs the prerogative of plenitude. I regret it is beyond me to approximate to that pitch of mind where the very association of the magic name of Police is sufficient to invest any scheme with the character of overruling importance and, in the words of the Budget itself, "immediate and imperative necessity." The progress which the Police expenditure has made since 1912-13, as compared with expenditure under Education and Sanitation, provides food for much serious thought. From something like 84 lakhs in 1912-13, the total Police charges excluding Police buildings, have risen to 1 crore 34 lakhs in the present Budget, which represents an increase of 50 lakhs or about 60 per cent. in six years. Turning to Education we notice that from about 75 lakhs in 1912-13, the expenditure has come up to 98 lakhs in the Budget ; here we have an advance of 23 lakhs or 30 per cent. in six years. The Sanitation expenditure, borne out of the Provincial funds, was 7 lakhs 64 thousand in 1912-13, and has come down to 5 lakhs 98 thousand in the Budget—which represents a decrease of 1 lakh 66 thousand or about 22 per cent. Taking now the total provincial charges for comparison, we note that from about 5 crores 70 lakhs in 1912-13, we have arrived at 6 crores 77 lakhs in the Budget ; in other words, there has been an advance of over 1 crore or about 20 per cent. in six years. Again, we find that in 1912-13, Police expenditure represented about $\frac{1}{4}$, Education $\frac{1}{8}$, and Sanitation $\frac{1}{90}$ of the total provincial charges of the year. The Budget figure for Police expenditure in 1917-18, however, represents one-fifth, Education one-seventh, and Sanitation less than one-hundredth of the estimated provincial charges. A striking feature of the Police charges is that they maintain a steady, uninterrupted advance since 1912-13, while the other items of expenditure, such as Education and Sanitation, indicate fluctuations during the corresponding periods quite as much as the total provincial charges. Another remarkable fact is that while the actual educational expenditure generally falls below the Budget by several lakhs, the Police actuals are better than the Budget by a respectable margin since 1915-16. So that there is a lively chance of the actual Police charges mounting up higher than the already inflated Budget figure for 1917-18 by a few paltry lakhs, and the Education and Sanitation Budget-suffering a corresponding shrinkage.

My Lord, a few days back I had the honour of moving a resolution in connection with the Financial Statement, seeking to ensure a full allotment of what is known as the Augmentation Grant to the District Boards from which the Provincial Government have for some time been making deductions without any excuse or authority whatever. In conditionally accepting the

Discussion of the Budget.

The Hon'ble BABU BHABENDRA CHANDRA RAY—*continued.*

resolution, the Hon'ble Member in charge was led to remark that Government had been considering whether they could not be more generous with the District Boards. The Hon'ble Member, I trust, is alive as much as any body else to the fact that the acceptance of my resolution did not involve any exercise of the virtue of generosity on the part of Government, but was the least that they could do to extricate themselves from a rather awkward situation. And I think I have a right to hope that the Hon'ble Member having made that statement will stick to his assurance that Government are thinking of becoming more generous to the local bodies. The necessity for ampler funds is growing every year with the ever-increasing demands on the purse of our District Boards. There has no doubt been an improvement in the financial position of the Board on account of the localisation of the Public Works cess ; but we must not forget that certain Provincial grants have been concomitantly withdrawn. And the position is this, that although in less informed quarters the District Boards seem to be "rolling in wealth," they are very much worse off than the local bodies in the other provinces in India. From the statistics available to us it appears that the incidence of income (excluding opening balance) of the local bodies in the various provinces stood thus, in 1913-14 :—

	Rs.		Rs.
Madras	·53	United Provinces	·26
Assam	·52	Central Provinces ...	·25
Bombay	·47	Bengal coming last with ...	·22
Punjab	·44		

And while in the case of all the other provinces, this income per head of population is a steadily increasing figure, in Bengal it reached its highest in 1913-14 with ·22 and is going down from 1914-15. The total income of the Boards in Bengal (excluding opening balance) stood at 1 crore 7 lakhs in 1913-14 ; 1 crore 4 lakhs in 1914-15 ; 1 crore 7 lakhs again in 1915-16 ; 98 lakhs 30 thousand in 1916-17, and it is estimated to go down to 96 lakhs 94 thousand in 1917-18. My Lord, our balances have for some time been a reproach on our capacity for spending. I desire, however, to point out that the local bodies in Bengal are not singular in this respect ; indeed, they sin in the company of all the other major provinces in India. But conditions are improving very fast in Bengal and our balances are as a matter of fact dwindling remarkably. The closing balance of the District Boards in Bengal reached its highest in 1914-15 with 30 lakhs 65 thousand and odd ; the balance for the next two years were 22 lakhs 73 thousand and odd, in 1915-16 ; and only 8 lakhs 27 thousand and odd in 1916-17, the estimated closing balance for 1917-18 being 7 lakhs 51 thousand and odd. I have very little doubt, my Lord, that taking the estimated figure for 1917-18, there will be hardly another province in India to show such a small balance. We all know, that the Boards stand on the threshold of a most memorable chapter in their history. We see in every direction signs of expanding importance and usefulness of our self-governing institutions. Their duties are growing more and more, and their purse-strings are being tugged vigorously from all sides. The large balances have evaporated in an incredibly short time, and the local bodies must be financed more liberally if they are to be saddled with further responsibilities. Apart from the direct demands of rural sanitation, water-supply and primary education, the local bodies are now to finance the Union committees whose number is on the increase ; and if the suggestions about the "Circle System" as put forward in the Report of the District Administration Committee, come to be given full effect to, then the burden on our local bodies will become a very heavy one in all conscience. For, if I have been able to follow the recommendations of the Committee, they want the bulk of the Public Works cess receipts, now credited to the District Boards, for the purpose of financing the Circle System when it comes into being.

Discussion of the Budget.

The Hon'ble BABU BHABENDRA CHANDRA RAY—*concluded.*

My Lord, I plead therefore for a greater financial assistance to our District Boards. As I have already stated, Government contribution to these bodies has fallen off with the surrender of the Public Works cess. And taking the revenue, properly so called, of the local bodies of the different provinces, as shown in a statement placed on the table in the Imperial Legislative Council on the 20th March last, I find that in the year 1914-15 Government contribution roughly represented 60 per cent. of the total actual revenue of the local bodies in Assam; 45 per cent. in Bombay; 40 per cent. in the Punjab and in the Central Provinces; 35 per cent. in Madras; and 20 per cent. in Bengal and in the United Provinces. We have therefore a very legitimate grievance in this respect. One of the reasons why the local bodies in some of these provinces are in receipt of such large subventions from Government, appears to be that there the Augmentation grant made by the Imperial Government represents one-fourth of the total land cess, while in the case of the local bodies in Bengal this grant is at present practically one-eighth of the land cess. I am aware that the Local Government have no more authority to increase this grant than to effect any deductions therefrom. But may it not be expected that your Lordship's Government will be pleased to take up the cause of our local bodies and represent the matter to the Government of India with a view to get the Augmentation grant doubled as soon as Imperial finances permit. I may remind your Lordship that the Decentralisation Commission, in recommending the improvement of the financial position of the local bodies, suggested among other things that the Augmentation grant should be increased. I do not claim that the local bodies in Bengal should be treated with greater indulgence by the Government of India, but only that they should be placed on the same footing as the local bodies in those provinces where the grant represents 25 per cent. of the entire land cess. Before I resume my seat, let me express the hope that it will be possible for your Lordship's Government to give effect to my resolution of the 14th March last regarding the Augmentation grant within the present financial year, and to restore to the District Boards the amount of 5 lakhs and odd representing past deductions from the grant."

The Hon'ble RAI SRI NATH RAY BAHADUR said :—

"My Lord, we are keenly sensible of the heavy strain on the finances of the Government due to the continuance of the war. It is reasonable to expect that many of our cherished schemes will remain in abeyance during the period. But we hope that this year will see the end of this world struggle with the victory of Great Britain and her Allies and we will meet next year under different conditions and circumstances.

In reply to an interpellation last year by Nawab Syed Hossam Haider Chowdhuri, Khan Bahadur, the Government were pleased to state that 27 high schools were unable to obtain affiliation for want of funds, the Government then not being in a position to help them with the requisite aid. I do not know how many of these 27 schools have since been able to obtain affiliation. It is with great difficulty that the school authorities can make both ends meet, as the Indian Universities Act and the University Regulations impose various obligations on the school authorities which require a great deal of expenditure. According to Government rules, a boy willing to enter the University or any technical Department or Government Service is rightly required to pass at least the Matriculation Examination. It is therefore absolutely necessary that education up to the Matriculation Standard should be within the reach of many. The University insists on certain conditions to be fulfilled before a school is recognised. As a general rule the University relies on the report of the Departmental Inspector to see if these

The Hon'ble RAI SRI NATH RAY BAHADUR :—*continued.*

conditions have been complied with. It is frequently complained that Inspectors are very hard to please and that they apply the Regulations with great stringency and rigour. In the interest of education I would desire a little more leniency in the matter of inspection until the Government will be in a position to be more liberal in grants. Of course I do not ask for leniency of standard in teaching and management. The Department may not insist on expensive schemes of accommodation and it is likely the University will not object to any relaxation in this respect.

There has been a proposal to provincialise four High Schools, viz., those at Bhola, Pirojpur, Jhalakati and Jamalpur. A large amount of money will be required to carry out the scheme. I would beg to suggest that the scheme may be put off for the time being, and the amount thus saved may be given to those institutions which cannot subsist without public help.

We cannot but feel grateful to His Excellency the Viceroy for the annual grant of nine lakhs of rupees for the improvement of the pay of the teachers in conformity with His Excellency's announcement made at the last Convocation. Now with this Imperial grant the Government will be in a position to remove to a certain extent a source of dissatisfaction to this highly deserving class of public servants by a judicious distribution of the amount set apart for the purpose.

The Medical College at Calcutta is quite insufficient to meet the growing demands for medical education in the country. It is a melancholy fact that a very large percentage of Eastern Bengal students could not be admitted to the Calcutta Medical College last year on account of the paucity of accommodation, and this deplorable state of things has unfortunately been going on for the last few years. The inadequacy of medical aid in the towns and villages of Eastern Bengal has been more than once referred to by your Excellency's predecessor in his public utterances at Dacca. I would therefore urge upon the Government the imperative necessity of establishing a Medical College at Dacca as soon as the funds permit, even before the University scheme takes a practical shape. Thanks to the activities of the Agricultural Department Dacca has been provided with an Experimental Farm. Agriculture is the main stay of the vast population of Eastern Bengal. I venture to point out that the establishment of an Agricultural College at Dacca will remove a want which has been long felt by the people of Eastern Bengal, especially the upper and middle classes. These two Colleges will eventually form a part of the Dacca University. I would urge upon the Government the consideration of providing hostels for the graduate and under-graduate students of the backward classes in Calcutta. At a modest computation there are about a hundred students of these communities studying in the various Colleges at Calcutta. They cannot find shelter in the ordinary hostels and messes for unfortunate caste restrictions and they have to put up with great indignity and inconvenience in getting accommodation. I am glad that the Muhammadans are going to have separate hostels. In the same way I plead for separate hostels for the students of the backward classes. At Dacca the then Eastern Bengal Government made good provision for them, but at Calcutta none exists.

When the public works cesses were made over to the District Boards it was contemplated that the fund thus available would be principally utilised for the improvement of water-supply in the rural districts; but it is to be regretted that the grant has not been properly applied to this purpose, and the actual amount annually spent by the Boards in this direction has been quite insufficient in proportion to the needs of the country. The expenditure

on this head should be largely increased to remove the scarcity of water-supply. The Government should impress upon the District Boards the necessity of increasing the expenditure on this head.

The Government should consider the question whether the District Boards should be asked to re-excavate the dried-up and silted-up canals. Their re-excavation will have the effect of improving the water-supply, irrigation, communication by boat and drainage. The improvement thus made in the drainage of the country by opening up of silted-up canals will most probably help in checking the spread of malaria which every year kills hundreds of thousands of people and wrecks the health of a still larger number. I am glad to say that both the Imperial and the Provincial Governments also recognise the fact. No doubt the re-excavation of the dried-up canals and keeping them in order will entail a heavy cost on the Boards and the Government also cannot spare sufficient funds to help them. I would suggest that the cost can be partly or mostly met by the levy of a toll on every boat that passes through the canals and an enormous sum can thus be raised without straining the purse of the people in general. To take only a few instances, the re-excavation of the many khals of Vikrampur in the district of Dacca and those in the district of Mymensingh, will do incalculable good to a very large population of Eastern Bengal. It is also possible to find private companies and individuals who will undertake the work of excavation, if the District Boards guarantee them a certain amount of interest as they do in the case of the light railways. In Eastern Bengal, specially in the district of Dacca, canals are a greater need than roads and railways for the purpose of communication.

My Lord, one question which touches most intimately the people of Eastern Bengal is the position of Dacca as the second capital of the province. Lord Hardinge in the Despatch of August 1911, elaborated the advantages of Dacca as the second capital which had "all the conveniences of ordinary provincial head-quarters." His Lordship pointed out the desirability of the Governor residing there from time to time. The simple statement was afterwards raised to the dignity of an assurance by Mr. Montague, Under-Secretary of State for India, at the discussion of the Government of India Bill in 1912, in which Your Excellency took such a leading part. Your Excellency asked for a Statutory Declaration, but Mr. Montague, on behalf of the Government, did not agree to it, but was confident that "the same reason would take the Governor of Bengal to Dacca that took the Governor of the United Provinces to Lucknow, and the Governor of Bombay to Poona." "Government buildings", he went on to say, "had been put up at Dacca at a great cost and would be preserved and used for the purpose indicated." This was a distinct pledge. Lord Carmichael used to spend a portion of autumn at Dacca and he expressed the hope that Your Excellency would never lose sight of the importance of Eastern Bengal. But it is to be observed that a permanent use has not been made of the Government buildings at Dacca in the spirit of Mr. Montague's declaration in the House of Commons. We desire that some Government offices may be permanently located at Dacca; and Dacca may be made the head-quarters of the Departments of Land Records and Agriculture and Excise, and the offices of the Postmaster-General, Inspector-General of Civil Hospitals and Jails and Registration. Most of the big zemindaries are within the divisions of Dacca, Rajshahi and Chittagong, and a large number of estates in these divisions are under the control of the Court of Wards. The office of the Board of Revenue may also be permanently located at Dacca. I hope that Dacca will be really treated as a second head-quarters as Lord Crewe had said, and be placed on a footing of equality with Poona and Lucknow. There have been attempts in certain quarters t

belittle the importance of Dacca, but we hope during Your Excellency's Government these attempts will end in failure."

[At this stage the Council adjourned for lunch.]

AFTER LUNCH.

The Hon'ble MR. RASUL said :—

"Before I make my observations on the Budget proper, I desire to say a few words with regard to the procedure regarding the Budget debate. My friend the Hon'ble the Maharajadhiraja Bahadur of Burdwan has drawn Your Excellency's attention to the rules and regulations regarding the Budget debate and also with regard to the Finance Committee. I want to associate myself with all that he has said in respect of the Finance Committee and in regard to the rules. But I also want to say a few words on the futility of the Budget debate and in this connection I would draw Your Excellency's attention to a certain procedure. I was one of those who received a circular letter from the Secretary to the Legislative Department drawing our special attention to rules 34 and 35 of the Bengal Legislative (Financial Statement) Rules asking us to be relevant to the Budget, that is to say, I was under the impression that we would not be allowed to say anything with regard to anything else except the Budget. After receiving that letter I looked into the Budget debate and the innumerable speeches that were delivered last year There I found about 100 closely-printed pages in the *Calcutta Gazette* and, out of that, I could see that nearly 70 pages were devoted to matters absolutely irrelevant to the issue—as we lawyers call it. I was rather glad when I received that letter which I have mentioned and also with regard to the 15 minutes time-limit. Now to-day from the first few speeches that I had the good fortune to listen to, I found speakers referring to several matters which were irrelevant to the Budget discussion. Now as I said in the very beginning about the futility of the Budget debate, I only want to draw Your Excellency's attention to the fact that after devoting one day or two days to the Budget discussion we are not allowed to vote on it. We are only allowed to make speeches on subjects which were already discussed during the debate on the Revised Financial Statement and the Hon'ble Members of the Executive Council reply to these speeches and the Budget is passed. Now what is the use of repeating these arguments again and again? I would therefore ask Your Excellency whether you could see your way to amend the procedure in some way. My humble suggestion is this : that on the day fixed for the Budget debate there ought not to be any debate at all. The Budget may be placed on the table by the Member in charge who would say that we must accept it. After all it has to be accepted. We have no vote and no voice in the matter at all. Then what is the use of all these discussions? Place the Budget before the House and say it must be accepted. There ought not to be any discussion at all. And in lieu of that discussion we may be allowed a longer time between the introduction of the Financial Statement and the debate on it. At present we get about six or seven days to prepare our resolutions.

The Hon'ble MR. BEATSON BELL said :—

"Ten days."

The Hon'ble MR. RASUL said :—

"I may be very dull-headed, but 10 days are not enough. I tried my best, but I could not understand the intricacies of the figures within that time

Discussion of the Budget.

Mr. Rasul.

The Hon'ble MR. RASUL—*continued.*

Therefore if we are allowed say about 15 days, we will be able to digest the matter and draw up resolutions. And during the debate of those resolutions, we have some power. We cannot only speak on them, but can also vote. Of course our resolutions are lost because the European non-official members think that in season and out of season they must support the Government—it doesn't matter whether the resolutions are right or wrong. I therefore make the suggestion that we ought to be allowed longer time so that we may introduce many more resolutions. Your Lordship has got considerable experience of the House of Commons. I have also had some experience—not of course as a member. I was a full-fledged member of the British Empire as I used to command three Parliamentary votes while in England—two as an M. A. of the Oxford University and one as a lodger and I used to take a good deal of interest in English politics. Owing to those votes I was somebody there, although I am hardly anybody in my own country. However, your Lordship knows the value of power and the value of criticism and if one has power to vote on the Budget items, one feels there is something substantial in it. Without any power, however, there is nothing in it. It is a well-known fact that there is no love lost between the members of the Civil Service and the Indian educated community whom we have the honour to represent here. It is no use hiding this fact. It is a fact and Your Excellency will know it by experience. The power of criticism without any power of voting simply embitters the feelings of both the communities and makes things not what they ought to be. Therefore, I submit, your Lordship should take into consideration my humble suggestion with regard to the Budget debate, *i.e.*, there should be no debate at all, but there should be longer time given to us for the introduction of resolutions on the Revised Financial Statement.

Now I want to say a few words about the Finance Committee. I may be pardoned for using the word "farce", but I have been told by some of the members of the Finance Committee that the procedure there is a real farce. On the 13th December we elected the Finance Committee. They met on the 14th and again on the 24th and that was all. The procedure there is that the member in charge brings forward a cut and dried Financial Statement and says "Gentlemen, here is the Financial Statement. If anybody wants to object to it Government will be at a standstill." And every member said ditto and that was the deliberation of the Finance Committee. I myself was not a member of the Committee but I heard it from friends who were in the Committee. No wonder that people look upon such a Committee as an absolute farce. I hope Your Excellency will look into the matter.

I do not know whether I shall be in order in saying something about the Dacca residence of the Government. My Hon'ble friend the Maharajadhiraja Bahadur of Burdwan has already referred to it. I do not know whether Your Excellency has already decided on going to Dacca. Last year there was only one sitting of the Council at Dacca. This year I was thinking of bringing forward a resolution to have at least four or five sittings at Dacca instead of no sitting at all as was suggested by my Hon'ble friend the Maharajadhiraja Bahadur. I do not want to enter into the political aspect of the question at all. But unless we know beforehand Your Excellency's decision with regard to Dacca, I shall certainly bring forward a resolution to have more than one sitting at Dacca. The exodus to Darjeeling has also been referred to and I do not think I need say much with regard to it. I think the opinion is absolutely unanimous, whether European or Indian, that this must be put a stop to. If the High Court Judges can stay in Calcutta during the hot season and discharge their duties satisfactorily, I do not see any reason why members of Government cannot also stay down. The waste of so much money should be put a stop to at once and we should consider

Mr. Arun Chandra Singha.

The Hon'ble MR. RASUL—*concluded.*

later on as to what course we should follow in future regarding the Darjeeling exodus.

I regret I cannot conscientiously congratulate the Finance Member on the Budget. We find that the total estimated charges are in excess of the income by eleven lakhs, and twenty-one thousand rupees. Now the leading principle by which all civilized governments are guided is that in normal times the Government should be carried on at the smallest possible cost and in abnormal times there should be strict economy and rigorous retrenchment in all branches of administration. But instead of that what do we find in our budget? Last year we spent Rs. 1,12,27,000 on Police, but this year we have got no less than Rs. 1,34,38,000. No doubt the extra expenditure is partly due to the detenus and for rewards for secret service. Now as far as the secret service is concerned, I think Scotland Yard——."

[At this moment the bell rang as the time limit had expired. The Hon'ble Member resumed his seat.]

The Hon'ble MR. ARUN CHANDRA SINGHA said :—

"My Lord, I desire to make a few remarks on the Budget for the year 1917-18. The expenditure under the head of "Law and Justice" is given as Rs. 1,30,46,000, and the receipts under this head and the provincial share of the receipts under court-fee stamps deducting the proportionate expenditure chargeable to that head amount to about Rs. 1,04,56,000. Therefore the loss to the Province for the next year on the head of Law and Justice will be about Rs. 25,89,000. This works out approximately to a fifth of the total expenditure under this head. I have also examined the figures given in the Budget for all the years from 1912-13 to 1916-17 and I find that there has been a loss in every one of these years, the minimum being one-fifth and the maximum running up to one-third of the total expenditure. The expenditure under the head of Law and Justice ought to be fully covered by the receipts provided for meeting it and I suggest that the Government of India should be approached in this connection with a view to having the basis of apportionment of the revenue under the head of Stamps revised, so that there may be no deficit under the head of Law and Justice in the future. If the Government of India sanction this, the revenues set free from being required to meet the balance of the expenditure under Law and Justice can be employed in other ways for the benefit of the Province.

The expenditure under the head of Police is the largest under any single head in the Budget. The proportion to the total revenue of the Province excluding the opening balance was approximately 1 to 7 in 1912-13 and it has risen to 1 to 5 for the year under discussion, the ratio of the increase being 5 to 7. If the assignments by the Government of India are not taken into consideration, the ratio of the increase becomes much higher. My Lord, where shall we find the means to meet it if Police expenditure goes on to increase in this manner? A fifth of our revenues as the cost of the maintenance of law and order in the country is exceedingly large. Notwithstanding the continuous growth of expenditure, crime in the Province has not appreciably diminished, and it will not diminish to any great extent if the Government do not try to improve the impoverished economic condition of the country which is one of the chief underlying causes of crime. The political discontentment in the Province, my Lord, it would be unwise for the Government to mistake for disloyalty. Discontentment is a sign of health. Humanity is progressing and outgrowing its environments every moment of its existence. "Discontentment is the first step in the progress of civilisation of a nation, as of an individual,' so has said a great English thinker. The present state of things in the country, my Lord, calls

The Hon'ble MR. ARUN CHANDRA SINGHA—*concluded.*

for a more sympathetic attitude on the part of the Government towards the natural aspirations of the people and not for a more rigorous policing of the country. As a preventive measure, however, against crimes of organised violence I would suggest that exemptions and licences under the Arms Act be more freely allowed to men of position and wealth, and I would include amongst the licencees members of municipalities Local and District Boards and chowkidari punchayets.

The provisions for education and sanitation are not at all adequate to the needs of the Province. Female education does not receive the measure of support from the Government that it ought to. The cost of inspection under the head of Education has been a matter of frequent criticism in this Council. I again draw the attention of the Government to this and urge them to make inspection as little expensive as possible.

I am glad to find, my Lord, that in the Budget for the new year, provision has been made for the appointment of six additional district agricultural officers. I have personal experience of the good work some of these officers are doing. Agriculture is the staple industry of the country and it is right and proper that every effort should be made to improve it on modern scientific lines. I trust that at no distant date every district in this Presidency will have an agricultural officer and an experimental farm attached to it. I would suggest, my Lord, that the Agricultural Department should publish translations in the Bengali language of all its publications having any bearing on the improvement of agriculture for sale at popular prices to the raiyats.

My Lord, a large closing balance averaging about 3 crores of rupees is being carried over from year to year since 1913-14. The opening balance for the year under review is Rs. 3,26,79,000 and the closing balance is Rs. 3,15,58,000. This includes the minimum balance of Rs. 20,00,000, and earmarked allotments for special expenditures which have been kept in abeyance on account of the war. There is no likelihood of these earmarked allotments being regranted until the termination of the war. I therefore suggest that at least 2 crores of rupees be invested in the meantime in the new Indian War loan or in some other suitable manner and the interest realised be utilised in meeting the deficit of Rs. 11,21,000 in the budget for 1917-18."

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY said —

"My Lord, we the *mufassal* people are perhaps more vitally interested in Sanitation, Primary Education and Agriculture than in any other item of the Budget and if we have any cause to be disappointed with it, we also fully recognise that there are many more items which from the exigencies of the State require a greater amount of attention and the expenditure on them can hardly bear to be curtailed even at the risk of disappointing an important section of the subjects, we accordingly take consolation for the present and pray to God Almighty that the cause of all this financial stringency may be soon removed and that the unflinching efforts of our Allies may be crowned with the only form of success that our cause justly demands and that in this mighty struggle He may help us, the people of Bengal, to do our bit and uphold our fair fame as loyal subjects of our beloved King-Emperor by all possible sacrifices on our part.

My Lord, disappointing though the Budget is in many respects, I cannot but express my heart-felt gratitude for the liberal way in which the item of Agriculture has been treated. Our present Budget under this head is nearly 60 per cent. in excess of what had been actually spent in the year immediately preceding the war and the allotments to all the important sub-heads such a

Agricultural Experiments, Seed Stores, Farms and Co-operative Societies have been steadily increasing. But twelve lakh and twenty thousand is by no means an adequate sum to produce a marked effect in so big a province as ours and while hoping for better days when we will press our claim with the earnestness it deserves, now I would only like to put forward a suggestion before Your Excellency that the two important sub-heads, *viz.*, Cattle Breeding and Distribution of Agricultural Literature which have been totally neglected in the Budget may receive some consideration during the course of the year by way of some contribution from the sum which is at Your Excellency's disposal for petty grants. As for Primary Education, on which to a large extent depends the real progress of our rural population, though I see that very little can be done to improve the situation at present, yet I hope that some portion of the new Imperial Allotment will be devoted to the betterment of the prospects of the poor, ill-paid Primary School teachers who are entrusted with the difficult and onerous duties of educating our boys in the country. With regard to sanitation I only desire to point out that even what amount it has been possible to allot to this head may be distributed all over the province in an impartial and judicious manner. In this connection, I beg to draw Your Excellency's attention to the insanitary condition of the Rajshahi District, a full description of which has been given in the District Gazetteer just published. As I find that its learned author, Mr. O'Malley, whose kind and sympathetic action as Collector will be gratefully remembered by the people of Rajshahi, is now the Secretary in charge of this department, I am quite hopeful that our district will be benefited by his experience.

My Lord, I find with great pleasure that the Government are taking particular notice of our waterways and I hope that the Chief Engineer will give his usual sympathetic attention to the needs of the Rajshahi Division, where the great rivers like the Mahananda and the Atrai are in great danger of being silted up. I also desire to make a similar request to the Director of Public Instruction with regard to the vexing problem of Hostel Accommodation of the students at Rajshahi.

My Lord, I have finished the subjects in which as a rural landlord I am greatly interested. There is only one thing more and I shall finish. The Hon'ble Mr. Beatson Bell while presenting the Revised Financial Statement gave out that Settlement Operations involving an expenditure of Rs. 21,00,000 will be taken up this year in Bankura and Jessore. My Lord, Settlement Proceedings in permanently settled areas are a most unproductive work so far as the Government are concerned and even to the landlords and the raiyats their usefulness is very doubtful, nay almost negligible after a short while. Whatever importance might be attached to these proceedings by the Hon'ble Member opposite, these are certainly a kind of work which can wait. But this being to a certain extent an Imperial Expenditure, I am, perhaps, not in a position to discuss the subject here, so all that I now wish to do or is to submit to Your Excellency that since the landlords and the tenants shall have to pay the whole of this amount later on, it would have been showing a great consideration to their rights of citizenship if they had been consulted as to whether this is an opportune time for these operations. Bankura has of late suffered a great deal from floods and famines and I doubt very much if its people would like this extra burden thrown upon them at this time. Even from the point of view of the Government, this can hardly be said to be a suitable time for undertaking fresh operations; by postponing these till the end of the war not only would the Government have saved nearly a quarter of a crore of rupees but the people of the affected area would have been able to invest in the War Loan at least an equivalent sum, if not more. My Lord,

The Hon'ble KUMAR SHIB SHEKHARESWAR RAY :—*concluded.*

I do not desire to be pessimistic but I will not be surprised if the contribution to the War Loan by the distri ts which have undergone Settlement Operations, do not come up to the expectations. With these few observations, my Lord, before I resume my seat I beg to associate myself with the remarks made by my previous speakers in reference to our retiring Vice-President the Hon'ble Mr. Lyon. The people of North Bengal who are supposed to be rather backward, will ever gratefully remember the kind treatment which our wants and aspirations always received at his hands. We the zamindars also have special reason to be grateful to him. From his very early days he has been known as a true and sincere friend of the zamindars. It is largely due to his exertions that the veterinary department has come into existence and has now proved of such great help and usefulness to our agricultural population. We all sincerely feel his retirement from our midst. I pray to God to grant him a long and healthy life to fully enjoy his well-earned rest.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, the Hon'ble Mr. Rasul has forestalled me in his remarks about the futility of these Budget discussions, and I will not repeat what he said. I have often wondered, in rising to take part in these discussions year after year, if there is anything in the British Parliamentary procedure which furnishes a parallel to the meaningless formality which goes by the name of budget debates in an Indian Legislative Council To the outside public, the privilege of criticising, in the course of these debates, the broad aspects of Government policy is an important concession to the demands of educated Indians for an effective voice in shaping the policy of Administration and also in controlling the finances of the country. But to those who know, these budget debates seldom lead to anything better than mere waste of time. The practice of calling upon the non-official members of this Council to discuss an unchangeable and unalterable budget seems to be as much justifiable as that followed by a certain Deputy Magistrate who used to write out his judgments beforehand and then call upon the pleaders and mukhtears to argue the case. We are cordially invited to offer our criticisms, but we are told in the very same breadth that our discussions will have no more effect in changing one single digit in any figure in the Budget than the breeze of the numerous electric fans waving over our heads. I must say, my Lord, that the whole system is most humiliating to the non-official members of the Council, and these budget debates can only be regarded as the closing scene in an artistically contrived but meaningless show which only serves to bring into relief the hollowness of the position occupied by us in this Council. However, my Lord, half a loaf is always better than no loaf, and in this spirit and without any further complaint, I will proceed to make certain observations on the Budget.

I will begin, my Lord, with the budget allotments for expenditure on the police. I feel that it is a very delicate subject to deal with, because I know that there are officials who consider an adverse criticism of the Police Department as something amounting to blasphemy. There are those in high authority who think that the importance of the police force can hardly be overestimated, and that no expenditure is too high which is incurred on any schemes or projects having reference to the Police Department. I would only remind officials who hold this view that in spite of the real importance of this particular department, there is quite a possibility that this importance may be overestimated. I am reminded in this connection of a story which I heard of an old Nawab who, although overtaken by reverses of fortune, still continued to think that a highly paid and skilful cook was an indispensable necessity in his household. He was one of those ruined aristocrats, of whom we have a plenty all over India, living on the

Discussion of the Budget.

The Hon'ble MAULVI FAZL-UL-HAQ :—*continued.*

memories of vanished prosperity, but devoid of any real sense of proportion in adjusting his expenditure to his reduced income or the changed circumstances in which he happened to be placed. The story goes that he was allotted a political pension of about Rs. 100 a month for his maintenance, and his friends advised him to frame a budget in order to suit his expenditure to his reduced income. After a good deal of discussion, he accepted the suggestion, but in proceeding to frame the budget he insisted on having a cook on a salary of Rs. 50 a month. It was pointed out to him that Rs. 50 to spend on a cook would be out of all proportion to his other items of expenditure, and he was politely warned that if he were to spend this large amount on the pay of his cook, he may not have more than a few rupees to spend on his articles of food itself. But the old Nawab was unconvinced because, to his mind, a good and skilful cook was indispensable to any one laying any claim to nobility of birth or aristocracy. If I am pardoned, my Lord, I will say that the expenditure which Government propose to undertake on the Police Department bears almost the same proportion to the expenditure on other items of administrative necessity as the Rs. 50 set forth on the pay of the cook bore to the other items in the budget of the eccentric Nawab. There can be no doubt that the Police Department is one of the most important departments under the Government, but your Excellency will have to consider whether the allotment of over one crore and 34 lakhs is at all a reasonable expenditure to incur out of a total provincial expenditure of about 6½ crores. Roughly speaking, the Police Ddepartment will absorb 20 per cent of the total provincial expenditure and the rest of the 45 other departments, large and small, will have to be content with the balance of 80 per cent. Is this not paying too much for the cook ?

My Lord, the two principal functions which the police in any country can be called upon to perform are, the prevention and the detection of crime. I will not hesitate to say that as regards the detection of crime, the modern policeman in this country has been a most hopeless failure. I leave out of consideration the work done by the police in detecting what are called political crimes, for I can very well admit that in this particular matter the police officers are faced with a situation of extraordinary difficulty. I will even concede that in the detection of political crimes, the police officers have attained a remarkable measure of success in spite of uncommon and unprecedented obstacles. But in the work of detection regarding ordinary crime, the work of the police has been wholly unsatisfactory. I can hardly recall instances in which police officers have been able to trace unknown offenders by the exercise of what may be called a genuine and skilful detective ability In the good old days, when the department had not become saturated with Western ideas of efficiency, police officers with genuine detective ability were not rare. But a mistaken policy of indescriminate and lavish expenditure on every item connected with the department has had a most demoralising effect on the force, and police officers of the present day are generally as much obnoxious to the people as a set of spoilt children are to the other members of a household. It is true that the police are now better paid, better housed and better fed, but they are undoubtedly a much inferior set of public servants than their predecessors of even a generation ago. Even the highest authorities have admitted their inferiority as detective officers. In his report on the Police Administration in the Bengal Presidency for 1912, the Inspector-General of Police wrote as follows :—

'There is a general consensus of opinion that, with few exceptions, the investigating staff possesses little detective ability. This is true to a very great extent, but I am decidedly of the opinion that it exists in a

Discussion of the Budget.

Maulvi A. K. Fazl-ul-Haq.

The Hon'ble MAULVI FAZL-UL-HAQ :—*continued.*

greater degree than is generally admitted. But it requires to be developed and trained, and it cannot be denied that this important subject requires more attention. The period of training at the college is too limited to admit of a thorough training in detective work, in addition to the many other subjects in which instruction is given. Moreover, the training at the college is merely a foundation: it does not undertake to turn out a finished detective or a police officer with nothing to learn' (*vide* Report for 1912, page 8, paragraph 10). My Lord, a police officer with genuine detective ability is now-a-days as rare as the *dodo* in Madagascar, and might well set naturalists to think whether any extant specimen is not really the very last of his species.

Let us now turn to the other phase of their function, namely, the prevention of crime. Here again I may say that the police officers have been anything but a success. I am reminded of a story in which a schoolmaster is said to have asked a boy in what respect a policeman resembles the rainbow. "Please Sir," said the boy. "The answer is very simple : both make their appearance after the storm is over." My Lord, in spite of the growing increase on the police department, crime of all kinds shows a remarkable tendency to increase, leading to a corresponding increase of work in the various criminal courts of the country. I find from the Administration Report of 1912-13 that the total number of criminal cases brought to trial during the year was 12[illegible],132 which was in excess of those of the figures for 1911 by no less than 9,816. The report says "that under the Indian Penal Code the increase was chiefly in offences affecting the human body" (2155) (*vide* Administration Report for 1912-13, page 31, paragraph 102). During the year 1913-14 the total number of cases brought to trial was 133,095 which is in excess of the figures for previous year by 5,963. The report says "that under the Indian Penal Code the increase was chiefly in offences against property (2,316) (*vide* Administration Report for 1913-14, page 20, paragraph 99). During the year 1914-15 the total number of cases brought to trial was 137,625 which is in excess of those of the previous year by 4,530. The report says "That under the Indian Penal Code the increase was chiefly in offences against property (*vide* Administration Report for 1914-15, page 21, paragraph 90). It was only in 1915-16 that we were told that the total number of cases brought to trial was less than in the previous year by 940. The report, however, says "That under the Indian Penal Code the decrease was chiefly in offences affecting the human body (2,280) which shows that there must have been an increase of no less than 1,340 cases with regard to other classes of offences (*vide* Administration Report for 1915-16, page 20, paragraph 99).

We read, however, in the report "that serious crime of all kinds except rioting showed a considerable increase which was most marked in the case of offence against property. The cases of dacoity increased from 289 in 1914 to 653 in 1915 : burglary cases from 30,294 to 39,812, and theft cases from 17,730 to 21,552."

My Lord, it becomes therefore a matter for deep regret that although large sums have been spent and are being spent on the police force of the Presidency, the upward tendency of crime to increase has hardly received an effective check On the contrary it appears that with the increase in expenditure on the police force, there has been a corresponding increase in the number of offences and consequently the number of cases tried in the Criminal Courts of the Presidency. I do not therefore think I will be drawing a very violent inference from these facts when I say that the police have failed in this branch of their function, namely, the prevention of crime, just as much as they have failed in the other function, namely, the detection of crime.

Discussion of the Budget.

Maulvi A. K. Fazl-ul-Haq.

The Hon'ble MAULVI FAZL-UL-HAQ :—*continued.*

My Lord, in closing his remarks on the Police while introducing this head of expenditure in the amended draft financial statement, the Hon'ble Mr. Lyon speaks of the admirable work that has been done by that force for the maintenance of law and order in the Presidency since the re-partition in 1912. We have read with great interest the high encomiums which the Hon'ble Mr. Lyon has passed on the police and also the eloquent utterances in the Imperial Council of Sir Reginald Craddok wherein he has eulogised the police force all over India. I have no doubt that the police in Bengal, and for the matter of that all over India, deserve all the praise that is justly their due, but I think it is a political blunder to force us to endorse the highly coloured and brilliant certificates that are given to the police by high officials from time to time. The people, it must be admitted, have got the right to judge also, and they have got their own views about the police. It is universally known that the officers of the force below the rank of Deputy Superintendents are a class of public servants whose proneness to corrupt practices and abuse of power has passed into a proverb. As often as the public raise their voice against the police so often do the officials persist in applauding them and it is no wonder that in this tug of war between indiscriminate praise and indiscrimate abuse, both sets of partisans are apt to go to extremes. In this connection I am reminded of the story of a boy at school who was one day being whipped by his teacher for negligence in his studies and general incapacity as a student. 'I have never seen a more stupid boy than yourself, you idiot,' said the teacher, 'you deserve to be whipped and whipped for being such a stupid boy.' 'Please sir' retorted the boy, 'you are very much mistaken; my father says I am clever, my mother says I am clever, my brothers and sisters all say I am clever and what is more, I myself think I am clever; how can I accept your statement that I am stupid.' My Lord, such is very nearly the state of things as regards the divergent opinion of Government and the public on the men and officers of the Police Department. The public says that the police are corrupt and inefficient, but the highest officials say that they are good and efficient. Government resolutions say that they are good and efficient and what is more, the police officers themselves think that they are good and efficient; what does it matter then if the general public think that they are otherwise. My own impression is that it is as much incorrect to say that there is no blame which cannot be rightly attributed to the police as to maintain that the police as a body of public servants are so deserving, efficient and admirable that no praise for them and their work can ever be too high. As in almost all cases in which feeling is imported to colour a controversy, the truth lies between the two extremes of opinion. I say all this, because the Hon'ble Mr. Lyon sought to justify the abnormal expenditure on the police mainly on the ground of the unusually important and difficult duties performed by them. With the utmost deference to his opinion, I must say that I do not regard this as a sound point of view. There is nothing very extraordinary at all about the police and I therefore think that it is a great mistake to allow this particular department to absorb 20 per cent. of the total expenditure of the Presidency.

My Lord, so far with regard to the budget allotment for expenditure on the police. I regret that this unduly large expenditure on one particular department has necessitated the curtailment of expenditure on urgent measures of reform in various other departments of the public service. I notice with regret that there is no provision for an increase in the initial salary of that very deserving class of public servants, namely, the Munsiffs. Only the other day I brought up a resolution recommending an allotment for this purpose, but that resolution was defeated, although all the Indian non-official members present, except one, voted solidly for it. But though the

Mr. Eden.

The Hon'ble MAULVI FAZL-UL-HAQ :—*concluded.*

resolution has been defeated, I sincerely hope that your Excellency will take this matter into special consideration. There is a feeling abroad that members of the Judicial Service never receive the same amount of attention as their brethren of the Executive services. There is a story of a small boy who had lost his mother while very young and who received an indifferent treatment from all the members of the family. When once asked as to his age he is said to have replied, 'Please sir, I do not know if I was ever born ; all I remember is that I have only a step-mother.' My Lord, I do not believe that Government can ever make any invidious distinction between its different classes of officers, but the feeling that members of the Judicial Service receive a step-motherly treatment at the hands of Government cannot be conducive either to the best interests of the service itself or to those of the efficient administration of civil justice in this country.

My Lord, this is the fifth time I take part in these budget discussions, and in previous years I have devoted most of my time to the consideration of matters connected with the education of my own community. I have always used very strong language in urging the claims of my community, but up to now I find that I have almost spoken in vain. It was in 1913 that I first raised my voice as a protest against the policy of whittling down the grants in furtherance of schemes for the development of Muhammadan education in almost utter disregard of the claims of the community. I repeated my complaints year after year and I feel bound to say that it has been my lot to encounter nothing but disappointments throughout the term of my office in this Council. At the present moment, all recommendations in furtherance of Muhammadan education are generally vetoed on the ground that the financial conditions prevailing in consequence of the war require the exercise of the utmost economy in expenditure. Without discussing whether Muhammadan questions are not in some respects equally as important as questions of expenditure for the better housing of police constables and other kindred matters, I think I may respectfully ask Your Excellency to consider if this excuse could be held justifiable up to August 1914. There was then not only no war, but in reality a surfeit of available cash in the coffers of Government. It was nothing but dilatoriness that prevented Muhammadan questions from being handled with the promptitude and firmness that were necessary, and the result now is that the abnormal conditions brought about by the war have had the effect of postponing Muhammadan questions almost indefinitely. My Lord, the present presidency was reconstituted in April 1912 in pursuance of a grave wrong inflicted on an unsuspecting and loyal community.

At this moment the bell rang as the time-limit had expired.

The Hon'ble MAULVI FAZL-UL-HAQ said :—

"My Lord, may I have a few minutes to conclude."

The President said :—

"I am afraid I cannot allow that. The Hon'ble Member will understand that if I allowed it in his case, I should have to allow it in all cases. He will himself realize the impossibility of my doing that."

The Hon'ble Mr. E. B. EDEN said :—

"My Lord, I have only a very few remarks to make on the Budget which is now before the House.

The estimated deficit of Rs. 11,20,000 is not a very serious matter in provincial finance when we consider that the surpluses over and above the Estimates for the past two years have added the sum of Rs. 66 lakhs to the opening balance of the current year, and especially when we have been told

Discussion of the Budget.

Mr. Eden.

The Hon'ble Mr. E. B. EDEN :—*continued.*

that the current year's Estimates of Expenditure include several items of non-recurring expenditure amounting to Rs. 34,63,640.

Looking at the totals of the Estimated Receipts and Expenditure for the current year there does not appear to be any serious falling off in Revenue or any very serious increase in the total of Expenditure, and the position may be taken to be one of temporarily arrested progress due to the exigencies of the war and to a wise and cautious 'marking time' until the war is over.

I listened with great interest to the appeals made by Hon'ble Members at the discussion of the Revised Financial Statement, when they asked that provision might be made for various matters in which they were interested on behalf of their constituencies, and there was one resolution which appealed to me more than others, and that was when the Hon'ble Babu Ambika Charan Mozumdar moved that further provision should be made for dredging the Kumar River and referred to the necessity and the importance of improving the communications with the Bheel Route Canal.

In this connection, my Lord, I should like to take the opportunity to refer to the Grand Trunk Canal Project which is now under consideration and which has for its object the provision of a shorter and more easily navigable route for inland steamers and boats between Eastern Bengal and Calcutta than that at present in use *viâ* the Sundarbans. The carrying out of this scheme will have such a far-reaching effect on the greater usefulness of the rivers of Eastern Bengal that I trust nothing will be allowed to interfere with its consideration and its early adoption, so that no time may be lost in proceeding with it when finances are available.

In addition to the great advantages which this Grand Trunk Canal will confer on the districts and waterways of Eastern Bengal, I believe it will bring immense and hitherto scarcely realised advantages to this City of Calcutta.

It will not merely benefit the Shipping Companies and the Merchants of Calcutta who have dealings with Eastern Bengal and Assam, not merely the people on the new water-borne trade route and the far-off places served by it, but it will, I have reason to believe, improve the conditions of traffic on the River Hooghly by reducing the congestion in the highway for ocean-going ships. It will enlarge the area of Calcutta by reclaiming pestilent swamps, extending building sites for industrial and manufacturing areas well served by road, rail and water, and also extend indefinitely a new suburban area that the Improvement Trust and the Corporation might well bear in mind and utilise for the health and convenience of future generations who are destined to live in this City. I fervently hope that no time will be lost in the materialisation of such an admirable and beneficent project.

The outstanding feature of this Budget is the amounts which have been allotted for improving the Police organisation of the province and in providing for its necessities. This is a matter which has been too long deferred and is now imperatively necessary. I trust, when the war is over and finances are more elastic, that the full scheme for the reform and improvement of this very necessary department of good Government, in which a beginning has now been made, will then be proceeded with.

Many Hon'ble Members have objected to the expenditure on Police and Administration and have advocated that the money allotted to these objects should be spent on other objects, notably on Sanitation and Education.

Sanitation, my Lord, is a matter of extreme importance to the health of the community: irrigation and the provision of canals and waterways is of

Babu Akhil Chandra Datta.

The Hon'ble Mr. E. B. EDEN :—*concluded.*

similar importance to the prosperity of the community : education is absolutely necessary for the social development and progress of the community : but, before we can advance either of these highly necessary objects, we must secure Law and Order.

The Police are entrusted with the safety and the protection of the lives and property of the whole population of this province, both in Calcutta and in the Mufassal, and yet there is no doubt that the whole Force, particularly in the middle and lower grades, is woefully underpaid.

Indian Gentlemen and Indian Newspapers are continually finding fault with the Police. Cases of extortion and corruption are often brought to light, which to a large extent justify this criticism : but how is it possible for any reasonable man to expect that a Force composed of the class of men from which the rank and file are recruited, should be able to withstand the temptation of increasing their meagre incomes by illicit methods when undoubtedly there is often opportunity of doing so without much chance of detection ?

With these few remarks, I beg to commend the Budget to the acceptance of Hon'ble Members."

The Hon'ble BABU AKHIL CHANDRA DATTA said :—

My Lord, the discussion of a truly war budget cannot be very interesting or profitable. A policy of severe retrenchment has been laid down. At a time of such financial storm and stress the departmental budgets should be pruned to the utmost extent and strict economy observed in the general administration of the country. The question, therefore, naturally arises whether, judged by this test, the Budget under discussion is one upon which we can congratulate the Hon'ble Finance Member. Does it satisfy the test of rigid economy ? The only verdict which a careful and honest student of the Budget before us can pronounce is that it does not contain any traces of economy. My contention is that wasteful, if not reckless, extravagance is the one outstanding feature of the Budget. In order to substantiate my position it is necessary to enter into a minute and critical examination of the Budget.

But here I feel that we non-official members labour under a great disadvantage. The materials placed before us are not sufficient for obtaining a real insight into the details of the Budget. The departmental budgets form the real foundation of the Budget presented before the Council but for reasons which it is difficult to appreciate these departmental budgets are not vouchsafed to us Last year, my Lord, the Hon'ble the Maharaja Ranajit Sinha of Nashipur complained about this and an assurance was given in a most solemn manner by the Hon'ble Mr. Beatson Bell that "as soon as departmental budgets were printed, copies would be obtained on application by any Hon'ble Member." Acting on this assurance I asked for the departmental budgets for the last two years but was told in reply that they were not available. Thus we are kept in blissful ignorance of the essential details of the Budget. My Lord, we are shewn only the crust of the Budget—not the kernel of it : we are shown only the exterior of this monumental edifice, but we are not allowed to cross the threshold and even to have a peep into the vast and complex interior. In fact, my Lord, we are treated like so many outcastes and untouchables before an orthdox Hindu temple. To invite a discussion of the Budget and at the same time to withhold all informations from us is, to say the least, to treat us very unfairly. Having given us the right to move resolutions on the Budget and having invited us to criticise the same, the Government, I maintain and I claim, is in all fairness bound to give us all reasonable facilities for properly

Discussion of the Budget.

Babu Akhil Chandra Datta.

The Hon'ble BABU AKHIL CHANDRA DATTA—*continued.*

performing the very responsible duty thus entrusted to us. Is it fair, I ask, to call us to a very responsible office and at the same time to place such obstructions as are calculated to make it impossible for us to be useful either to the Government or to the people? Permit me, my Lord, to say that it is something like a hide and seek game, taking away by the left hand what is given by the right. Our right to discuss the Budget is a mere illusion. There is no reality about it. Our right to move resolutions on the Budget is a shadow without a substance. And to add insult to injury, will your Lordship believe that during the last year's budget debate a responsible member of the Government taunted the non-official members with the remark that they practised the art of oratory in the budget meeting?

Now to come back to my point.

In the absence of fuller materials we must content ourselves with a superficial study of the Budget. What do we find? There has been absolutely no retrenchment of cost of general administration in any department whatsoever. Will anybody lay his finger on any particular item and say that the normal expenditure has been curtailed? My Lord, you have announced your intention to cut down the luxuries of the Government House. We have, however, looked in vain for any such tendency in the Budget before us. So far as the current normal expenditure is concerned, there has been no reduction at all. On the contrary we find that the cost of administration has been raised by leaps and bounds. We have got an additional Legal Remembrancer at an additional cost of three-quarters of a lakh We have also been given an Additional Secretary and Under-Secretary in the Political and Appointment Department at a cost of considerably over half a lakh.

Economy, like charity, should have begun at the home of the Finance Minister and we might legitimately except some retrenchment in his own Department: but he seems to have nothing but supreme contempt for such copy-book maxims and, with a courage of conviction which defies not only public opinion but also the general principle enunciated by the Supreme Government, has created the post of an Additional Under-Secretary for the Financial Department. But you cannot charge the Finance Member with any thing like partiality to his own Department. For has he not made a larger grant for fees to pleaders in criminal cases in mufassal amounting to nearly half a lakh? The Bench and the Bar are parts of the same machinery and the former also must, therefore, come in for its own share of the overflowing surpluses and accordingly we find provision made in the Budget for one temporary District and Sessions Judge and two Subordinate Judges who will not cost us more than half a lakh. Several other new appointments have been created, but what is the good of multiplying instances? Having created numerous new posts, high and low, during the pendency of the war, it is only in the fitness of things that we should give new buildings to the new officers and their establishment. Accordingly the Budget provides the very modest sum of a quarter of a crore of rupees for new buildings. Out of this more than half is given to the Police. About 4½ lakhs is set apart for buildings in connection with the partition of Midnapore and Mymensingh, 3 lakhs devoted to the quarters for servants of the Medical College Hospital; Rs. 40,000 for quarters of servants of the Bethune College; Rs. 15,000 for quarters for the Subdivisional Officer of Gopalganj; another Rs. 15,000 for pony track from Darbhiajhora to the Panighil suspension bridge. We have also got over 2 lakhs for the construction of new steam launches for the River Police and over three-quarters of a lakh for the construction of new thana launches. But, my Lord, the above does not exhaust the list of new and additional expenditures proposed to be undertaken in the year 1917-18, I have enumerated

Discussion of the Budget.

Babu Akhil Chandra Datta.

The Hon'ble Babu Akhil Chandra Datta—*continued.*

only some of them. At pages 5—10 of the Financial Statement we find a list of the new schemes of a more or less petty nature. They relate mostly to the creation of new posts, increment of pay, new allowances, conveyance allowances, purchase of boats, etc. The non-recurring changes on account of these schemes amount to about 17 lakhs, and the recurring charges to over 2 lakhs. But these are, after all, humble and modest schemes compared with the more ambitious new schemes which it is proposed to undertake during 1917-18. These also relate mostly to the creation of new posts and entertainment of new officers and increment of pay. The non-recurring charges on account of these schemes amount to about 11 lakhs and the recurring charges to close upon 12 lakhs. Some of them may be urgent, but certainly most of them are not of any immediate and pressing urgency. The Empire is in the throes of a life and death struggle. Is it, my Lord, the psychological moment to increase expenditure of administration to such an enormous extent as I have indicated above? Is it the proper time to have more officers and more men in all departments? Is it the most opportune moment to invest money in bricks and mortars? New buildings will no doubt add to the comfort of our officers and men; surely we do not grudge this comfort. But the question arises:—When your Lordship is seriously contemplating to forego many of the ordinary luxuries of the Government House, is it graceful for our different departments to insist upon these new comforts at this critical moment? Should our officers be fiddling when the Empire is burning? Can't they wait till the termination of the war? Is it the rigid self-denial insisted upon during the period of storm and stress? No, my Lord, the Budget is not self-denying—it is selfish to a degree. It is not a war budget and I cannot conscientiously congratulate the Finance Minister upon the Budget presented by him.

I propose next to dwell upon another aspect of the Budget. Rightly or wrongly, the Budget provides for numerous new schemes as I have stated above. The question is—is there due correspondence between the different departments in which they are proposed to be introduced? Year before last in the provincial expenditure, the main savings that could be effected were under education, sanitation and police. Last year it was found impossible to provide for the re-grant of unexpected balances of Imperial grants for education, sanitation and police. So the three departments of education, sanitation and police were accorded the same treatment during the last two years. But a remarkable departure has been made this year. Education and sanitation remain in the cold shade of neglect, but there has been an enormous increase in the police charges. The schedule of new schemes costing over Rs. 5,000 in any one year makes a most startling disclosure. Out of the total non-recurring charge of close upon 11 lakhs, over 8½ lakhs are appropriated by the numerous police projects, whereas education, sanitation and medical departments have received not a *cowrie*. These non-recurring charges are, however, only the thin end of the wedge, inasmuch as the recurring charges involved in these new schemes are close upon one lakh more than the non-recurring. Out of this recurring charge not a *cowrie* goes to sanitation; less than half a lakh is given to education; more than 10 lakhs being appropriated by the police. It should be remembered that this is over and above the grant of 12 lakhs and 65 thousand for new police buildings. Add to this the minor police schemes enumerated at pages 6—9 of the Financial Statement, the non-recurring charges of which amount to close upon one lakh and recurring charges to over three-quarters of a lakh. The question, my Lord, is, is this a fair allotment? My complaint is that whatever money there is at the disposal of the Government should have been proportionately distributed between education, sanitation, police and other progressive departments.

Discussion of the Budget.

Babu Akhil Chandra Datta.

The Hon'ble BABU AKHIL CHANDRA DATTA—*continued.*

My Lord, the Budget should, as I said at an earlier stage of the Budget discussion, reflect the popular wants and wishes. I do not think there is anybody in this House, official or non-official, who will question this fundamental doctrine Let us see, my Lord, if the Budget under discussion satisfies this essential test. Now, what is the position? There were as many as .4* resolutions moved by the non-official Indian members asking not for money exceeding the estimate of expenditure but for the transfer of some money from one head to another. But excepting one resolution all the rest were opposed by the official benches. Some of these resolutions had the unanimous support of all the non-official Indian members. Even the latter did not receive better consideration at the hands of the Government. It is obvious, my Lord, that the Budget would have been considerably and substantially different if the tax-payers of this vast province had any control over their own money and had any voice in the shaping of the Budget. The representatives of the people were unanimous in their demand for the transfer of some money to education and sanitation from some other heads, preferably the head under Police. If we had any real and substantial votes to give, if the authorities responsible directly or indirectly for the Budget had any reason to care for the approval and support of the people, may I ask, my Lord, if the wishes and feelings of the popular representatives would be so contemptuously disregarded? Why on earth should their wishes and views be so summarily brushed aside? Did they—I ask in all seriousness,—did they, my Lord, propose anything of a revolutionary character? Did they propose any drastic and radical change in the constitution or method of the Government? Did they propose anything which was, as a matter of principle, essentially unacceptable to the Government? If not, why should their resolutions be received with such contumely? The Hon'ble Finance Member and his associates may or may not see eye to eye with us in these matters, but is that a sufficient justification for opposing tooth and nail all these resolutions—even those relating to minor details and involving small costs? One or two or more of the non-official members may not be able to see things in their true perspective and may make suggestions and recommendations which my Hon'ble colleagues on the other side of the House sincerely think will not conduce to the real interest of the people—nay I shall concede for 'arguments' sake' that some of the non-official members may be perverse in their judgments. But can it be said very gracefully and reasonably that all the popular representatives of different shades of opinion have entered into a great conspiracy against the Financial administration and have taken a vow to bring up resolutions which will not promote the real interests of the people? Will any body say that the bureaucracy know more about the country and its people, their needs and requirements, their wants and wishes than the non-official members whose weal and woe are bound up indissolubly with those of the people? Is it suggested that when we plead the cause of the people we merely shed crocodile tears? Are we mere birds of passage in this country? Have we no abiding interest in the people and their welfare? My Lord, it is high time that public opinion should be consulted in the matter of the Budget and in all important matters. It is high time that greater respect should be shewn to the views of the non-official members. Permit me, my Lord, to make the following quotation from the reply of Mr. Chamberlain to the Lancashire Deputation :—

'India is changing rapidly. Lord Lansdowne spoke of the rapidity of the changes 20 years ago. They have been infinitely greater in the last 20 years. We have called Indians to our Councils in increasing numbers. They will take their share and play their part in the Government of India, but if you call them into your Councils, if you invite them to take the part for

which they are qualified and to which they are entitled in the government and development of their country you must have patience with their views even when you think they are mistaken. You must deal tenderly with the matters in which they are vitally interested and you must be willing to listen and when you can to grant their wishes.'

At the commencement of Your Excellency's rule, my Lord, I shall take the liberty of saying this on behalf of the 10 millions of people whom Providence has committe l to your charge :—

'Have patience with our views even when your Lordship thinks we are mistaken ; deal tenderly with those matters in which we are vitally interested ; be willing to listen to us and to grant our wishes if they are not of a revolutionary character ; draw up a programme of reforms and improvements, it may be a moderate and modest programme, but have by all means a cut-and-dried programme ; reform our council ; spread education ; make primary education free and compulsory so that the homes of His Majesty's Bengali subjects may be brightened and their labour sweetened ; make our towns and villages sanitary ; give us more and more share in the government and development of our country ; so that when at the end of five years your Lordship will lay down the reins you may be able to reflect with satisfaction within yourself.

'My programme is carried through ; my duty is done ; I am leaving Bengal and her people more advanced and more contented than I found them.'"

The Hon'ble MR. M. ASHRAF ALI KHAN CHAUDHURI said :—

" My Lord, the various aspects of the Budget have been discussed by other Hon'ble Members at great length, and I do not wish at this stage to lengthen discussion by needless reiteration. But I shall bring forward the question of education in so far as it interests the Muhammadans.

Nearly a fortnight ago I moved a resolution in the Council for the establishment of a Muhammadan Arts College in Calcutta. I did so because of a wide spread feeling amongst Muhammadans of the Province that something ought to be done for the advancement of Muhammadan education if the Muhammadans wish to take their proper place in this country. Muhammadans as a rule have suffered greatly for want of proper training and e lucation, and whilst they have been making tremendous efforts to improve their lot, others who are better fitted than they have made gigantic strides in different directions. We must by some means or other make up the ground that we have lost, may be by our own faults or may be by the fault of others. But it is very doubtful that we can achieve the object without the sympathy and support of the Government.

Situated as the people are in this country in relation to the Government, it is impossible for us to take the initiative in any direction without the help of the Government. It is for this reason that we, who represent the people and specially those like myself who represent the Muhammadans, feel it our duty to bring forward before the Government these specific proposals for taking steps for the benefit of our community. It is a matter for great regret that in spite of our repeated attempts and insistent demands we have not up till now succeeded in persuading the Government in taking our view of the situation or in adopting our solutions of the problem.

Disappointed as we are in many respects we cannot afford to keep quiet or to allow ourselves to adopt a quiescent attitude in matters which vitally

The Hon'ble MR. M. ASHRAF ALI KHAN CHAUDHURI—*continued*

affect our interests. We must, if we are right, go on insisting till our demands are satisfied. The problem of education, my Lord, is to-day the biggest problem in India. Much will depend on how we face the problem. It is no doubt the duty of everyone to suggest the means of improvement, if there are any. But I repeat my assertion that the initiative must come from the Government. I fail to see any indication that the Government have tackled the problem seriously. We have had the announcement lately from His Excellency the Viceroy in his Convocation speech in Calcutta that he proposes to establish a commission to inquire into the various phases of the educational system of this country. We appreciate this timely intervention of the Viceroy in such an important matter; and we do hope that some good will come out of this step. But you will pardon us, my Lord, if we do not appear to be as enthusiastic in supporting this measure as the Government would like us to be. It may be that the circumstances of the case require a thorough and searching investigation into the whole system of education in this country. But we cannot help having doubts about its utility in view of the fact that several commissions which have reported on various branches of administration in this country have not resulted so far in a definite change in the policy or administration of the Government. It is for this reason that we thought it desirable to submit our own plans for the acceptance of the Government, although we knew that very shortly a commission was going to be appointed.

I do not see any reason my Lord, why the appointment of a commission should stand in the way of the establishment of a Muhammadan college in Calcutta. As far as I know it is not in the terms of reference of that commission to discuss or decide whether sectarian colleges should or should not be established in any province. All that the commission would be supposed to deliberate on will be to consider the facts that prevail in, and principles that guide, the educational system in this country independent of the question of the establishment of sectarian colleges or universities. They will not be concerned with colleges and endowments so much as with the methods of teaching and the principle and policy of administration through Government control on the one hand and the University supervision on the other.

If the Government had seriously thought of establishing a Muhammadan college in Calcutta they would have found means for doing so in spite of the fact that they had to retrench in many departments on account of the war. We feel heartily grieved for the indifference that the Government has shown in this matter, and we shall take the earliest opportunity again to ventilate our grievances in order to persuade the Government to take this necessary step.

Next in importance to education comes the crying evil of the insanitary conditions prevailing in this province. We are surprised to find, my Lord, that out of a budget of over six crores of rupees only a sum of two lakhs and-a-half is earmarked for expenditure under the head "Sanitation." Out of this Rs. 50,000 again will be spent on Dr. Bentley's scheme for flooding malarial areas. With all due deference to Your Excellency's government I must submit that in a province like Bengal the expenditure of only 2 lakhs of rupees for sanitation is rank injustice to the people. We, who are pained and shocked at the slaughter of millions in Europe to-day, do bestow but little attention on the devastating influence of the terrible scourges that kill the poor inhabitants of the soil by the thousands and hundred of thousands. In this matter the Government have a responsibility which is not a mean one. Education and sanitation should be the first

charges on the revenue of the province. For a Government to spend the contemptible sum of 2 lakhs of rupees for sanitation is clearly a dereliction of duty on the part of the Government. My Lord, three-fourths of the population of this country depend for their living on agricultural pursuits. It is the imperative duty of the Government to look to their welfare. One of the ways in which the British Government has justified itself is that they have claimed that they have been the friend of the poor. For what the Government have done for the poorer sections of the community the Government may justly be proud. But I venture to submit that in the circumstances in which the Government officials are placed nowadays there cannot be that close touch and that human sympathy between the rulers and the ruled, which is necessary for the proper understanding of the feelings and wants of the people. A vast proportion of the people are an inarticulate mass who have not the power to appeal or to respond. This has been one of the chief reasons why the Government sometimes have undertaken or allowed others to undertake thoughtless and injurious schemes which have adversely affected the interests of the agricultural population. Often it has been found that the alignment of a railway line has been placed in such a way or bridges built which by their direct or indirect effect on the soil or produce of the neighbouring places have ruined the poor cultivators. The Sara-Serajganj line is one instance that I can readily point to. Is it not desirable in the interests of the agricultural population that some means should be found to allow them to represent their views in this Council? It has been the principle in this country to allow the people to represent their separate interests in the legislative assembly. We have for instance representatives of zamindars and others. In all fairness poor cultivators can demand that they should have their representatives as well. We hope that Your Excellency will suggest to the Imperial Government some measure for removing the great-felt want. I hope I will not be misunderstood, and I do not wish to bring discredit on any member of this Council, when I say that there are not many in the Legislative Council who really understand or are thoroughly conversant with the needs and requirements of the agricultural people. They have their special interests which require special treatment. The majority of the educated people of this country come from the wealthier and the middle classes.

Although they have a natural desire to do their utmost for the welfare of their country they often evince a half-hearted sympathy for proposals which, although very important from the point of view of the cultivating class, are not directly concerned with the special interests which they represent. But if they were called upon to represent, specially the separate interests of the agricultural people, they would feel it their duty to acquaint themselves with the circumstances of these people and work for the betterment of their conditions in the Council and outside it."

The Hon'ble DR. NILRATAN SARKAR said :—

"My Lord, I am grateful for the grant of Rs. 3,50,000 to the Belgatchia Medical College. I am also grateful for the provision of Rs. 4,96,000 for medical education in other medical schools and colleges in Calcutta ; but I feel that no budget for medical education will be complete without a provision for training village practitioners in Bengal. I may draw the attention of this House to a very important resolution which was accepted last year by the Government of India and which was moved by my freind Dr. Banerjea in the Imperial Legislative Council in this connection. The proposal, however, I am sorry to say, had not met with the support here that it deserved. We have also to remember that we require 43,000 practitioners in Bengal at the rate of one practitioner for a thousand souls. In England, there are 30,000

Discussion of the Budget.

Dr. Nilratan Sarkar.

The Hon'ble DR. NILRATAN SARKAR—*continued.*

practitioners for 30 millions of men. We have 45 millions of men and women here, and if we take up the responsibility for medical aid we require 43,000 more practitioners, considering that the Surgeon-General has got on his list 2,000 at the present day. He proposes to make up the deficiency by admitting 50 additional students to each of the existing medical colleges at Dacca and Sealdah. It is purely a question of arithmetic and one can easily calculate the time that it will take to fill up the gap. On the other hand, the scheme involved in Dr. Banerjea's proposal is quite a simple one. It suggests that some medical schools of a modest standard should be started in connection with some existing hospitals, not necessarily in Calcutta, but in some of the mufassal towns, for instance, Dacca, Chittagong and Rajshahi. The staff being recruited from amongst local practitioners, such schools can give not only sound practical education within narrow limits, but a thorough training to a large number of village practitioners within a course of three years. To me the scheme appears to be sound in principle, feasible in practice, highly economical and necessary and quite suited to the conditions of Bengal. Against this scheme, however, the Government scheme is to train a small number of highly qualified medical men in highly expensive medical schools through a four or five years' course and through the medium of the English language which has recently been adopted on the recommendation of the Council of Medical Registration. Well, the objections raised against our scheme are chiefly three. One is that medical education cannot be conducted through the medium of the vernacular language. My answer to that is quite simple; for the last sixty years we have been training hundreds and hundreds of students through the medium of the vernacular language. I am a Bengali and I know well the capacity of the Bengali language. I have trained hundreds of men through the medium of the Bengali language. I do not know why we should invoke the aid of the English language for giving medical training in Bengal. I must say, however, that the Bengali language is making very great and rapid progress. Are we to believe that with their marvellous progress in other departments, it is degenerating or getting torpid in one direction, *i.e.*, of imparting medical knowledge through its medium? I cannot explain the riddle. Whatever that may be, I must say that a great blow has been dealt to the growth of the vernacular medical literature by the action of the Council of Medical Registration.

Another argument which has often been reiterated is this: that the Medical Council of Great Britain do not accept for registration a man who has not passed through a four or five years' course in any medical institution; and that they would naturally expect training through the medium of the English language. May I ask whether it is possible for the Government to flood the country with 43,000 medical men with five years' training after the Matriculation examination even in the course of half a century? If not, what arrangement is proposed to supply the thousands of villagers who are suffering from cholera and dysentery. The Council of Medical Registration of England should not supply medical aid; they may refuse registration, but are the thousands of quacks, who are now occupying the field, registered? The first necessity is to save human life and to relieve human suffering, and what arrangement is proposed to meet these, before you can prepare the 43,000 medical men through the regular course of five years. The fact is that this country must have a very large supply of moderately qualified medical men as soon as possible. I may be permitted here to quote a few words of Col. Hendley, once Inspector-General of Civil Hospitals, Bengal. He said in 1899 :—

'Unfortunately it is impossible to have a graduate of a University or a Licentiate in Medicine and Surgery in every village. The country is too poor,

Discussion of the Budget.

Dr. Nilratan Sarkar.

The Hon'ble Dr. Nilratan Sarkar—*continued.*

but we may have Civil Hospital Assistants, and for this reason and in order to avoid malpractice and scandal, we should see that they are well trained, and likely to become, though it may be within narrow limits, thoroughly reliable men who could be trained to treat all ordinary cases or cases of disease or accidents.'

My Lord, this is not the first time that the lower medical education was proposed to be raised and restricted. On former occasions the Government had to refuse sanction to the raising of the initial qualifications on the ground, as they put it, that as the vernacular medical schools supplied cheap rural practitioners, a higher initial standard might result in the supply of good rural practitioners or might induce to raise the scale of fees as they will have more practice among wealthy classes and less among the poor, who in that case would be left to the unlicensed practitioner, for which Dr. Banerjea's proposal seeks to provide. In fact, the Government have always been ready to do anything that will make their services costly to the villagers with an average income of Rs. 27 and, according to the late Mr. Gokhale, Rs. 20 a year.

The third argument is that when a large number of medical men with English qualifications is available, why go in for a lower standard. My answer is that if it is possible to train a large number of persons with high English qualifications, and if money be forthcoming for that purpose, these men will naturally require high remuneration for their services. We must also remember the fact that we do not prepare these men for the towns, but for the villages, where remuneration is often paid in kind and not even in money. So, the ideal village practitioner must always identify himself completely with the villager; otherwise, he has no place there at all. Highly trained men—trained according to the Hon'ble Surgeon-General's new scheme—may be very good men as University graduates, but they are too high for the villagers, who cannot afford to pay for their services. If that were not so, I would have been the first person to advocate that standard as the lowest and minimum standard for medical education in Bengal. But the circumstances of Bengal are quite different. I have already said that on account of the inadequacy in number and also on account of the high standard insisted upon the Surgeon-General's scheme is sure to be a failure so far as the thousands of disease-stricken indigent villagers are concerned. But there is a larger question involved in this matter, and that is a question of giving employment to a large number of unemployed middle class youths. This question, I believe, has been emphasized by some of the District Officers, and the idea is that many of those that are unemployed in villages might find suitable employment in medical practice after a moderate course. Such moderate medical education, I submit, must be imparted through the medium of the vernacular language in schools of moderate standards, and not in highly expensive schools in Calcutta or Dacca. If the proposal involved in Dr. Banerjea's scheme be accepted, it will not only facilitate the supply of medical aid to the poor villagers in the distant mufassal, but also go a long way to solve one of the most important problems of Bengal. I believe the Government will not grudge a few thousand rupees at least to perform an experiment in this connection.

Under head Scientific and Miscellaneous there are two items of paramount importance to the Presidency, viz., the two entries of expenditures, Director of Industries Rs. 30,000 and the lump grant of Rs. 50,000. These with the addition to another sum of Rs. 71,000 for fisheries make all that is allotted to industries here, whereas the allotment for this purpose in a sister presidency (Madras) is 9·25 lakhs. This is particularly disheartening when we remember the feverish activity with which most people are now

Discussion of the Budget.

Dr. Abdulla-al-Ma'mun Suhrawardy.

The Hon'ble DR. NILRATAN SARKAR—*concluded.*

pushing their industries. I do not say that Government alone can do all that is necessary in this connection. But I believe that Bengal can do much more than what is doing now if she gets the advantage of proper guidance. In these days it has become an impossibility to develop industries without the help of Government. We look with admiration to what the Governments of Madras and the United Provinces are doing in this connection. While each of these provinces has got departments that organise emporiums, museums, bureaus, chemical laboratories, demonstration factories and render help to industries in various other ways, we here have only an unsanctioned proposal for the appointment of a Director of unknown competence and sympathies. And the allotment of Rs. 30,000 for the Director and Rs. 32,000 out of the Rs. 50,0 0 will very likely remain unutilised. We are told that everything in this connection must stand still, pending the report of the Industrial Commission. But the Commission is working for Madras and the United Provinces also and how are these Governments spending money in this connection.

I may be permitted to allude to the activities of the department in these provinces.

In the United Provinces glass, perfumes, bangles, leather, paper pulp, dyes, hosiery, matches, cotton spinning, chemical, metal wares, alcohol, furniture industries were vigorously pushed by the Department. Some of these like glass bangles industry and the indigenous dye industry were able to displace and replace the competing foreign industries to a great extent. In Madras, the department has solved the problem of lime-brick making, pencil making, oil fuel furnace for glass making, paper pulp making, oilpressing and soap manufacture.

Besides in the United Provinces there are eight technical schools that are controlled by Government and besides these seven district weaving schools and peripatetic weaving schools that receive financial aid from Government. In Madras apart from the Government Technical Institute there were 37 Industrial Institutions. There is no question that many of the industries in Madras and the United Provinces have received an impetus from the Industrial Boards. We have some industries struggling here in Bengal."

The Hon'ble DR. ABDULLA-AL-MA'MŪN SUHRAWARDY said :—

"My Lord, for some time past education has occupied the first and foremost place in the thoughts of Moslem leaders anxious for the moral and material regeneration of their community. It has been the favourite theme of discussion of the Mussalman members of the Council in the past. Two projects have been, with reiterated insistence, pressed upon the attention of Government—(*a*) the Muhammadan Arts College and (*b*) extended hostel accommodation for Moslem students in Calcutta.

Although I am aware of the fact that the project for the establishment of a Muhammadan Arts College has received the sympathy and support of Government, or rather the imprimatur of its sanction, I would be failing in my duty if I do not give frank expression to my opinion on the subject I must confess that I am not in love with the scheme which is the pet project of some of the Moslem members and with which even the Director of Public Instruction seems to be fascinated.

(1) In the first place I am strongly opposed to the multiplication of colleges and schools in the heart of a congested town like Calcutta. I do not see any special advantage in encouraging students to leave the calmer and serener atmosphere of the mufassal and flock to Calcutta, where the cost

The Hon'ble DR. ABDULLA-AL-MA'MŪN SUHRAWARDY—*continued.*

of living and education is twice as high as in the mufassal, and where the snares and pitfalls for the young and the inexperienced are innumerable.

(2) Secondly, though a staunch believer in the principle of communal representation to which I owe my presence here to-day, I am not a believer in it in matters of education in the sense that we should have separate educational institutions of our own. The disadvantages of purely denominational institutions are too obvious to require enumeration. Colleges and Schools are the training grounds from which we emerge into the battlefields of life, where no protection, no preferential treatment, no assistance by the State can avail against strong and powerful adversaries. Students of denominational institutions, unaccustomed to strenuous efforts to overcome strong competitors of a different nationality, will have to face their adversaries for the first time on entering the battle of life and it would be a wonder of wonders if they escape defeat and annihilation from their opponents.

Moreover, the cause of Moslem education in the past has not suffered for want of a denominational college. The most distinguished Indian Moslem graduates, from the Right Hon'ble Syed Ameer Ali to the Hon'ble Nawab Sir Syed Shams-ul-Huda, are the product of mixed colleges. Indeed, the honour of claiming the former as one of its pupils belongs to a college in the mufassal.

The Muhammadan Arts College is a fascinating ideal, but when disillusionment follows, I would not be surprised if those, who are anxious to-day to stand sponsors at its birth, do not become its most violent critics and hurl denunciations at the authors of the scheme.

In these days of financial stress when the necessaries of yesterday are fast becoming the luxuries of to-day, in the scheme of development and stimulation of the intellectual life of the Moslems, the Muhammadan Arts College would be the luxury of luxuries.

The cause of Moslem education can be better advanced by affording Moslem students such facilities as would enable them to avail themselves to the fullest extent of the advantages of Western education in the existing arts and professional colleges, the doors of which are being gradually closed on them. A more liberal award of stipends and scholarships to students in the various stages of education—primary, secondary, collegiate, post-graduate—tenable in all the educational institutions, may yield to the community a harvest of men of which the nation may well be proud. The best intellects of the race fade and wither away before the chill blast of poverty and penury—'the rathe primroses that forsaken die neglected in the shade.' With the aid of stipends and scholarships deserving young men may pursue their studies of Law, Science, Medicine, Engineering and Commerce and qualify themselves to follow a profession and a career.

In the existing Arts and professional colleges, however, 50 per cent. of the total number of places should be reserved for Moslems to be thrown open to non-Moslems after a certain date if Moslems be not forthcoming.

Obsessed with the one idea of the Arts College, its advocates have lost sight of the importance of scientific, technical and professional education.

'I do not seek reward neither in this world nor in the next. But I repeat every moment whether in weal or woe, O Lord! bestow on Sanai such pre-eminence in knowledge and science as to excite envy even in the soul of Avicenna.'

My Lord, these beautiful lines voice the noble aspirations and lofty ideals of Moslem scholars of bygone days—the palmy days of Islam when the splendours of Cordova, Granada, and Bagdad attracted students from the four corners of the globe and illumined the darkness which lay around. Those days are gone for ever and the noble ideal of pursuit of knowledge for the sake of knowledge is unsuited to our times. We live in a practical age, and we demand a tangible reward and a substantial return for our labours. In this commercial age, my Lord, I need hardly tell Your Excellency that Moslem education must move with the times. Technical education is the great problem of the day. While the Hindu community is striving for the economic and industrial development of the country, the Muhammadans are still sleeping the sleep of ages. Their deep slumber is only broken by the fitful dream of the Arts College.

If the Muhammadan College comes into existence I should like it to be located, not in Wellesley Square but somewhere in the suburbs, far from 'the madding crowd's ignoble strife,' in some healthy, quiet, sequestered locality removed from the baneful influences of the metropolis which often go to blast many a brilliant career and bring death and sorrow to many a peaceful home.

I invite the attention of Government to the sovereign importance of encouragement of female education amongst Muslims. The Prophet has expressly declared the acquisition of knowledge by Muslims, male and female, to be a sacred duty.

The intellectual renaissance and regeneration of our race can never be achieved if we do not lift up the veil of ignorance which separates the sacred precincts of the zenana from the world of light.

The extension of hostel accommodation for Moslems is a commendable project and the claims of a community, which represents 52·3 per cent. of the total population, on the amount set apart for hostel accommodations are obvious.

In the head 'Annual stipends to holders of literary titles', I see the recognition by Government of the well-known belief in India that the goddess of learning and goddess of wealth cannot dwell together. I wish to see an extension of this principle and invite the attention of Government to the desirability of encouraging literary pursuits by the award of a number of literary pensions to Hindu and Muslim scholars.

From literary to political pensions is a natural transition and my thoughts travel to the descendants of Tippu Sultan, the sons and grandsons of his late Majesty Wajid Ali Shah and those of the Nawab Nazims of Bengal. I do not know whether their pensions come from the Imperial or Provincial Revenue. But I do know that they dwell in our midst and within our Presidency and the pensions of some of them have whittled down to the barest of pittance. The cost of living has enormously increased since the outbreak of war, but there is no corresponding increase in the pensions. I do not forget that this is hardly the time for increase of expenditure, but I also do not forget that the war, whilst it calls for economy in certain directions, necessitates, on political grounds, an increase of expenditure in others. The claims of the house of Nizamat on the special consideration of Government are matters of history.

Discussion of the Budget.

Dr. Abdulla-al-Ma'mūn Suhrawardy.

The Hon'ble DR. ABDULLA-AL-MA'MŪN SUHRAWARDY—*continued.*

My Lord, it is sad to contemplate the fortunes of the scions of the royal houses of Murshidabad, Mysore and Oudh in these evil days, and I hope and trust that the broad statesmanship of a farsighted and large-hearted Government would not permit, even in these days of democracy and revolutionary ideas, the maelstrom of adverse circumstances to sweep away the pillars of Muslim aristrocracy, and engulf in utter ruin the bulwarks of loyalty to the British Crown in Bengal.

As the Philological Secretary of the Asiatic Society of Bengal, I note with satisfaction that the revised estimate under head 'Donations to Scientific Societies' includes a larger grant to the Asiatic Society of Bengal. I know that a monthly grant of Rs. 300 is made by Government for a Sanskrit scholar, connected with our Society, for the promotion of Sanskrit learning. A similar grant to the Asiatic Society for the encouragement of research into the domain of Islamic literature, antiquities and history by some distinguished Mussalman scholar would be welcomed by the community.

There is one other topic to which I would invite Your Excellency's attention—the paramount importance of the publication by Government of translations of authentic works of Muslim Law That distinguished jurist and patron of learning, Sir Asutosh Mookerjee, at the Annual Meeting of the Asiatic Society, Bengal (February 1915), presided over by His Excellency Lord Carmichael, delivered an eloquent address, in which he made out a strong case for the encouragement by Government of the study of Islamic legal literature. He pointed out how, dazzled by the brilliant work accomplished in the domain of Muslim Law by distinguished scholars of France, Germany and Sweden, the Right Hon'ble Syed Ameer Ali expressed the hope that 'the British Indian Government in the midst of its executive and administrative pre-occupations may find time to take into consideration that most important question, the administration of the Mussalman Law, which has supplied the Muhammadans of India with a substantial cause of grievance, together with the expediency of following the example of the French Government in Algeria and providing the Indian judiciary with authorized translations of the *Fatawa Alamgiri*, the *Raddul Muhtar*, the *Mabsut* and other works of like standing.' He further emphasised the paramount duty of the Asiatic Society to take the lead in the initiation and accomplishment of this great undertaking, to enlist the sympathy and co-operation of scholars and to secure the necessary financial assistance from an enlightened Government. The keen interest evinced by the eminent Brahmin did not end with his speech. He has at last secured for the University an endowment of Rs. 25,000, made at his instance by the Salehji Brothers, for the publication of Texts and translations of authentic works on Muslim Law. A grant from Government to the Asiatic Society, Bengal, or the University would supplement the noble efforts of Sir Asutosh Mookerjee and further advance the cause of Muslim legal literature.

My Lord, the shadows of war still darken the West. The world-wide conflict still continues to tax to the utmost the resources of the Empire and calls for the greatest sacrifice from its peoples. It is obvious, therefore, as indicated by Your Excellency the other day, that the realisation of our hopes and aspirations of administrative progress and reforms must be postponed till the successful termination of the war—the triumph of civilisation, justice and humanity over the forces of barbarism, lawlessness and crime. In these days of storm and stress, when important and necessary measures cannot be carried out for lack of funds, fain would I have followed the golden rule of silence. But I am anxious to place my views before the Council when Your Excellency has still the benefit of the valuable advice, guidance and assistance of a distinguished lawyer, far-sighted statesman and accomplished scholar, thoroughly

conversant with our needs and requirements, our hopes and aspirations, and our virtues and failings.

I leave it to others to lament over shattered dreams, unrealised ideals, blasted hopes, unfulfilled aspirations, broken pledges and unredeemed promises. Impressed by the striking difference between the past and the present I pause for a moment to determine the cause of the remarkable change which has recently taken place in the attitude of Government towards Moslem questions.

As the only Mussalman member in this Council who has the unique privilege of having been in the Councils of four successive rulers of Bengal—in the Council of the last of the Lieutenant-Governors and in that of the first of the Governors of Bengal, I venture to think I am in a position to state that never did questions and problems affecting the rights and interests of our community receive that amount of attention and consideration which they received during the term of office of your illustrious predecessor. The reason is not far to seek. On the eve of his departure His Excellency Lord Carmichael himself told representative deputations of our community what we owed to the Hon'ble Nawab Sir Syed Shams-ul-Huda. And as the representative of the Mussalmans of the Presidency, Burdwan and Orissa Divisions in the first Council under the Reform scheme and as the representative in Your Excellency's Council of the Mussalmans of the premier division of Bengal I avail myself of this opportunity—perhaps the last in this Council Chamber—to offer our tribute of thanks and gratitude to the Hon'ble Nawab Sir Syed Shams-ul-Huda for all that he has done in these troublous times to advance the best interests of the Mussalmans who have "fallen on evil days and are with darkness and with danger compassed around."

The Hon'ble MR. HORNELL said :—

"My Lord, on the 31st of March 1916, there were in Primary and Secondary Schools and in Colleges in Bengal about 1,730,000 pupils. This meant roughly that 42 out of every 100 boys of school-going age and 8 out of every 100 girls of school-going age were receiving instruction in these institutions. Of the above total about 76·4 per cent. were in the primary stage of instruction; about 22·3 per cent. in the secondary stage and about 1·3 in colleges.

In England and Wales there were, in the year 1913-14, 6,288,846 students in Public Elementary and Secondary Schools (*i.e.* those Secondary Schools which came within the purview of the Board of Education) and in University Colleges. No less than 96·5 per cent. of these students were pupils of Public Elementary Schools, 3·08 per cent. only were pupils of Secondary Schools, while ·42 per cent. only were in University Colleges. If you deduct the half-time scholars, the result is 2·9 per cent. of the total number of students in Secondary Schools and ·1 per cent. of the students in University Colleges.

Turning to expenditure a sum of Rs. 57,72,76,449 was spent in 1912-13 on Public Elementary Schools in England and Wales. The contribution from the Treasury and from the rates amounted to 37 crores and 39 lakhs. The money spent during that year on such secondary schools as come within the purview of the Board of Education was 3 crores and 45 lakhs. Of this amount 2 crores and 15 lakhs came from what we should call in India public funds. The total expenditure on University colleges in England and Wales were 1 crore and 11 lakhs, and the contribution from public funds was 55 lakhs only including all the stipends paid by the Board of Education on account of students, who were being trained to be teachers of Public Elementary Schools at institutions of University standing.

Discussion of the Budget.

Mr. Hornell.

The Hon'ble MR. HORNELL—*continued.*

In 1915-16, 43 lakhs were spent on primary schools in Bengal, of which 20 lakhs came from public funds. Eighty lakhs were spent on secondary education, of which 15 lakhs came from public funds. Twenty-six lakhs were spent on University Colleges, of which 12 lakhs came from public funds.

The income from endowments on University colleges in England and Wales excluding the great Universities of Oxford and Cambridge amounts to nearly 2½ crores. The income which comes to colleges in Bengal from all private sources other than fees is about 1¾ lakhs.

Now these figures make it quite clear that in Bengal compared with other countries the amount of money spent on primary education is out of all proportion to the amount spent on other grades of education. Perhaps in the peculiar conditions of India as the British Raj found it, this was inevitable. I do not even say that the policy which produced these results was not without some justification. But what seems to me to be absolutely beyond dispute is that if the demands of the masses for education are to receive serious attention, new and vast sources of revenue must somehow or other be made available. There will clearly have to be some sacrifice somewhere. Twenty lakhs may seem a very small sum to spend on primary education, but it looms fairly large when you compare it with the 12 lakhs which are being spent annually from public funds on collegiate education. If the better-to-do people of India are really becoming conscious of their responsibilities towards the masses, now is surely not the time to talk of reducing the cost to the recipients of University or secondary education ; rather I should have thought that it was time to be clamouring for endowments.

It seems to me that it is above all incumbent on those who are concerned with educational administration to examine the whole system with a view to deciding whether there is not some waste somewhere. I would invite the attention of all who are seriously interested in the problem of education in Bengal to Education General Table X, which is attached to the last quinquinnial review of educational progress in this Presidency. This table shows that there were on the 31st March 1912, 1,540,636 students in all the various stages of school education, from the lowest section of the infant standard to the Matriculation class. The analysis of the table reveals a number of rather startling facts. In the first place more than 51 per cent. of the total number of pupils were in the infant stage and nearly 39 per cent. were in the lowest or most rudimentary section of the infant class. The primary stage of instruction extends over two infant classes and four standards. and the percentage of pupils in the primary stage to the total number of pupils works up to over 40 per cent It is also quite clear from the table that there is a tremendous exodus of pupils after the 3rd primary standard. The figures are 132,000 as against 65,000—a reduction of more than 50 per cent. After that the figures become more stable. Even so, 47,000 pupils who entered the 5th standard, *i.e.*, the 1st class of the Middle Department. were reduced to 20,000 by the time the 1st class of the high division was reached ; and this number was further reduced by 10,000 by the time the Matriculation class had been attained. Let us trace the fortune of these pupils a step further. In 1912, 4,161 candidates passed the Matriculation Examination from schools in Bengal, 2,437 students from colleges in Bengal passed the Intermediate Examination either in Arts or Science two years later, and last year 1,792 candidates from the Bengal Colleges passed the B. A. or B. Sc. examination. It thus took 20,000 boys who started the High School course as pupils in schools recognised by the University of Calcutta as fit to prepare and submit candidates for the Matriculation Examination, that is to say, boys who definitely started out to prepare themselves for and presumably to take up,

Nawab Sir Syed Shams-ul-Huda.

The Hon'ble MR. HORNELL—*concluded.*

if possible, University courses, to produce 1,792 B. A. or B. Sc's. I will not take up the time of the Council with reflections on these figures, but it certainly seems to me that there is a very bad leakage somewhere, that primary schools are not fulfilling their function, that boys, whose needs would be fully met by primary schools, are crowding into middle schools, while those whose wants the middle school course would satisfy, are crowding into the high school classes irrespective of their capacity to go through the course. The educational ladder is all very well, but if you get such a tremendous crowd on lower rungs that those who ought to rise are kept back or even jostled off altogether, the ladder is not a very useful instrument for ascending. So much then for the general problem of education.

I now turn to the detailed criticisms which have been offered. The Hon'ble Rai Radha Charan Pal Bahadur has asked us what is going to be done to improve primary schools in Calcutta. He says that the wheels of the Government coach move very slowly. The problem, as I have said before, is a very difficult one. Some little progress has, I hope, been made. The position is this. The Municipality has considered the whole question and it has resolved that it will when opportunity offers endeavour to raise by loan money for the construction of primary schools on the understanding that the primary schools thus constructed would be maintained by grants received from Government. The Hon'ble Member has said that he has heard of many surveys being made. Possibly but no practical survey has as yet been effected. The Inspector of Schools in the Presidency Division is now having maps prepared of the whole of the Calcutta Municipal area, showing what schools there are, both primary and secondary, and indicating on this map with reference to the population, what primary schools should be erected, when funds are available.

I have nothing further to add with reference to the criticisms made except to say that the same Hon'ble Member is mistaken in saying that no provision is made in Western Bengal for *zanana* education. As a matter of fact, there are 37 *zanana* teachers working in Western Bengal, and that happens to be exactly the same number as are working in Eastern Bengal."

The Hon'ble NAWAB SIR SYED SHAMS-UL-HUDA said :—

"MY LORD, I must thank Hon'ble Members for the attention which they have always paid to the branches of administration with which I have been specially connected—I mean local self-government and sanitation. They have kept us busy with questions at all times and have moved numerous resolutions with reference to the different aspects of these questions and these discussions have often been very profitable.

In the course of the discussion to-day the greatest attention has been paid to the question of sanitation. In fact every Hon'ble Member, barring one or two, who have taken part in to-day's debate has drawn attention to the inadequacy of the provision for sanitation. There is one fact which requires to be stated and attention has already been drawn to it by my Hon'ble colleague, Mr. Beatson Bell, and that is that 2½ lakhs budgetted for sanitation represents only the amount required for sanitation of urban areas. Rural sanitation is in charge of the District Boards and they cannot complain that they have not got sufficient funds to do all that they think necessary in this direction, for in recent years they have got the whole of the Public Works cess assigned to them. Last year the additional income from this source came up to nearly 33 lakhs and if they choose, so far as village sanitation goes, they can do a great deal with this money. The complaint has always been that District Boards have neglected sanitation and several Hon'ble Members have

Nawab Sir Syed Shams-ul-Huda.

The Hon'ble NAWAB SIR SYED SHAMS-UL-HUDA—*continued.*

drawn attention to the fact that they have spent most of their money on roads. I may tell my Hon'ble friends that this is a matter which did not escape the attention of Government, and on the 12th of March last, we issued a circular to all the Commissioners of Divisions drawing attention to this aspect of the administration of District Boards. We said in the last paragraph of this circular :—'The Governor in Council deprecates the tendency to devote to communications large sums in excess of both the road cess receipt and the augmentation grant and desires to reiterate the desirability of utilising the Public Works cess for the objects mentioned in Mr. Samman's letter referred to and specially for the improvement of water-supply,' so that the paramount interest of water-supply in rural areas has not escaped the attention of Government.

As regards the question of water-supply in Municipal towns, no doubt the smallness of the budget provision will affect these areas. There was a time when we had more money to spend on urban sanitation than we knew how to spend, and at that time, municipalities were slow in asking for Government contribution because they knew that whenever they asked for Government contribution Government would ask them to pay a certain proportion of the total cost. There are now a large number of schemes which probably could have been executed if we had more money, but having regard to the direction of the Secretary of State that no new expenditure was to be undertaken and no new schemes were to be financed unless they were likely to be immediately remunerative or were of immediate and imperative urgency. Having regard to these orders we have to economise our resource and we choose between different schemes, and after careful consideration we could only finance such schemes which appeared to us to be extremely urgent, leaving the other schemes for the time when this financial stringency will have disappeared and I hope that time is not far distant. This is a question which we had to discuss several times a few days ago when a number of resolutions were brought up before the House on the budget provisions, and I do not think that I need repeat all that I said then. I may, however, say that the criticisms are to a great extent just, but my friends will realise that the circumstances are exceptional and they must wait for some time before they can have all the money that they require for sanitation, and I may assure them that when that time comes, we will have as much money as is necessary for the purposes.

Some Hon'ble Members, especially the Hon'ble Rai Radha Charan Pal Bahadur, have asked for information regarding Dr. Bentley's experiment regarding malaria. I am glad to have this opportunity of placing before the Council the various schemes which he is now trying to experiment upon. The first is a scheme for flooding an agricultural area in Burdwan which will affect 20 villages. The cost is estimated at Rs. 7,000 The second is a scheme of flood or flush drainage of the town of Jangipur which is estimated to cost Rs. 30,000. Its main features are as follows :—

'The general level of the town is a little below the ordinary flood level of the river, the inhabited portions being situated on artificially raised ground. During the rainy season flood water will be admitted through all the drains, and a series of existing tanks and low lands which will become partially flooded will be well inundated. When the river level falls, the accumulated water will be allowed to flow back again to the river, scouring all the drainage channels through which it passes. This is an attempt to restore the natural system of flow and scour.'

The third is a scheme for subsoil or underground drainage of an area of half a square mile in radius in Jalpaiguri district known as the Meenglas scheme,

The Hon'ble NAWAB SIR SYED SHAMS-UL-HUDA—*continued.*

originally which was estimated to cost Rs. 13,700, but in the revised estimates has been raised to Rs. 23,000. The idea is to put the hill streams which come down in flood during the rains, underground. There is also another scheme for under-draining and flushing of a river bed near Raneeganj in the district of Burdwan called the Singaram scheme, originally estimated to cost Rs. 30,000, but which has been reduced in the revised estimate to Rs. 13,000. Some Hon'ble Members have made reference to the fact that the sum of Rs. 30,000 only has been budgetted for these various schemes and have expressed the apprehension that the money may not suffice. As to that, I can assure my Hon'ble friends that we are very keen about these experiments, and if more money is required, we will certainly do our best to meet the demand, and that these experiments will not be allowed to suffer for want of funds.

The Hon'ble Rai Radha Charan Pal Bahadur has enquired as to the constitution of the Indian Research Fund Association. The objects for which the Association is established are the prosecution and assistance of research, the propagation of knowledge and experimental measures generally in connection with the causation, mode of spread and prevention of communicable diseases. The Hon'ble Member in charge of the Department of Education of the Government of India is the President of the Association as well as of the governing body, which consists of various Government officials. The officer in charge of the Malaria Bureau and several others are also members. The members of the association are of two classes, namely, permanent and temporary. The President and members of the governing body and every donor of Rs. 5,000 and upwards are permanent members. All subscribers of Rs. 100 and upwards are temporary members. This is the association which has made a grant of Rs. 50,000 in aid of Dr. Bentley's experiments.

Some Hon'ble members have made a reference to the fact that during the last few years we have not given the District Boards the full amount of the augmentation grant. This was the question that was raised by one of the Hon'ble Members of this Council by a resolution in which he asked the Government to make the grant without any deduction. I pointed out to him the method of calculation which resulted in the gradual diminution of the amount of the augmentation grant, and I do not think that I need enter into the explanation again. I promised, however, that we would give from this year to the District Boards the full amount of the augmentation grant, and if we did not find it possible to pay the whole money, I said that the deficiency of this year will be made up next year. I think that this ought to satisfy Hon'ble Members who are keen on augmenting the resources of District Boards. I have been criticised because I then stated that this augmentation grant represented the generosity of Government towards the District Boards. I still adhere to that statement. It is not the generosity of the Provincial Government but of the Government of India who made a permanent assignment to the Government of Bengal for augmenting the resources of the Boards. The Government of Bengal had a share in that generosity because they had to find the difference between the fixed assignment and the increased grant from year to year by reason of the increase in the receipts on road cess. A claim has also been put forward that not only should we pay the whole of the augmentation grant from this year, but we should also pay what we have not paid during the last two years. I am sorry that I cannot make any such promise. As I said then it is a matter of generosity for the Government, for all District Boards and Local Boards are expected to stand on their own legs and to carry on their normal expenditure with their normal income. Therefore, I am sorry that although we intend to pay the full amount of the augmentation grant, we can make no promise to make good the short payments that were made during the last few years.

Discussion of the Budget.

Nawab Sir Syed Shams-ul-Huda.

The Hon'ble NAWAB SIR SYED SHAMS-UL-HUDA—*continued.*

The Hon'ble Rai Radha Charan Pal Bahadur has criticised the Budget by saying that originally we budgetted a very much larger sum for the augmentation grant, but that the actual expenditure was very much less. There seems to be some misapprehension in my Hon'ble friend's mind. What happened exactly was this : the amount of augmentation grant was budgetted without a full realisation of the growth of revenue from the road cess and it was found that according to the calculation that was then in vogue a smaller sum was due to the District Boards. Because the calculations were wrong the amount has been cut down.

Some Hon'ble Members have asked what has been the effect of the appointment of sanitary inspectors in improving the health of the areas of which they were placed in charge. I may remind my Hon'ble friends that the Sanitary Officers' Bill was passed only about three years ago, and that it was gradually extended to different divisions of this Presidency and that the Health Officers and Sanitary Inspectors have been appointed in some of the municipalities only very recently. It is therefore premature to pronounce an opinion as to the effect of the appointment on the general health of the municipalities. At the same time I believe and Hon'ble Members will themselves understand that the situation is bound to improve when there is a person with medical qualifications in important municipalities, to look after the sanitation of the municipal area which used to be greatly neglected before these officers were appointed.

One Hon'ble Member has asked Government to make over to the District Boards the whole of the proceeds from ferries. I may tell my Hon'ble friend that we do not recognise that the District Boards have any claims whatever to the ferry receipts. The ferry receipts form a part of the provincial revenues, and this Government cannot, without the sanction of the Government of India, assign any part of the provincial revenues—we were told this by the Government of India many years ago. They however said that they would not object to such transfer, provided it is accompanied by the transfer of an equal amount of expenditure borne by provincial revenues. I cannot therefore hold out any hope of the ferry receipts being made over unconditionally to the District Boards, and as the District Boards have now got such a large income the ferry receipts will not appreciably increase their resources.

Reference has been made to the question of increasing the pay and prospects of the Munsifs. When a resolution was moved in this Council in connection with the Budget to increase the pay of the Munsifs I pointed out that the question was under the consideration of the Public Services Commission, that they had made their recommendations and these recommendations were under the consideration of the Government of India, and that this Government could not prejudge the matter and were waiting for the decision of the Government of India. That is exactly the position now; the Government of India have promised to deal with these recommendations expeditiously, and I think that when that is done, the position will be found to be quite satisfactory to the members of the Judicial Service. I then said—and the statement has been criticised—that the recommendations of the Public Services Commission are on a more liberal scale than the recommendations in the resolution which was moved in Council. I said that to give partial relief to the Munsifs would prejudice them, because if some relief was given the Government of India might say that some relief had only recently been given to them they might wait. I think that that was a reasonable statement and the criticisms that have been offered are not just.

On the subject of the Muhammadan Arts College and more hostels for Muhammadans, I think I have spoken on this subject about a dozen times,

and I do not think it would serve any useful purpose if I were to go over the same arguments over again.

These are the more important matters which have been raised in the Budget discussion, and I have very little more to say. I must express my grateful thanks to the Hon'ble Rai Radha Charan Pal Bahadur, the Hon'ble Dr. Sarbadhikari and the Hon'ble Dr. Suhrawardy for the very kind and complimentary terms in which they have referred to my services as a member of the Executive Council."

The Hon'ble MR. LYON said :—

"My Lord, I need only intervene in this debate for a few minutes, as many of the matters concerning the Departments which I control have been dealt with very fully in the discussion of recent resolutions in this Council. But with reference to these resolutions I think I must raise a protest against the description of our proceedings which was given by the Hon'ble Babu Ambika Churn Mazumdar. He has stated that with the exception of one, all the 38 resolutions which were brought forward were 'stubbornly resisted and rejected" by Government. I think I shall carry the Council with me when I say that this is hardly a correct statement. A large number of these resolutions were withdrawn by those members themselves who had brought them forward, after they had listened to the satisfactory statements—as they described them to be—made by the members of Government on the subject. I may assure Hon'ble Members also that we have made a very careful note of these resolutions and that the discussions relating to them will certainly bear fruit. As to the question of the Police, we dealt with our proposals so fully in the course of the debates on the resolutions that I have little more to say. One Hon'ble Member objected to what he considered to be the somewhat indiscriminate praise lavished by me on the police. But I am consoled by the fact that, if I heard aright, he himself confessed to something in the nature of indiscriminate abuse Well, my Lord, I am quite prepared to let my praise stand for the deliberate consideration of the Hon'ble Member himself and other Hon'ble Members of this Council and I believe that time will show that that praise was justified.

The Hon'ble Maulvi Abul Kasem has asked whether the results achieved justified the proposed expenditure I would invite the Hon'ble Member's attention to the fact that the main expenditure is of a new kind, for the provision of improved accommodation and new buildings for the police. This being the case, I would suggest that we must wait until the expenditure has been incurred before we can look for results. We are commencing to improve buildings and to provide adequate accommodation for our police, and for the reasons which I previously gave to this Council at length, we have confidence that we are doing much to improve the work and the efficiency of the police in adopting this policy. I would myself gladly see larger expenditure on education and sanitation, but we cannot hope for progress until, as the Hon'ble Mr. Eden has observed, we have secured law and order and are in a position to maintain internal peace. We have great arrears to deal with in this matter, and we must persevere in disposing of these arrears before we can willingly reduce this item in the Budget.

I should like to add a few words to those of my Hon'ble colleague in charge of the Judicial Department on the subject of the pay of Munsifs. I have myself been greatly interested for many years in the status and prospects of the members of the Provincial Judicial Service, and I believe that the members of that service will not fail to acknowledge the fact that in Eastern Bengal and Assam I was instrumental in securing for them some

considerable alleviation of the difficulties in which they found themselves on the formation of the Province. And I have been anxious to forward their interests in many ways. It was for that reason that I was glad that we were able to defeat, by my casting vote as President, a well-meant attempt to help the Munsiffs which was recently made in this Council, as it was clearly in their interests that this resolution to which I refer should be defeated. To adopt it would have been to complicate and delay the consideration of more favourable proposals by the Government of India, proposals brought forward by the Public Services Commission ; and I believe that to have made the less favourable proposition that was suggested in the resolution would definitely have endangered the adoption of the better scheme that was already before the Government of India.

The Hon'ble the Maharajadhiraja Bahadur of Burdwan has suggested, referring to the question of the meetings of this Council, that we require to concentrate the energies of the administration in Calcutta. I regret to say that on this matter I differ from him profoundly. In these days of devolution of authority, I look with the greatest suspicion on any harking back to anything in the nature of centralization. To develop the interior of this province of Bengal, and to bring the Government in all its functions nearer to the people, are essential to the strengthening of the Province ; and we wish to diffuse the energies and the influence of Government rather than to concentrate them in one place.

He and another speaker have referred to the stay of Government in Darjeeling as if this was a time of holiday and relaxation, of comfort and luxury. I would venture to refer to the tale of Sir Reginald Craddock's experience in this matter, as detailed by him in the Imperial Council recently. I would add that my own experience, which is even longer and more varied than his in this respect, entirely confirms his views. I do not propose to detain the Council by dealing with this question at length, but I may say at once that, in my opinion, no defence could be offered for the move to Darjeeling, were it not the case that it is beneficial to the work of Government and tends to increase its efficiency. I am glad incidentally that the temperature of this Council Chamber in Calcutta, in these days of April, adds force to the argument for our present practice, and is calculated to confound those who oppose it.

I cannot resume my seat without acknowledging the very kind personal allusions which have been made to me. I have appreciated those allusions very deeply and am very grateful for them. I first listened to a Council debate in this building in the year 1883 ; I was a member of one of the unreformed Councils ; and I was a member of the first Imperial Council, and of one of the first Provincial Councils, after the introduction of the recent reforms. I have consequently had a special interest in the proceedings and work done in this Chamber ; and it is with great regret that I realise that the time has come for me to sever my connection with this Council, from the members of which I have always received unfailing kindness and courtesy."

The Hon'ble MR. BEATSON BELL said :—

"My Lord, as the House is aware, there are several departments under my administrative charge and various criticisms have been offered in respect of the budgets of these departments. Before I deal with these, I would like to make some remarks regarding matters of a general nature which have been brought before us. There has, as usual, been considerable criticism about the budget procedure, and in particular about the part played by the Finance Committee. I shall pass over in the silence which it deserves the attack

Discussion of the Budget.

Mr. Beatson Bell.

The Hon'ble MR. BEATSON BELL—*continued.*

which was made by the Hon'ble Mr. Rasul, who is not a member of the Finance Committee and who admits that his attack was based on idle tittle tattle. On the other hand, I must accord my warm thanks for the great assistance given to Mr. Donald and myself by the members of the Finance Committee. It is very far from being the fact that we treated them as cyphers, or that we are in any way ungrateful for the very substantial help which they gave us in examining the Budget. In this connection, the Hon'ble Maharajadhiraja Bahadur of Burdwan has criticised us because in the Finance Committee we only considered schemes which had become what he calls 'crystallized.' If this means that the schemes of Government were fully prepared before we placed them before the Committee, we thank him for his remark. If, however, he means that the Committee should, on the spur of the moment, make an allotment in the Budget because some member of the Committee hits on a good idea—or what seems to be a good idea—I am afraid we cannot agree with him. If members have good ideas their best course is to embody them in resolutions and get them accepted by the House and by Government, then they will surely find them placed before the Finance Committee.

The Hon'ble Rai Radha Charan Pal Bahadur has made a well-meant suggestion that the Finance Committee should not only concern itself with the preparation of the Budget (in which as I have said just now it gives us most valuable help), but that it should receive enlarged functions and should work throughout the year, examining the general progress of expenditure and considering all proposals for reappropriating the savings of one head to meet the excess expenditure of another. I am afraid that this is not a practical proposal. In fact, I may say, it is somewhat unconstitutional. It comes to this that the Finance Committee is not only to give us assistance in its constitutional work of preparing the Budget; it is also to usurp the functions of the Accountant-General and the Financial Department throughout the administration of the year. I thank the Hon'ble Member for his suggestion, but we cannot possibly accept it.

Then we have our old friend the 'departmental budget.' I may say at once that I adhere to everything that I said last year. This is the first time I have heard that any Hon'ble Member has been unable to see the departmental budgets. They are not secret documents, but they are not ready until shortly *after* the general budget. When they are finally printed, any one can see them. Before that they are merely in draft and cannot be sent out of office. But while they are in draft, any member is welcome to come round and see them. In fact, the Hon'ble Rai Radha Charan Pal Bahadur came round and asked to see the budget of the Medical Department. It was placed at his entire disposal and he was shown the full process of budget-making.

There seems to have been some misunderstanding in the case of the Hon'ble Babu Akhil Chandra Datta. He had not only the facilities of his Hon'ble colleague; he had the additional advantage of being on the Finance Committee, any member of which can inspect any document connected with the Budget. I shall make inquiries into the Hon'ble Member's specific complaint. I shall also see that the departmental budgets of the year which is now beginning are promptly printed in a convenient form for the use of all members who are interested in them.

Then we come to a grievance which has been mentioned by many previous speakers, namely that Hon'ble Members had insufficient time to study the draft Financial Statement. Well, as I pointed out before, the Hon'ble Members had 10 full days in which to study it. I regret that my

Discussion of the Budget.

The Hon'ble MR. BEATSON BELL—*continued.*

friend, the Hon'ble Babu Kishori Mohan Chaudhuri, did not begin to study his copy until the 4th of March. All I can say is that on 26th February it was sent round to the Calcutta address which he gave us. Our peon book contains the signature of the friend or relation who signed on his behalf and who apparently mislaid it. We cannot be blamed for this; we delivered it punctually on the scheduled date. It is evident also that Hon'ble Members generally made full use of their 10 days. They proposed no fewer than 38 resolutions. This is certainly a record in this Council, and I think it is a record in any Council in India. These 38 resolutions came on for discussion before a House containing a majority of non-official Indian members. The non-official Indian members are 28 against 23 "others" of all kinds. It was before a House so constituted that these 38 resolutions came on for debate. We have been charged with systematically voting down the unanimous opinion of the non-official Indian members. We would not do so if we could; and we could not do so if we would, for how can a permanent minority vote down a permanent majority? The real fact, I am proud to say, is that Government can always rely upon substantial support from non-official Indian members of this House. And what actually happened? Out of these 38 resolutions, we accepted 4. Of the rest, 16 resolutions were withdrawn because satisfactory assurances were given from this side of the House; in 7 more cases the movers did not press their proposals; and it is only in respect of 11 out of 38 resolutions that Government offered any real opposition. Finally, out of these 11 contentious resolutions only 4 were taken to a division.

Another matter of a somewhat general nature has been brought forward by one Hon'ble Member who pointed out that we have large balances and suggested that these balances, instead of lying in treasuries, should be invested in some profitable manner—perhaps in the war fund, perhaps in jute shares; the Hon'ble Member made no specific suggestion. These balances are not at our disposal. If the Hon'ble Member will read the very lucid explanation given by the Hon'ble Sir William Meyer in the Imperial Council, he will find that these balances are not at our disposal, but at the disposal of the Government of India. They are part of the 'ways and means' by which the Finance Member in the Imperial Council is able to carry on the administration of the country and, as far as possible, reduce its debts. These funds are not ours to invest, so the tempting suggestion must be dropped.

Turning to the departments which are under my administrative charge, I first notice land revenue. It is very satisfactory to find that the land revenue receipts are coming in extremely well and that the province, as a whole, is in a state of agricultural prosperity. In this connection, I can assure my friend, the Hon'ble Maharajadhiraja Bahadur of Burdwan, that I would be the very last man to lay sacrilegious hands upon the permanent settlement. We must stick to our bargain, good or bad. It was not I, but my friends on the other side of the House, who recently proposed to re-examine this ancient contract.

Turning to another item in the Revenue Department, when I addressed the House this time last year, we were then in very great anxiety regarding the district of Bankura where a population of a million people were threatened with severe famine. It is a matter of great gratification that the measures which Government was able to take, with the assistance of non-official Europeans and Indians, were entirely successful. The district weathered a year of tremendous stress and is now in a most prosperous condition. No Hon'ble Member has thought it worth while to allude to the Bankura famine. Perhaps, the House has almost forgotten it; but it is worth while placing

on record that, partly in loans and partly in relief operations, Government distributed 20½ lakhs of rupees, and not a rupee was wasted. I take this opportunity of publicly mentioning the splendid work which was done by Mr. Cook, the Collector, who literally saved the district.

Let us next consider agriculture. Several Hon'ble Members have criticised us because (so they say) we have done nothing in the direction of printing Bengali pamphlets descriptive of our researches and replete with advice to the cultivators. Perhaps, some Hon'ble Members recollect the striking success which was achieved by the *Swadhin Bharat* pamphlets. I admit that these pamphlets achieved their objects, and it is pleasant to hope that agricultural pamphlets may be equally successful. Practical experience, however, has made us sceptical. It is not that we have refrained from trying. We have tried again and again. I have brought some of our literary efforts with me. Here for example is the *Krishi Samachar*. It contains a review of our work for the year and is full of information and advice to the raiyat. Copies of the *Krishi Samachar* are scattered wholesale throughout the province and are obtainable for the small sum of eight annas. To those who are unable to pay, we shall be happy to present a free copy. Then we have vernacular pamphlets about individual crops. Here is one about potatoes, one about *chinabadam*, one about diseases of mango trees. All these are at the disposal of any cultivator. Then here is another very useful work which is now in the press—*Bharatiya gabadi pashur katipay byadhi*—Some diseases of cattle in India."

The Hon'ble KUMAR SHIBSEKARESWAR RAY said :—

"They are not advertised."

The Hon'ble MR. BEATSON BELL said :—

"This speech is a good advertisement ; but we have all along advertised our literature by supplying our agricultural officers with plenty of spare copies. I fear, however, that this is not the best way of spending our money. What the raiyat really wants is not literature but ocular demonstration. He wants to see the land ploughed in his presence, the seed sown in his presence, the crop grown, watered, weeded and reaped in his presence. Unless he has seen all this and is thoroughly satisfied that we are showing him a good thing, all the literature in the world will never convince the Bengal raiyat. And I thoroughly sympathise with him.

One Hon'ble Member has pressed us to establish an agricultural school at Dacca, and has assured us that there is a very great demand for such an institution. Well, the Agricultural College at Sabour is the joint property of this Government and the Bihar Government and admits students from both provinces. Special facilities are given to the students of Bengal, and yet the place cannot be filled. We have been trying to make an experiment at Dacca for the benefit of the sons of zamindars in that part of the country. The scheme has been in several forms at different stages. Our latest proposal was communicated to the Eastern Bengal Landholders' Association. We promised that if ten sons of zamindars would come forward and each pay Rs. 30 a month, we would arrange for a practical course of agricultural instruction at the Dacca farm. Not a single candidate has yet appeared.

Turning now to the cognate department of fisheries, the Hon'ble Maulvi Abul Kasem has suggested that we should abolish this department. We cannot listen to this preposterous suggestion. Mr. Southwell, the Deputy Director, has now been working for some years in Bengal. He has acquired

Mr. Beatson Bell.

The Hon'ble MR. BEATSON BELL—*continued.*

a thorough knowledge of our local fish. He has paid particular attention to the subject of carp and hilsa. It would be madness if, just after the scientific foundation has been laid, we deliberately throw away all our work and refrain from raising the practical superstructure. If we had taken this course in the case of jute and paddy, we would never have been able to benefit the raiyats in the way in which we are now benefiting them.

Turning now to the Public Works Department, I find that a mass of criticisms has been directed to the Damodar and Ajai floods. I shall not detain this Council by discussing our proposals in detail. Suffice it to say that in addition to the ordinary expenditure we have made a provision of 2½ lakhs of rupees, and it is our intention to spend every penny to the best advantage. We have also been asked to pay some attention to the rivers in the Rajshahi Division, the rivers Mahananda and Atrai. I can only say that the sanitary condition of the Rajshahi Division is giving Government very serious thought. If any gentlemen will make some practical suggestion regarding the rivers of that division, we shall do our best to follow up the suggestion by a careful investigation.

I have to thank the Hon'ble Mr. Eden for his very appropriate remarks regarding the Grand Trunk Canal. I can assure him that we have not the least intention of pigeonholing this project. It has been worked up in its revised form by Mr. Addams-Williams and it has been circulated to all who are interested in the scheme. We are now receiving a mass of valuable criticisms. I am glad to say that most of these criticisms are in favour of our present scheme and urge us to carry it into completion. The scheme, however, will involve a capital expenditure of more than one million pounds sterling. In the ordinary course, we would ask the Government of India to advance this money. At present this is out of the question, and it is equally impossible to go to the open market. But I can assure the Hon'ble Mr. Eden and all those who are interested in this great scheme that, as soon as normal conditions are resumed, we have every intention of taking it up and pushing it through.

Another Hon'ble Member, dealing with the Public Works Department, has criticised the water-ways on the Sara-Serajganj Railway. I am glad this case has been mentioned. Every water-way on this railway was personally examined by the Superintending Engineer when the plans were under discussion. I personally went over the line and re-examined the water-ways before the line was opened. The Collector, an Indian gentleman, made yet another local inquiry after the first rainy season. He reported that the health of the people had improved and not deteriorated since the line was made. But in order to make assurance doubly sure we have ordered yet another inquiry by the Superintending Engineer. I hope this will satisfy Hon'ble Members that we are fully alive to the importance of water-ways on railways.

As regards the Commercial Department, I regret that I have little to say. We are waiting for the report of the Holland Commission and the appointment of our Director of Industries. For the present, with the best wish in the world, we can do practically nothing on a large scale. We are however giving financial help to Home Industries, and shall carry on the good work in which Lady Carmichael took so much interest.

As regards Excise, I have to thank several Hon'ble Members for their kind words regarding the temperance policy of this Government. Our policy remains unchanged—the maximum of revenue and the minimum of consumption. It is good to hear that our practical efforts to carry out this policy meet with the approval of the House.

Discussion of the Budget.

Mr. Beatson Bell.

The Hon'ble MR. BEATSON BELL—*continued.*

The Hon'ble the Vice-Chancellor dealing with Excise made what was for him a somewhat unusual request—a request for the supply of free alcohol. He has asked that the University instead of buying leohol in the usual way and paying duty, should get it free from duty. Well, that matter has been the subject of much correspondence between the University and the Excise Department. Our policy is against the issue of alcohol free of duty. We have done it in the case of the Presidency College and the Museum, but we are not satisfied that we did right in making these concessions. Our experience tells us that when alcohol is given out free of duty, there is an unfortunate tendency on the part of its custodians not only to waste it, but to be negligent in watching it. It is true that the Vice-Chancellor assures us that the alcohol given to the University will be kept with the most scrupulous care and that there is no possibility of leakage; in other words, he assures us that the University will look after its alcohol with that scrupulous care which it bestows upon its examination papers.

I now turn to the question of income-tax. One Hon'ble Member has alluded to the fact that we estimated to the Government of India that the extra taxation which was to be earmarked as Imperial would bring in about Rs. 20,40,000; that the actual takings were much larger; and that we handed over the actual takings in place of the estimated sum. He has accused us of "soft sentiment". I confess I cannot see it. It seems to me a matter of common honesty. It was admittedly a figure which was difficult to estimate. If we had made an overestimate we should not have hesitated to ask for a refund. When we made an underestimate why should we not make an honest offering?

As regards the Medical Department, we have been asked to establish a Medical College at Dacca with the least possible delay. Well, in the discussions of the Dacca University, the subject of medical education was one of the most difficult which engaged the attention of the Committee and of the Government. It is still one of the most difficult questions and it is sure to receive very careful examination by the Commission which is soon to arrive from England. Meanwhile it is absolutely impossible for us to establish a Medical College at Dacca.

We have been asked why there is no provision in the Budget for the School of Tropical Medicine in Calcutta. As Hon'ble Members are aware, splendid buildings have been built, but until we can obtain a staff to carry on the work there is no use making provision in the Budget. The officers of the I. M. S. and the R. A. M. C. have responded so nobly to the call of their country that it is quite impossible during the war to obtain a staff for our Tropical School. Meanwhile, Sir L. Rogers and Colonel Sutherland are carrying on the work. They are shown in the Budget as Professors of the Medical College. This is why there is no special entry against the Tropical School.

There is another medical matter—the Tuberculosis Hospital in Calcutta. This is also a subject which is hung up owing to the war, but the House is no doubt aware that on the roof of the Presidency General Hospital a Tuberculosis Ward has been constructed, and on the roof of the Medical College Hospital another is in the course of construction. When the war is over and funds and officers are available, this subject will receive early attention from Government.

Finally, I would refer to what the Hon'ble Dr. Sarkar said regarding vernacular education in medical subjects. I do not know if the House understood from the Hon'ble Doctor's remarks that this Government has

Discussion of the Budget.

The President.

The Hon'ble MR. BEATSON BELL—*concluded.*

assumed an attitude of *non possumus* to the proposals which he advocated. This is very far from being the fact, for on this subject we have at present a perfectly open mind. As a result of the resolution which was passed in the Supreme Council, we have consulted many experts in this province, including Dr. Sarkar himself, and when we have received all the reports, we shall submit our views to the Government of India. I would only utter one word of warning. I do not admit that Bengal is terribly under-doctored. There is little difference between Bengal and my own country, Scotland. In Bengal there are 8 doctors for 10,000 people; in Scotland there are 12. The proportion is therefore 2 to 3, not a very striking difference. Of course, the doctors here are not all of the same school of thought. The census figures, from which I have quoted, do not shew how many doctors have received western education and how many have received education in indigenous schools of medicine. I know that many people in this country infinitely prefer to be treated by *kavirajes* or *hakims;* and I do not see any reason why Government should force them against their will to be treated by a doctor who has studied western medicine, either through the medium of English or the medium of the vernacular.

Government have been asked to support medical education of three distinct kinds—western education through the medium of English, western education through the vernacular, and education in indigenous schools of medicine. Personally, I should like to do something for them all. But the State purse is not unlimited, and no single school can claim a monopoly. We mean to deal fairly towards all.

Once more, my Lord, I have to thank the House for the kindly reception they have accorded to this Budget, and for the kindly remarks which have been made throughout the debate."

The PRESIDENT said:—

"Gentlemen, I believe it is customary at the conclusion of the proceedings on the final stage of the Budget for the President to say a few words in summing up the results of the labours of the Council during the past session.

Well, gentlemen, I have only presided at this Council during the tail-end of the session, so to speak, and I am not, therefore, in a position to carry out that function properly. I shall only detain you, therefore, on this occasion with a very few words. From the small experience which I have had of the proceedings of this Council I feel assured that there is no cause for members of the Council to feel any despondency as to their achievements. I say that because while listening to some of the speeches which have been made to-day, I seemed here and there to detect a note of pessimism. Some Hon'ble Members suggested that the opportunities which they possess for bringing influence to bear upon Government were not of very much value. Well, gentlemen, with all due respect to them I venture to say that I do really think they are under-estimating both the opportunities which occur and the advantage which is taken of those opportunities for bringing before the Government the feelings and the wishes which they hold as representatives of the people. If I may say so, I think that the Hon'ble Maulvi Abul Kasem has arrived at a far more accurate estimate of the position than perhaps some of the other members have done, and I would commend to them the speech which he made to-day in which he pointed out with legitimate satisfaction that it was as the result of the resolution which he had himself moved in this Council that the Government were taking up a project for mitigating the effects of the floods of the Damodar, the Ajoy and other rivers.

Discussion of the Budget.

The President.

The PRESIDENT—*continued.*

Let me commend his own words to those Hon'ble Members who may be labouring under a sense of their own futility. The Hon'ble Member said 'People in the Burdwan Division are deeply grateful to Government for providing Rs. 2,50,000 for projects for mitigating the effects of the floods at the Damodar, Ajoy and other rivers.' And here comes the particular part of his speech which I wish to direct the attention of some Hon'ble Members to. 'This was done,' he added, 'in pursuance of the resolution which was moved by me at the last meeting of this session'. Well, I merely quote that, gentlemen, as an example of what can be done, and what is done, by Hon'ble Members of this Council.

'Then another Hon'ble Member, I think it was the Hon'ble Mr. Rasul, took exception in particular to the kind of debate which takes place on this particular occasion, and he, by the way, if one may form an opinion from what he himself said, is one of those men who has had some little experience of the wisdom of the saying that a prophet is not without honour save in his own country. He took exception to the particular proceedings at the final stage of the Budget and he suggested that it would be a wise thing to abolish the general discussion which takes place and to devote more time, if I understood him rightly, to allowing members to move resolutions at an earlier stage of the Budget proceedings. Well, so far as that goes, I know of no limitations which are imposed on Hon'ble Members who desire to move resolutions at the earlier stages of the Budget proceedings.

I would imagine, judging from what we were told by Mr. Beatson Bell as to the number of resolutions which have been moved this year, that Hon'ble Members find no limitations imposed in that respect. But apart from that, I think, it would be a pity to abolish altogether this opportunity for a general discussion. Hon'ble Members may say the discussion is an academic one. Well that may be so in fact, but believe me that when a member brings forward with moderation a case which he wishes to bring to the notice of the Government and the public, when he supports that case with sound arguments and with indisputable facts, then he may rest quite assured that even if the occasion on which he brings forward such a case is in essence merely an academic one, still his case must have its effect not only upon the public outside but upon the Member of Government to whom it is more particularly addressed. I would ask members, therefore, not to take part in this discussion in a spirit of pessimism, but to take advantage of the opportunity provided them of bringing to the notice of Government matters of real importance for the Government's consideration.

Now, gentlemen, the Council as a whole has shown that they appreciate the difficulties of the present situation. They have admitted that funds are not forthcoming for large measures of reforms so long as the present war lasts, and I appreciate the sense of responsibility which Hon'ble Members have shown in that respect. At the same time, some Hon'ble Members have urged that larger sums ought to be spent on sanitation, and upon education, and upon various other matters in which they are interested. I can assure them that we are as anxious as they are to spend funds upon all these matters, and we are only restrained from doing so by reason of the fact that we have not got the funds to spend. Before you can spend large sums of money you have got to get them. I would venture to suggest to Hon'ble Members that they might find some useful work during the Council vacation in turning over in their own minds methods by which further funds might be collected by the Government, and in going round their constituencies, and in educating their constituents upon that point so that, if the time does come when the Imperial Government will consider it wise and right to impose

Discussion of the Budget.

The President.

The PRESIDENT—*continued.*

further taxes for the prosecution of further reforms, then the people will have been educated up to it, and they will more readily consent to additional taxation. That is only a suggestion I throw out as to how Hon'ble Members might usefully employ their spare time during the Council vacation.

Now I only wish to say one word further and that is with regard to some remarks which have fallen here and there as to the particular way in which the funds which are at our disposal have been allotted in the Budget for the coming year. Some Hon'ble gentlemen have thought it would have been better to have given less money to the police, and to have devoted more money to other objects. All I can say, gentlemen, is that I believe that at the present time it would be impossible to do anything more in the interest of the people of Bengal than to do what is possible to put the whole of the police force upon the best possible foundation.

The Hon'ble Rai Radha Charan Pal Bahadur, I think, has stated that he was much gratified at the speedy and successful manner in which the Government dealt with the unfortunate outbreak of dacoities in the city of Calcutta, and he agreed that under abnormal circumstances the Government is justified in dealing with crimes of that kind by abnormal measures, though he did not altogether agree, as I understood him, with the exact methods which the Government had adopted. Well, gentlemen, I listened with interest to what he said upon that point, and it seemed to me that there was not after all so very large a difference between the Hon'ble Member and between the Government upon that matter. He admitted that under circumstances of that kind we should have methods of dealing summarily with men who commit these crimes. All he asked was, as I understood him, that some safeguard should be set up, such as an advisory committee. I forget his exact words, but at any rate somebody, who would stand to some extent between the executive and the people with whom they wish to deal. Well I don't think there is a very great deal of difference between the Hon'ble Member and ourselves. We realise that in exercising these powers under the Defence of India Act we have a tremendous responsibility thrown upon our shoulders, and I can assure you that in exercising those great powers we do take every precaution that is possible to prevent any possible miscarriage of justice. The Hon'ble Member suggested the creation of some body to which cases might be submitted. Well, you know yourselves I am told, that it is the policy of this Government that cases of that kind should go before an impartial Judicial officer before action is taken upon them, and if you ponder upon that you will see that there is very little difference in intention between the Hon'ble Member and ourselves.

We deplore the necessity for the employment of such powers as much possibly more, than you do, but the necessity is there and, so long as the necessity remains we shall not fail to use them. The circumstances are abnormal. Everybody admits that. If that was not admitted, those who love and admire Bengal most might well despair. The circumstances are abnormal, and what we have to do is, while dealing with the particular evil which we find, to try to create an atmosphere which will render the growth of that particular evil impossible. It is in that spirit, gentlemen, I would appeal to you for your assistance and your co-operation. I would ask you, as the leaders of public opinion in Bengal, to do what you can, not in this Council Chamber but outside this Council Chamber, through the agency of the Press and through the agency of public meetings, to make it known that every responsible man who loves Bengal deplores the existence in Bengal of a particular type of crime which makes the exercise of abnormal powers necessary by the Government of Bengal. If you do that, I am sure

you will be doing more than you would have done by passing any amount of legislation or anything else of the kind, to forward the best interests of the people of your country.

Gentlemen, we part to-day for a brief period, and I look forward with pleasure to the day when we shall reassemble. I hope that the unfortunate curtailment of our activities, which has been necessitated by the war in Europe, will soon pass, and that please God, before I have an opportunity of addressing you once more on this occasion next year I shall be able to ask you to co-operate with the Government in useful legislation. That may or may not be the case. I merely venture to-day to express the hope that it will be the case. I hope that in the near future, this Council will be called upon to assist us in useful and in valuable work, and if I may say so, judging from the very short experience which I have so far had of the deliberations of this assembly, I feel every confidence that we shall receive from the members of this Council, both official and non-official, all that valuable help—and in the term valuable help I include useful criticism—which we require and which we ask for.

FISH CULTIVATION IN TANKS.

REVENUE DEPARTMENT.

AGRICULTURE.

CALCUTTA, THE 10TH MARCH 1917.

RESOLUTION—No. 2219Agri

THE following advice on the subject of fish cultivation in tanks is published for general information.

2 If a tank is not regularly stocked the supply of fish is not large enough to remunerate the lessee, and the profits of the owner are accordingly diminished. It is advisable for owners to stock tanks, because lessees are often content to take away the fish which they find and do not replenish the stock.

3. Tanks are often stocked with small fry which are bought at the rate of about Re. 1-4 per 1,000 : these small fry are not usually recognizable, and unless they are obtained from a reliable source, they frequently contain a large quantity of predatory fish and of fish which do not grow to a large size. It is therefore more economical, when the quality of the small fry cannot be relied on, to buy larger fry which can be recognised : the price of these is generally about Rs. 7 per 1,000. The Fisheries Department can, however, supply a considerable quantity of small fry at a price which varies generally from Re. 1 to Rs. 3 per 1,000 : the Department cannot absolutely guarantee that the fry supplied will be all of one species, but they are collected with care, and their use is recommended. Applications for these fry should be made in the month of May to the Deputy Director of Fisheries at Writers' Buildings, Calcutta, and he will furnish particulars about taking delivery. Besides supplying fry, the Fisheries Department can often recommend reliable sources of supply.

4. In Government letter No. 1077-81T.R., dated the 6th June 1916, addressed to Commissioners of Divisions, the Governor in Council issued certain instructions regulating the policy to be followed in settling Government fisheries. That letter required that Collectors before settling a Government fishery should consider the possibility of constituting a Co-operative Society of fishermen, and where such a society was constituted, should give preference to the society in settlement. In the absence of a society, the Collector should give the lease to one or more selected fishermen in preference to persons who are not fishermen. The practice of settling Government fisheries by open and unrestricted auction was prohibited, and consultation with the Fisheries Department as to restriction of the seasons and methods of fishing was enjoined. These instructions were issued primarily with reference to river fisheries, but the Governor in Council desires that Collectors and other Government officers should also apply them, when conditions are suitable, in the settlement of the fishery rights in Government tanks, and he commends the principles stated above to the notice of local authorities and private owners.

5. The lessee of a tank usually removes all the fish at the time when his lease expires : when short-term leases are given the fish have no chance of growing to full size. It is therefore generally desirable to lease tanks for periods of about 5 years.

6. A little weed is good for fish, but when there is too much weed a tank cannot be dragged. In most districts May is the best time to clear superfluous weed from tanks.

By order of the Governor in Council,

L. BIRLEY.

Offg. Secy. to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 23rd April 1917

Summary.—There has been heavy rain accompanied by hail and storm in the Chittagong Division and in parts of the Dacca Division, causing damage to the standing crops and retarding agricultural operations in some cases. Elsewhere the fall was generally light to moderate. On the whole the rainfall has been beneficial. More rain is still wanted in some places. Preparations for sowing jute and autumn paddy are proceeding, and the sowings have commenced in places. Planting of sugarcane is nearly finished. Harvesting of summer paddy has commenced in some places. The outturn is generally reported satisfactory. Cattle-disease exists in thirteen districts. The average price of common rice has slightly fallen as compared with that of the previous week.

NOTIFICATION.

No. 2931A.—The 1st May 1917.—The following is substituted for Appendix IX to the rules for the Departmental Examination of Assistant Magistrates and others, dated the 14th September 1912 :—

APPENDIX IX.

Rules for the training of Assistant Magistrates, Deputy Magistrates and Sub-Deputy Magistrates.

1. As soon as any junior officer to whom these rules apply is posted to his district, the District officer should prepare a programme showing, with reference to the work in his office, the periods which the junior officer will spend in the several departments. Each junior officer should receive a copy of the programme of his work, and the programmes should be entered in a register.

2. The minimum period of probation for probationers of the Provincial Executive Service and of the Subordinate Civil Service will be twelve months. Probationers shall, during their probationary service, be trained so as to get as much experience as possible in Magisterial and Revenue Courts with a view to their acquiring a knowledge of official routine. During this period they should study the Codes and the Acts to enable them to go up for their departmental examinations as soon as they are allowed. For probationers who are appointed in the ordinary way in the autumn, this will be in October or November of the succeeding year. But officers who are appointed at other times will not be allowed to go up until twelve months have elapsed from the date of their appointment.

Magisterial work.

3. Assistant Magistrates, who have not passed the Higher Standard in law, and Deputy and Sub-Deputy Magistrates, who have not passed the Lower Standard in law, will be required to prepare an intelligent and precise record of six cases tried by a first class Magistrate and three defended Sessions trials. The cases to be recorded should be selected by the District Magistrate for the purpose and should not include appellate cases. The record must be prepared from notes taken by the officer in Court as the trial proceeds and he must be present in Court throughout the trial of the case which he is reporting. The record should consist of :—

(1) a summary of the evidence, with notes on it, showing its admissibility and applicability to the offence charged.

(2) notes on the procedure with references to the codes, e. g., to such matters as the rules as to cross-examination, re-examination, drawing up of charge and taking the statement of the accused.

It should be understood that value will be given to notes intelligently based on annotated editions of the Criminal Procedure Code, Penal Code and Evidence Act.

4. The District Magistrate will forward these records to the Legal Remembrancer, who will, at any time before the date fixed for the departmental examination, send a statement of his opinion thereon to the Central Examination Committee for consideration and submission to Government with the result of each half-yearly examination. The District Magistrate should keep himself informed of the progress which is made in the preparation of these records so as to ensure that they are punctually submitted, and should examine the first record of each officer to see that it has been prepared on the right lines.

5. If, in the opinion of the Legal Remembrancer, an officer has once prepared the record satisfactorily, he will not be required to do so again, even although he may not be adjudged to have passed in Law.

6. Rules 3, 4 and 5 will be applicable to the cases of probationers after the first twelve months of their probation if they intend to appear for the departmental examination in Law by the Lower Standard before they are appointed substantively *pro tempore*.

7. Probationers should, during the period of their training in the Magisterial Department, attend the Court of a first class Magistrate, selected by the District Magistrate, during the trial of criminal cases. They should be required to prepare a full, complete and careful record of the depositions of the witnesses and a concise summary of the evidence given. They should also be required to take notes of the arguments of the pleaders and discuss

the application of the law to the facts of the cases reported by them, and to write a decision. This should be done in at least six defended cases.

8. The records of the cases prepared under rule 7 should be submitted by the probationer to the trying Magistrate, who should examine them with a view to seeing that they are being intelligently prepared. He should point out any obvious mistakes. The records should also be occasionally examined by the District Magistrate, Additional District Magistrate or the Joint-Magistrate. The preparation of the records prescribed in rule 7 is additional to the preparation of the records prescribed in rule 3, and should be completed during the first three months of probation ; the records prepared under rule 7 will not be utilised for the purpose of rule 3.

9. It is not necessary for Assistant Magistrates to prepare the records prescribed in rule 7. After attending the Court of a selected first class Magistrate for a week, they should be given simple cases to try.

10. Junior officers may be deputed for miscellaneous enquiries in regard to criminal cases when the inspection of a locality or other matter is important, and they may be examined in Court as to their reports. They may also be deputed to conduct specific enquiries in chaukidari matters and to preside at the payment of chaukidars ; before doing this they should make themselves thoroughly acquainted with the rules. For a period not usually exceeding one month, they may be placed in subordinate charge of the Chaukidari Department in order to learn the office procedure. They should also study the miscellaneous work of the Magistrate's office.

11. All junior officers are required to undergo a training in treasury work, and for that purpose should be placed in charge of the district treasury, under the general supervision of the Deputy Collector ordinarily in charge, for a period of not less than six weeks continuously, and must obtain a certificate from the Collector to the effect that they have duly attended to and satisfactorily discharged the duties of Treasury Officer for the prescribed period.

12. Probationers should not be required to work as clerks, or to write up registers ; they should, however, prepare notes or *précis* of cases and draft letters. They should see all the papers which go up to the Deputy Collector, and the Deputy Collector should utilise their services in any way that he can in connection with the cases. The Deputy Collector should, at the same time, see that the probationer makes himself acquainted with the law and rules on the subject, and should from time to time require him to prepare a note explaining the procedure or the reason for any action taken in a particular case. In departments the work of which involves the keeping of accounts or registers, probationers should check and initial entries made in registers, check the accounts and examine the preparation of returns. They should attend inspections by the gazetted officers in charge of departments and by the Collector, and should assist during those inspections.

13. At the end of a probationer's period of training in any department, or under any Deputy Collector, the Deputy Collector should record a note in the register referred to in rule 1, stating how the probationer has attended to his duties and a general opinion of his industry and ability This should be shown to the Collector.

14. Probationers should keep a diary and record briefly the work done by them day by day. The diary should be submitted to the Deputy Collector under whom they are working for the time, and should be seen by the Collector.

15. Junior officers should not take up survey and settlement work before they are deputed to the annual training camp. The rules for the regulation of this camp are contained in the Survey and Settlement Manual.

16. The programmes prepared under rule 1 should make provision for short periods to be spent in learning the nature of the work which is done in the following departments :—

(1) Tauzi..
(2) Cess.
(3) Record-room.
(4) Land Registration.
(5) English office.
(6) Munshikhana.
(7) Certificates.
(8) Partition.
(9) Nazarat.
(10) Income-tax.
(11) Land Acquisition,

and junior officers should be required to study the manuals concerned while they are engaged in those departments.

All junior officers should be put in charge for a short period of the Copying Department of the Collectorate Record-room.

They should be required to make themselves thoroughly acquainted with the rules for inspecting the accounts of Government estates and, in districts in which there are suitable estates, to inspect accounts according to the rules and to check arrear lists under the supervision of the Khas Mahal Deputy Collector.

In the case of Wards' estates of which the accounts are sent to head-quarters for audit, their services may be utilised for short periods in assisting to audit the accounts.

Touring. 17. The District Officer should occasionally take junior Assistant Magistrates with him on his tours, but not for such long periods as will interfere with their preparation for the departmental examinations. During these tours the District Officer will find opportunities for instructing them in the several branches of the administration of a district.

Junior officers should not ordinarily be sent out on tour for long periods, but their services may with advantage be utilised for distributing and collecting agricultural loans, for making local enquiries in probate cases, for assisting the Land Acquisition Deputy Collector in making local payments, for enquiries about agricultural calamities, and for inspecting accounts in Government estates.

Agriculture. 18. All junior officers should make themselves familiar with the appearance and the names of local crops, as well as of the times of sowing and harvesting. They should also, as far as possible, study the elements of agriculture. For this purpose they should all read Mr. MacKenna's "Agriculture in India" (1915), and afterwards, when they have time, Wallace's "Indian Agriculture." Other scientific works on agriculture, both general and Indian, will be found in the district libraries.

No. 150T.R.—The 23rd April 1917.—The following agreement, made under section 41 of the Land Acquisition Act, 1 of 1894, is published for general information :—

L. BIRLEY.
Secy. to the Govt. of Bengal.

Stamp annas eight.

MEMORANDUM of agreement made this 20th day of April 1917, between the Burma Oil Company Limited, a Joint Stock Company with Limited liability incorporated under the English Companies' Act, and having its registered office at Glasgow in Scotland (hereinafter called the Company) of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purpose of erecting of additional cooly lines in their Oil Installation the Company has applied to the Government of Bengal for the acquisition, under the provisions of the Land Acquisition Act, 1894, of the piece or parcel of land containing ·22 acre or thereabouts situate in the village of Nalsa, in the district of Chittagong and more particularly described in the schedule hereto and delineated in the plan* hereunto annexed. And whereas the said Government of Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose, and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described.

And whereas the said Government of Bengal has required the Company under the provisions of section 41 of the above mentioned Act to enter into the agreement with the Secretary of State hereinafter contained. Now this Indenture witnesseth that it is hereby agreed and declared as follows :—

1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded, by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under Part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred, and all costs, charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. On demand made by the said Collector the obligations of the Company under the last preceding clause not being thereby limited, the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. On payment by the Company of all demands under the foregoing first clause, or, in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the 2nd clause), but not before possession shall have been taken under the provisions of the above mentioned Act, the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

4. The said land shall be held by the Company for the purposes of such an erection of additional cooly lines as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. The said erection of additional cooly lines shall be completed (and fully equipped in all respects ready for use) within one year from the date on which possession of the said land shall have been given to the Company.

* Not printed and published herewith, but may be inspected in the office of the Collector of Chittagong.

6. Should the said erection of additional cooly lines not be completed (and fully equipped in all respects ready for use) within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal, or should the said land at any time thereafter cease for a period of 12 consecutive months, to be held, and used, or cease to be required for the purpose or purposes provided for in the foregoing fourth clause, then and in any such case, the said Government may summarily re-enter upon and take possession of the said land and thereupon the interest of the Company in the said land shall absolutely cease and determine.

7. On taking such possession the said Government may sell or otherwise deal with the said land as it may think proper. Should the said Government sell the said land, the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Company. Should the said Government, on taking possession, decide not to sell the land, it shall repay to the Company all sums received from the Company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent.), but will not repay any sums paid and received on account of costs, charges and expenses.

8. Should any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein contained the same shall be referred to the said Government of Bengal, and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

In witness whereof E. A. Martin the duly constituted attorney of the Burmah Oil Co., Ltd., and the Secretary of State for India in Council have hereunto set their respective hands and seals.

NOTIFICATION.

No. 4—The 1st May 1917.—The following draft of (*1*) revised rules and (*2*) revised schedules of rates of tolls, which the Governor in Council intends to make and fix for the Midnapore Canal, and its branch, the Naraingar Distributary, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of those portions of Bengal Government Notification No. 98, dated the 4th April 1893, as amended by subsequent notifications, and of Notification No. 3, dated the 17th May 1906, which relate to the Midnapore Canal, with branch to Naraingar, is published, as required by section 12 of that Act, for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 15th June 1917, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

Draft Rules.

1. Every vessel entering or passing along the Midnapore Canal, or its branch, the Naraingar Distributary, shall be liable to measurement for the purpose of ascertaining the amount of toll the vessel should pay according to the schedule of rates authorised by Government to be charged on this line of navigation.

2. The tonnage of every vessel, except loose timber and rafts, whether laden or empty, shall, for the purposes of the "Canals Act, 1864," and of these rules, be determined by the following measurements:—

(*a*) The product of half the length of the vessel, measured along the water-line and round the contour of the vessel from centre of stem to centre of stern-post, multiplied by the interior greatest breadth of the vessel or by the greatest breadth of the cargo, should this overhang, or, as in the case of logs, be lashed alongside, multiplied by the greatest interior depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting fractions of a foot, and the measurement of the breadth and depth in feet and quarters of feet, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any portion of 100 maunds less than 10 maunds is to be omitted.

(*d*) In calculating the amount of toll to be levied on steamers, an allowance of one-third the total maundage, as found under clauses (*a*), (*b*) and (*c*), is to be made for engine space.

3. Every vessel entering or passing along the said line of navigation shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The number of days so allowed without additional payment shall be calculated at the rate of one day for every eight miles, or portion of eight miles, to be traversed, together with one day for every 200 maunds of measurement. In the case of rafts, one day for every five miles shall be allowed.

4. Toll may be paid at the first station, either for the entire number of toll-stations on the line of navigation or for any less number of stations.

5. The tickets thus given may be demanded for inspection by any duly authorised navigation officer, and must be kept on board and at hand for that purpose. They must be shown at each toll-station the vessel has

to pass as a passport that no further payment of toll is to be demanded. The tickets shall be delivered up at the last toll-station.

Navigation officers shall have authority to check-measure vessels whenever they consider it necessary, and if the toll due according to the check-measurement exceeds that originally paid, the difference shall be payable at the toll-station of check-measurement, or at the next toll-station at which the vessel may arrive if the check-measurement was made at some point other than a toll-station. The officer collecting the difference shall endorse the ticket showing the measurements, and note the amount recovered in excess of the toll originally paid.

6. Owners or hirers of vessels may compound, by the payment of a fixed sum, for the use of the whole or any portion of the line of navigation for any period that may be agreed upon, not exceeding one year. In such case the vessel shall be furnished with a ticket showing the amount of toll paid, the period for which the toll has been compounded, and the limits of the line of navigation within which the vessel may pass. Such ticket shall be kept on board the vessel, and shall be produced when required under rule 5, but shall be given up only on the date of the expiry of the period for which it is granted, and at the station from which it is issued.

7. Duplicates of lost tickets of which the numbers and dates of entry can be satisfactorily established, will be granted by the officers in charge of toll-stations on payment of a fee of one rupee.

8. Every vessel, which does not complete its voyage within the number of days allowed by rule 3, shall, for each day or part of a day in excess, be liable to an extra charge equal to 8 annas per 100 maunds, calculated on the maundage of the vessel, as determined by rule 2. The charge for demurrage on timbers and rafts shall be as follows: —

Timber in rafts or loose	...	One anna per timber per day.
Bamboos in floats	...	Two annas per 100 per day.
Bullahs in rafts	...	Eight annas per 100 per day.

Provided as follows:—

(*1*) Exemption from payment of demurrage may be granted to vessels detained in the canal or its branch by stress of weather or heavy traffic, steamers broken down and boats damaged, if immediate notice of the cause of detention be given at the nearest toll-station for the information of the Executive Engineer.

(*2*) Missionary boats are exempted from payment of demurrage for lying in the canal or its branch.

(*3*) Exemption from payment of demurrage or tolls may be granted to vessels while waiting for cargo or for any other purpose at the places on the Midnapore Canal fixed by the Superintending Engineer for such purposes which include Kayali ghats, Canal ghats above and below every lock, and all free ghats on the 6th Reach of the Canal, Panskura to Dainan. Such exemption will not extend over a period of more than three months in each case.

If the person in charge of any vessel, on the completion of a voyage or on entering the canal, wishes his vessel to remain in any of the free ghats in the line of navigation he shall give up his toll ticket at the nearest toll station, specifying the particular ghat where he wishes to keep his vessel and shall take out a fresh ticket from such toll station before leaving such ghat. On failure to comply with this provision he shall be liable to demurrage charge as provided in this rule, which shall be recoverable as toll.

(*4*) Partial exemption from payment of demurrage is to be granted to boats thus:—

(*a*) by increasing the allowance of time for the voyage (*see* rule 3), which shall be calculated at the rate of one day for every 8 miles or portion of 8 miles to be traversed, together with one day for every 200 maunds of measurement or any portion of 200 maunds which is not less than 60 maunds—(from 60 to 190 maunds one day shall be allowed);

(*b*) by granting the following extra times for the purpose of *bona-fide* loading or unloading, or both, in the canals to—

		Days,
Cargo boats from	10 to 100 maunds of measurement ...	5
„ „ „	110 to 200 „ „ ...	8
„ „ „	210 to 300 „ „ ...	10
„ „ „	310 to 400 „ „ ...	12
„ „ „	410 to 500 „ „ ...	14
„ „ of over	500 maunds—for every additional 100 maunds. ...	3
Passenger boats of 10 maunds and upwards	...	5

9. Vessels are allowed to be moored while waiting for cargo or otherwise at the Kayali ghats, Canal ghats above and below every lock, and all free ghats on the 6th Reach of the Canal—Panskura to Dainan; but they are allowed to be loaded and unloaded only at the Kayali ghats and the free ghats in the 6th Reach. In any case they must complete the voyage within the time allowable to them under these rules, otherwise demurrage will be charged.

The places at which vessels can be ordinarily loaded or unloaded in any Reach of the line of navigation are notified at the locks in the Reach, and no vessel without the previous permission of the Toll Collector (who should without delay inform the Executive Engineer of his permission having been granted), can be allowed to load or unload at any other place. Should any vessel be loaded or unloaded at any place other than those notified and without the said permission having been obtained, the person in charge of the vessel and the consignor or consignee of the goods shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 10 for each offence.

10. No boat is permitted to moor in the outer channels of any lock. The channels to which this prohibition extends are as follows:—

Ulubaria.—Between the Ulubaria Lock and the Banspati Khal.
Bansb· ria.—Between the Bansbaria Lock and the Damodar river.
Kultapara.—Between the Kultapara Lock and the Damodar river.
Kantapukur.—Between the Kantapukur Lock and the Rupnarayan river.
Dainan.—Between the Dainan Lock and the Rupnarayan river.
Panskura.—Between the Panskura east Lock and the Cossye river.
Panskura.—Between the Panskura west Lock and the Cossye river.
Mohunpur.—Between the Mohunpur Lock and the Cossye river.

No boat will be allowed, under any circumstances, to drop an anchor or to moor to both banks in any lock entrance or in the canal, except in the case of severe stress of weather.

11. Except with the written permission of a navigation officer, no goods or cargo may be deposited on any bank, berm or land appertaining to the canal at places other than those notified by the Superintending Engineer of the circle as available for such a purpose. Any person depositing goods in contravention of this rule shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50.

12. Navigation officers may order consignors or consignees or owners to remove their goods from the places notified as available for depositing cargo under rule 11. Goods not finally removed within a period of six days from the receipt of such order shall be liable to a charge of four annas per 100 maunds for each day or part of a day after the expiry of six days until finally removed.

13. Any vessel whose extreme dimensions exceed 130 feet in length and 19 feet in breadth *including goods overhanging* is prohibited from entering or passing along the line of navigation without the special permission in writing of the Executive Engineer; but straw boats of 20 feet width including overhangings (the overhangings beyond 19 feet being entirely straw) may be passed through the locks of the Main Canal; also no vessel exceeding 50 feet in length and 10½ feet in breadth including goods overhanging will be allowed to enter or pass along the Naraingar Distributary.

14. It will not be compulsory for the locks to be opened to single vessels of less than 500 maunds burden, except in the case of mail or despatch boats or passenger or cargo-boats in tow of steam-vessels; but the locks shall be opened for the passage of boats at least twice a day.

15. *Mooring.*—All vessels stopping at night must be moored head and stern to the bank of the channel or wherever specially ordered.

Only one line of vessels shall be allowed to pass along the canal or to make fast along and in a line with the canal banks or along and in a line with the banks of the river entrance to the locks, and no vessel shall be made fast, or be placed outside of vessels so secured, without the permission of a navigation officer. No vessel shall, however, be placed in such a position as to endanger the safety of other vessels, to obstruct their passage, or to impede the navigation.

16. *Rule of the road.*—When under sail, vessels are to keep in the centre of the channel. When being tracked, vessels are, wherever practicable, to keep to starboard or the right side of the channel. Vessels meeting in the canal, except when being tracked, must keep to their right when passing, and when one vessel overtakes another, the former must pass on the left. When vessels, one of which is sailing and the other steaming, meet in a canal, the sailing vessel must keep to the leeward. No steamer passing any vessel must proceed at a greater speed than half speed.

17. *Lights and signals.*—All vessels, whether travelling or moored in the line of navigation, must, between sunset and sunrise, carry a white light in a lantern on the forepart of the vessel where it can be distinctly seen from *all sides.* All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the white light prescribed above.

Where signals are used, no vessel shall enter or attempt to enter the entrance channel of a lock when a red flag or red light is displayed at the end of the lock next her, "*but shall wait until the signal intimating 'all clear' is displayed.*" Steam-vessels approaching a lock shall whistle when a mile distant, and shall continue to whistle at intervals, until the signal intimating that the lock is open or closed is displayed, or, if no signals are used, until arrival.

18. *Crews and attendants.*—Every vessel, when stationary, shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

19. *Fittings.*—Vessels must have their masts, high awnings, and funnels fitted so that they can be let down with ease and speed, and no bamboos or poles shall be erected on or by vessels when at anchor.

20. *Conduct of navigation.*—Vessels are prohibited from making fast to any portion of the lock-gates or gearing, and steamers are prohibited from making fast the tow-lines of their boats until the latter are clear of the locks. Steamers are prohibited from lashing boats or barges alongside while proceeding within locks. No towing rope of a greater length than 100 feet is to be used in the canal. The throwing of cinders into the canal is prohibited; they are to be deposited on the banks.

21. In every case of wreck or obstruction of the channel by sunken vessels, the Supervisor of the line of navigation, or of a part of it, may call upon the person in charge of the vessel to remove the same without delay, and shall give every reasonable assistance towards so doing. But should the owner of the vessel or raft be not forthcoming, or should he not use reasonable expedition in removing the obstruction, or should he decline or fail to use proper assistance which may be offered to him by the Supervisor, this officer may, under the provisions of section 14 of the "Canals Act," undertake the removal of the obstruction himself at the cost of the owner of the boat, recovering the expense in the manner prescribed in section 9 of the Act.

In the case of emergency and in the temporary absence of the Supervisor from the place where the obstruction occurred, any navigation officer present must at once report the matter to the Supervisor.

22. If the Supervisor be unable to ascertain the name and place of business or of the abode of the owner of the cargo of any vessel or boats seized under the Act, he shall notify the seizure in the most public manner available.

23. In the event of any damage or injury being occasioned to the canal works by wilfulness or negligence on the part of any person in charge of a vessel, the navigation officers may detain the vesssel at any point within the canal for a period not exceeding 48 hours: provided that, within that period, the navigation officers shall lodge a complaint against such person in charge of the vessel before a Magistrate under section 16 of the Act.

24. For any contravention of rules 15, 16, 17, 18, 19 and 20, the person in charge of the vessel shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50.

25. The term "navigation officers" as used in these rules shall include all persons appointed under section 8 of the "Canals Act, 1864", and all Public Works Officers or subordinates in charge of the canal not below the grade of Sub-Overseer.

26. The canal and its branch may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but in the event of any sudden emergency they may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

PART IA.

Orders and Notifications by the Government of India.

The following notification, issued by the Government of India in the Finance Department, published in the *Gazette of India*, dated the 21st April 1917, is republished for general information.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

ACCOUNTS AND FINANCE.
PUBLIC DEPT.

Simla, the 20th April 1917.

No. 868-F.—In their Finance Department's Notification No. 745-F., dated the 6th of April 1917, the Government of India published the details of two schemes which had been devised to assist Government servants in subscribing to the Indian War Loan by means of monthly deductions from their pay. The first scheme, which enables the monthly payments to be spread over 10 months, was made available to all Government servants throughout India; but the second scheme, in which advantage was taken of an offer of the Bank of Bengal to prolong the period of payment to two years, was at the outset confined to officers serving in the Bengal Presidency and in certain other Provinces in which the Bank of Bengal operates. The Government of India have now much pleasure in announcing that the Bank of Bombay and the Bank of Madras have agreed to make available to Government servants employed in the marginally* noted areas the same facilities for subscribing to the War Loan by means of 24 monthly deductions from their pay as are afforded by the Bank of Bengal's scheme. Accordingly the Government of India, on a request from an officer, who desires to subscribe in this way to the Indian War Loan will deduct from his pay and pay to the Bank the amount due each month for repayment of the Bank's advance. The terms on which advances will be made by the Banks of Bombay and Madras are in all respects similar to those of the Bank of Bengal scheme, as described in Appendix B to the notification of the 6th of April 1917: and, as stated in paragraph 3 of that notification, the scheme will be alternative and not in addition to the Government scheme described in Appendix A.

* Bank of Bombay—Bombay Presidency, Sind and Berar
Bank of Madras—Madras Presidency

2. It is also notified that the Bank of Bengal scheme is applicable to officers serving in the United Provinces, Assam and Delhi in addition to the Provinces noted in the margin of paragraph 3 of the notification of the 6th of April.

J. B. BRUNYATE,
Secy. to the Govt. of India.

The following notifications, issued by the Government of India in the Department of Commerce and Industry, published in the *Gazette of India*, dated the 21st April 1917, are republished for general information.
